**Generisch TV98H618**

# Generisch TV98 ATV H618 Smart 8K Android 14 TV Stick User Manual

Model: TV98H618

## 1. Introduction

This manual provides instructions for setting up and operating your Generisch TV98 ATV H618 Smart 8K Android 14 TV Stick. This device transforms your television into a smart entertainment hub, offering access to a wide range of streaming services and applications independently of your internet provider.

The TV98 ATV H618 features an Allwinner H618 Quad Core ARM Cortex A53 CPU, Mali G31 GPU, 2GB DDR3 RAM, 16GB eMMC storage, dual-band Wi-Fi 6 (2.4G/5G), Bluetooth 5.0, and supports 8K UHD video output via HDMI 2.0A. It runs on Android 14.0, providing a versatile platform for media consumption and app installation from the Google Play Store or via .apk files.

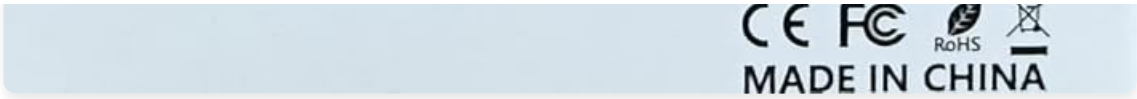

Image 3.1: Illustration of connecting the TV98 ATV H618 Smart TV Stick to a television's HDMI port and power source.

2. **Power Connection:** Connect the USB charging cable to the TV stick and then to a power adapter (not included) or a USB port on your TV that provides sufficient power (DC 5V/2A recommended).
3. **Select HDMI Input:** Turn on your TV and use its remote control to select the correct HDMI input source where the TV stick is connected.
4. **Initial Setup & Network Connection:**
   Upon first boot, the device will guide you through the initial setup process. This includes selecting your language, connecting to your Wi-Fi network (2.4G or 5G), and logging into your Google account to access the Play Store.

Image 3.2: The side of the product packaging illustrating the three-step setup process: attach to TV, connect to internet, and start streaming.

5. **Remote Control Pairing (if necessary):** The voice remote control should pair automatically. If not, follow the on-screen instructions or refer to the "Remote Control Infrared Learning" section below.

## 4. Operating Instructions

### 4.1 Basic Navigation

Use the directional pad (up, down, left, right) and the "OK" button on the voice remote control to navigate the Android TV interface. The "Back" button returns to the previous screen, and the "Home" button takes you to the main home screen.

### 4.2 App Installation

The TV98 ATV H618 runs on Android 14.0, providing access to the Google Play Store. You can download and install a wide variety of applications, including streaming services, games, and utilities.

- **Via Google Play Store:** Navigate to the Play Store icon on your home screen, search for your desired app, and select "Install".
- **Manual Installation (.apk):** For apps not available on the Play Store, you can download the .apk file from a trusted source onto a USB drive. Connect the USB drive to the TV stick and use a file manager app (downloadable from Play Store) to locate and install the .apk file. Ensure "Unknown sources" installation is enabled in the device settings if prompted.

### 4.3 Voice Control (Ok Google)

The included voice remote control supports "Ok Google" functionality. Press the dedicated voice button on the remote and speak your commands or search queries. For example, "Open YouTube," "Search for action movies," or "What's the weather?"

## 4.4 Media Playback

The TV stick supports various media formats and can play local media from a USB drive or TF card (up to 64GB). It also supports online streaming from installed applications like Netflix, YouTube, Hulu, and more.

- **Local Media:** Insert a USB drive or TF card into the designated port. Use a file manager app to browse and play your media files.
- **Streaming Services:** Open your preferred streaming app (e.g., Netflix, YouTube) and log in with your account to access content.

## 4.5 DLNA Function

The TV98 ATV H618 supports DLNA (Digital Living Network Alliance), allowing you to stream media content from compatible devices (like smartphones, tablets, or computers) on the same network directly to your TV stick.
To use DLNA, ensure your sending device and the TV stick are connected to the same Wi-Fi network. Use a DLNA-compatible app on your sending device to cast content to the TV stick.

## 4.6 Remote Control Infrared Learning

The voice remote control has an infrared learning function, allowing you to program certain buttons (e.g., TV power) to control your television directly.

1. **Enter Learning State:** Press and hold the **[TV]** button on the TV98 remote for 3 seconds. The red indicator light will flash slowly, indicating it's in learning mode.
2. **Align Remotes:** Point your TV's original infrared remote control directly at the TV98 remote's IR receiver (usually at the top).
3. **Learn Function:** Press the button on your TV's remote that you wish to learn (e.g., Power button). The TV98 remote's red indicator light will flash rapidly and then go out, confirming successful learning.
4. **Repeat for Other Buttons:** Repeat steps 1-3 for any other buttons you wish to program.
5. **Exit Learning State:** Press the **[TV]** button again to exit learning mode.

## 5. Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the device. Do not use liquid cleaners or aerosols.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Software Updates:** Periodically check for system updates in the device settings to ensure optimal performance and security.
- **Avoid Obstructions:** Ensure the TV stick has adequate ventilation and is not covered, as this can lead to overheating.

## 6. Troubleshooting

| Problem | Possible Solution |
| --- | --- |
| No power/Device not turning on | ◦ Ensure the USB charging cable is securely connected to the TV stick and a power source (DC 5V/2A).<br>◦ Try a different USB port or power adapter.<br>◦ Check if the TV's USB port provides enough power. |
| No signal on TV screen | ◦ Verify the TV stick is fully inserted into the HDMI port.<br>◦ Ensure your TV is set to the correct HDMI input source.<br>◦ Try a different HDMI port on your TV.<br>◦ Restart the TV stick by unplugging and re-plugging the power. |
| Wi-Fi connection issues | ◦ Check if your Wi-Fi router is working correctly.<br>◦ Ensure the Wi-Fi password is entered correctly.<br>◦ Move the TV stick closer to the Wi-Fi router or reduce interference.<br>◦ Restart both the TV stick and your Wi-Fi router. |
| Remote control not responding | ◦ Ensure the remote has fresh batteries.<br>◦ Re-pair the remote control if it uses Bluetooth (check device settings).<br>◦ If using IR, ensure there are no obstructions between the remote and the TV stick's IR receiver. |
| App crashes or slow performance | ◦ Close background applications.<br>◦ Clear the cache of the problematic app in device settings.<br>◦ Ensure the device has enough free storage space.<br>◦ Restart the TV stick. |
