

D88

User Manual for D88 Ai Translation Headphones

Brand: Generic | Model: D88

1. INTRODUCTION

This manual provides comprehensive instructions for the D88 Ai Translation Headphones. Designed for business meetings, personal use, and on-the-go communication, these headphones offer advanced features such as AI translation, noise reduction, and a unique rotating digital display. Please read this manual carefully to ensure proper use and maintenance of your device.

2. PRODUCT FEATURES

The D88 Ai Translation Headphones are equipped with several innovative features to enhance your audio and communication experience:

- **Versatile and Innovative Design:** Combines cutting-edge features with a user-friendly design for top-notch audio quality and advanced technology.
- **Rotating Digital Display Screen:** A unique display shows information such as battery power and connection status, providing real-time updates.
- **Advanced Noise Reduction Technology:** Effectively isolates external noise for an immersive auditory experience, ensuring clear sound quality in various environments.
- **Seamless Bluetooth 5.3 Connection:** Utilizes the latest Bluetooth 5.3 chip for quick, stable, and low-latency pairing with your devices, ideal for games and video calls.
- **Instant Translation Capabilities:** Facilitates communication by providing instant translations, keeping you connected to your smartphone or tablet for a seamless conversation experience.
- **Long-term Wearing Comfort:** Designed for extended use without discomfort.
- **Ultra-long Battery Life:** Ensures prolonged usage on a single charge.
- **Intelligent Fingerprint Touch Control:** Allows for intuitive control of various functions.
- **Voice Assistant Summoning:** Quick access to your device's voice assistant.
- **Large Capacity Charging Compartment:** Provides multiple charges for the earbuds.

3. SETUP GUIDE

3.1 Initial Charging

Before first use, fully charge the D88 headphones and their charging case. Connect the provided USB cable to the charging port on the case and a power source. The digital display on the case will indicate the charging status and battery level.

3.2 Powering On/Off

- **Power On:** Open the charging case lid. The headphones will automatically power on and enter pairing mode.
- **Power Off:** Place the headphones back into the charging case and close the lid. They will automatically disconnect and power off.

3.3 Bluetooth Pairing

1. Ensure the headphones are powered on and in pairing mode (indicated by a flashing light or specific display icon).
2. On your device (smartphone, tablet, computer), go to Bluetooth settings.
3. Search for available devices and select "D88" (or similar name) from the list.
4. Once connected, the headphones will indicate a successful pairing, and the digital display may show a connected status.

4. OPERATING INSTRUCTIONS

4.1 Basic Controls (Touch Control)

The D88 headphones feature intelligent fingerprint touch controls. Specific gestures may vary slightly, but common functions include:

- **Play/Pause:** Single tap on either earbud.
- **Next Track:** Double tap on the right earbud.

- **Previous Track:** Double tap on the left earbud.
- **Answer/End Call:** Single tap on either earbud during an incoming call.
- **Reject Call:** Press and hold on either earbud during an incoming call.
- **Activate Voice Assistant:** Triple tap on either earbud.

4.2 Noise Reduction

The D88 headphones utilize advanced active noise reduction technology. To activate or deactivate noise reduction, refer to the specific touch control gestures or settings within your connected device's audio application. This feature is designed to minimize ambient sounds for a clearer listening experience.

4.3 AI Translation Function

To utilize the AI translation feature, ensure your headphones are connected to a compatible smartphone or tablet with the necessary translation application installed. The headphones act as an audio interface for real-time translation, allowing you to hear translated speech directly. Follow the instructions within your chosen translation app for specific usage details.

5. MAINTENANCE AND CARE

Proper care will extend the lifespan and performance of your D88 Ai Translation Headphones:

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the headphones and charging case. Do not use abrasive cleaners, alcohol, or chemical solvents.
- **Storage:** When not in use, store the headphones in their charging case to protect them from dust and damage. Store in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** Avoid fully discharging the battery frequently. For long-term storage, charge the battery to about 50% every few months to prevent deep discharge.
- **Water Resistance:** The D88 headphones are not specified as waterproof. Avoid exposure to water, sweat, or high humidity.

6. TROUBLESHOOTING

If you encounter issues with your D88 Ai Translation Headphones, please refer to the following common solutions:

| Problem | Possible Cause | Solution |
|---------------------------------|--|--|
| Headphones not powering on. | Low battery; charging case lid not closed properly. | Charge the headphones and case fully. Ensure the lid is closed firmly. |
| Cannot pair via Bluetooth. | Headphones not in pairing mode; device Bluetooth off; interference. | Ensure headphones are in pairing mode. Turn Bluetooth off and on on your device. Move closer to your device. |
| No sound or poor sound quality. | Volume too low; headphones not properly seated; dirty earbuds; connection issue. | Adjust volume. Re-seat headphones. Clean earbuds. Reconnect Bluetooth. |

| Problem | Possible Cause | Solution |
|-----------------------------------|---|--|
| Digital display not working. | Low battery; malfunction. | Charge the case. If issue persists, contact customer support. |
| Translation function not working. | App not installed/configured; internet connection issues; microphone blocked. | Verify app installation and settings. Check internet connection. Ensure microphone is clear. |
