KAIFAM SQ-GDC2C-L

KAIFAM Metal Twin Over Full Bunk Bed Instruction Manual

Model: SQ-GDC2C-L

1. INTRODUCTION

Thank you for choosing the KAIFAM Metal Twin Over Full Bunk Bed. This manual provides essential information for the safe assembly, use, and maintenance of your new bunk bed. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Important Safety Information

- Always use the ladder to climb up and down.
- Do not overload the bed frame; the maximum weight capacity is 500 pounds.
- Be cautious around the semi-enclosed guardrails to prevent entrapment.
- Ensure all connections are securely tightened before use.
- Only use mattresses that comply with the recommended dimensions for each bunk.

2. PACKAGE CONTENTS

Before assembly, verify that all parts and hardware listed below are present. If any items are missing or damaged, please contact KAIFAM customer support.

Parts List

- 1: Left Bottom Leg Frame
- 2: Right Bottom Leg Frame
- 3: Bottom Bed Side Rails (Long)
- 4: Top Bed Side Rails (Long)
- 5: Top Bed Slats
- 6: Bottom Bed Slats
- 7: Bottom Bed Center Support Bar

8. 8: Top Bed Headboard/Footboard Panels
9. 9: Bottom Bed Headboard/Footboard Panels
10. 10: Ladder Side Rails
11. 11: Ladder Steps
12. 12: Ladder Top Support Bar
13. 13: Ladder Bottom Support Bar
14. 14: Bottom Bed Front/Back Crossbar

Hardware List

- Bolts (various sizes, labeled A, B, C in video)
- Washers (labeled D, I in video)
- Allen Wrench (labeled E in video)
- Plastic End Caps (labeled F, G, K, O in video)
- Plastic Slat Holders (labeled M, N in video)
- Ladder Step Screws (labeled P in video)
- Ladder Hooks (labeled H in video)
- Ladder Foot Caps (labeled L in video)

3. ASSEMBLY INSTRUCTIONS

Follow these steps carefully to assemble your KAIFAM bunk bed. It is recommended to have two people for assembly.

Assembly Video Guide

Your browser does not support the video tag.

Video: Official KAIFAM assembly guide for the bunk bed, demonstrating each step visually.

Step-by-Step Guide

1. Step 1: Assemble End Frames (Headboards/Footboards).

Connect the vertical posts (Parts 1, 2) to the horizontal crossbars (Part 14 for bottom, similar for top) and the headboard/footboard panels (Parts 8, 9) using appropriate bolts (E+I) and secure with the Allen wrench. Attach

plastic feet (K) to the bottom of the frames.

Image: Illustration of connecting the side frames and crossbar for the bottom bunk, showing guardrail and multi-screwed details.

2. Step 2: Connect Side Rails to Bottom Bunk End Frames.

Attach the bottom bed side rails (Part 3) to the assembled bottom end frames using bolts (A+I) and secure with plastic caps (G).

3. Step 3: Install Bottom Bunk Slats.

Place the bottom bed slats (Part 6) onto the side rails. Attach the center support bar (Part 7) using bolts (B+I) and secure the slats with plastic holders (N).

4. Step 4: Connect Side Rails to Top Bunk End Frames.

Attach the top bed side rails (Part 4) to the assembled top end frames using bolts (A+I) and secure with plastic caps (G).

5. Step 5: Install Top Bunk Slats.

Place the top bed slats (Part 5) onto the top side rails and secure them with square plastic holders (M).

6. Step 6: Assemble the Ladder.

Connect the ladder steps (Part 11) to the ladder side rails (Part 10) using screws (P). Attach the ladder top support bar (Part 12) and bottom support bar (Part 13) with foot caps (L).

7. Step 7: Attach Ladder to Bunk Bed.

Hook the ladder onto the top bunk rail and secure the bottom to the lower frame using bolts (D) and washers (H).

Image: Visual detail of the ladder attachment, sturdy construction, wider stair treads, and tight-fitting guardrails.

8. Step 8: Final Touches.

Insert any remaining plastic caps (F, O) into open frame ends. Re-tighten all bolts and screws to ensure maximum stability. Inspect the entire structure for any loose connections or instability before use.

4. USAGE

Mattress Compatibility

- The upper tier is designed for a Twin size mattress (76.77"L x 40.16"W).
- The lower tier is designed for a Full size mattress (76.77"L x 53.98"W).
- No box spring is required for either bunk.

Safety Guidelines

- Ensure the ladder is securely attached before climbing.
- Do not allow more than one person on the top bunk at a time.
- Periodically check all bolts and connections for tightness.
- Educate children on safe bunk bed usage, especially regarding climbing and playing.

Image: The bunk bed's space-saving design, ideal for maximizing room utility.

5. MAINTENANCE

- **Cleaning:** Wipe down the metal frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Regular Inspection:** Routinely check all nuts, bolts, and screws to ensure they remain tight. Re-tighten as necessary to maintain structural integrity.
- **Weight Distribution:** Avoid placing excessive or uneven weight on any part of the bed to prevent bending or

damage to the frame.

6. TROUBLESHOOTING

- **Bed Wobbles or Squeaks:**

Ensure all bolts and screws are fully tightened. The "noise-free design" relies on proper assembly. Check for any uneven floor surfaces and adjust if possible.

- **Missing Parts:**

Refer to the "Package Contents" section and contact KAIFAM customer support immediately if any parts are missing upon arrival.

- **Difficulty Assembling:**

Review the "Assembly Instructions" and the video guide. Ensure you are using the correct hardware for each step. Do not force parts together.

7. SPECIFICATIONS

Brand	KAIFAM
Model Number	SQ-GDC2C-L
Size	Twin Over Full
Product Dimensions	76.77"L x 53.98"W x 54.25"H
Color	Black
Material	Metal
Weight Capacity (Upper Bunk)	400 lbs
Weight Capacity (Lower Bunk)	600 lbs
Special Feature	Noise Free
Assembly Required	Yes
Item Weight	77.2 pounds

Twin Over Full Size
