Coleman 2205604

Coleman Kompact 20°F Sleeping Bag Instruction Manual

Model: 2205604 | Brand: Coleman

Product Overview

This manual provides instructions for the Coleman Kompact 20°F Sleeping Bag, designed for cool-weather use. It features Coletherm Max insulation for heat retention, a compressible stuff sack for compact storage, and a snag-free zipper for ease of use. This sleeping bag is suitable for campers up to 5 ft. 11 in. tall.

Key Features

- **Temperature Rating:** Stay warm in temperatures as low as 20°F.
- **Coletherm Max Fill:** Premium and lightweight synthetic fill provides better heat retention with less weight, allowing the bag to pack easily.
- **Compressible Stuff Sack:** Includes a stuff sack with side straps that can be cinched to compress the bag to a compact size (approximately 9.8 x 9.8 x 15.7 inches).
- **Thermolock Draft Tube:** Prevents heat loss through the zipper.
- **ZipPlow Zipper:** Patented zipper design for snag-free opening and closing.
- **Comfort Cuff:** Patented design provides soft protection and comfort around the face.
- **Roll Control:** Patented design helps keep the bag straight while rolling it up.
- **Quick Cord System:** Easy tying system secures the bag once rolled.
- **Dimensions:** 75 x 33 inches, fits campers up to 5 ft. 11 in.
- **Care:** Machine washable for easy cleaning.

Setup Instructions

Unpacking and Lofting

Remove the sleeping bag from its stuff sack. Lay the sleeping bag flat on a clean, dry surface, such as inside a tent or on a ground tarp. Allow the insulation to loft for a few minutes to regain its full thickness and maximize warmth.

Preparing for Use

Ensure the zipper is fully functional and moves smoothly. If the bag has a Comfort Cuff, position it around your face for added warmth and comfort, especially in cooler temperatures.

Operating Instructions

Entering and Zipping

Unzip the sleeping bag completely. Lie down inside the bag and zip it up to your desired comfort level. The ZipPlow zipper is designed to prevent snagging on the fabric, ensuring a smooth closure.

Temperature Management

For colder conditions, ensure the Thermolock draft tube is properly positioned along the zipper to minimize heat loss. Adjust the zipper opening to regulate internal temperature. In warmer conditions, you can partially or fully unzip the bag for ventilation.

Maintenance

Cleaning

The Coleman Kompact sleeping bag is machine washable. Follow these steps for proper cleaning:

1. Use a large-capacity, front-loading washing machine without an agitator.
2. Wash with cold water on a gentle cycle using a mild detergent.
3. Do not use bleach.
4. Tumble dry on low heat with a few tennis balls or dryer balls to help fluff the insulation. Ensure the bag is completely dry before storing to prevent mildew.

Storage

For long-term storage, avoid compressing the sleeping bag tightly, as this can reduce the insulation's loft over time. Store it loosely in a large mesh bag or hang it in a dry, cool place. For transport, use the provided compressible stuff sack.

Troubleshooting

Zipper Snagging

The ZipPlow zipper is designed to reduce snagging. If the zipper snags, gently pull the fabric away from the zipper teeth while slowly moving the slider. Avoid forcing the zipper, as this can cause damage.

Cold Spots

If you experience cold spots, ensure the sleeping bag is fully lofted. Check that the Thermolock draft tube is correctly positioned along the zipper to block cold air. In very cold conditions, consider adding a sleeping bag liner for extra warmth.

Difficulty Rolling/Packing

Utilize the Roll Control design to keep the bag straight while rolling. For the stuff sack, compress the bag gradually, pushing air out as you go. Use the side straps on the stuff sack to cinch it down further for a more compact package.

Product Specifications

Feature	Detail
Brand	Coleman
Model Number	2205604

Feature	Detail
UPC	076501176872
Color	Blue
Occupancy	1 Person
Shape	Rectangular
Seasons	All Seasons
Temperature Rating	20°F (Below 0 degrees Celsius)
Age Range	Adult
Material	Polyester
Fill Material	Coletherm Max (Synthetic Fill)
Closure Type	Zipper
Maximum Height Recommendation	5 ft. 11 in.
Unpacked Dimensions (L x W)	75 x 33 in.
Included Components	Sleeping Bag
