SETUP AND ASSEMBLY

The assembly process is designed to be a rewarding challenge. Follow the included detailed instruction manual step-by-step for optimal results. The manual will guide you through the construction of each section of the car.

1. **Preparation:** Unpack all components and organize them by type or size as indicated in the instruction manual. Ensure you have a clean, well-lit workspace.
2. **Chassis Construction:** Begin by assembling the core chassis structure. Pay close attention to the connections to ensure stability.
3. **Engine and Drivetrain:** Construct the detailed engine and integrate it into the chassis.
4. **Steering Mechanism:** Carefully assemble the functional steering mechanism, ensuring the connection between the steering wheel and the front wheels is precise for smooth operation.
5. **Suspension and Wheels:** Attach the suspension components and wheels. Ensure wheels spin freely.
6. **Bodywork and Aerodynamics:** Assemble the various body panels, wings, and aerodynamic elements.
7. **Opening Roof:** Integrate the components for the manually opening roof feature.
8. **DIY Labels:** Once the model is fully assembled, apply the DIY labels according to the provided guide or your preference for a personalized touch.

Refer to the detailed diagrams in your physical instruction manual for specific part identification and assembly sequences.

OPERATING INSTRUCTIONS

Your Rastar Red Bull RB19 model features interactive elements designed for display and light interaction.

- Functional Steering:** The steering wheel in the cockpit is connected to the front wheels. Gently turn the steering wheel to observe the front wheels pivot, simulating the car's steering mechanism.
- Opening Roof:** The roof section of the cockpit can be manually opened. Gently lift the designated part of the roof to reveal the interior details. Close it by gently pressing it back into place until it clicks securely.

MAINTENANCE

To ensure the longevity and appearance of your Rastar Red Bull RB19 model, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe away dust from the model. For stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the model in a cool, dry place away from direct sunlight to prevent discoloration or warping of plastic components.
- **Handling:** Handle the model with care, especially delicate parts like wings and mirrors, to prevent accidental breakage.
- **Loose Parts:** Periodically check for any loose connections or parts. Re-attach or secure them as needed.

TROUBLESHOOTING

If you encounter any issues during or after assembly, consider the following common solutions:

- **Missing Parts:** Double-check the packaging and your workspace. If a part is genuinely missing, contact Rastar customer support.
- **Loose Connections:** Ensure all bricks are firmly pressed together. Sometimes a gentle but firm push is needed to secure connections.
- **Functional Mechanism Not Working:** Review the assembly steps for the steering or opening roof. Ensure all gears and connecting rods are correctly aligned and not obstructed. Disassemble and reassemble the specific section if necessary.
- **Model Instability:** Re-examine the base and core structure assembly. Ensure all foundational pieces are correctly interlocked.
