2. SAFETY INFORMATION

For your safety and to prevent accidents, please adhere to the following guidelines:

- Always use the anti-tip kits provided to prevent the table from tipping over, especially in households with children or pets.
- Do not overload the shelves. The tabletop can support up to 44 lb (20 kg), and the bottom shelf can support up to 66 lb (30 kg). Exceeding these limits may compromise stability and cause damage.
- Ensure the table is placed on a flat, stable surface to prevent wobbling.

- Keep small parts and assembly tools out of reach of children during assembly.

7. CARE AND MAINTENANCE

Proper care will help maintain the appearance and longevity of your console table.

- **Cleaning:** Wipe the smooth surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Spills:** Clean up spills immediately to prevent staining or damage to the wood.
- **Heat and Moisture:** Avoid placing hot items directly on the surface. Use coasters or protective pads. Protect from excessive moisture.
- **Sunlight:** Prolonged exposure to direct sunlight may cause fading or discoloration.
- **Inspection:** Periodically check all fasteners and re-tighten if necessary to ensure stability.

8. TROUBLESHOOTING

If you encounter any issues with your HOOBRO Console Table, refer to the following common solutions:

- **Wobbling Table:** Ensure the table is on a level surface. Check that all screws are securely tightened. Adjust foot pads if present.
- **Difficulty with Assembly:** Re-read the assembly guide carefully. Ensure you are using the correct hardware for each step. Do not force parts together. If a part seems incorrect, double-check the part numbers against the manual.
- **Damaged or Missing Parts:** If any parts are damaged or missing upon arrival, do not proceed with assembly. Contact HOOBRO customer support or your retailer for assistance.
- **Doors Not Aligning:** Check that the hinges are installed correctly and tightened. Minor adjustments to hinge screws can often correct alignment issues.
