AirKing AKHU01BK

AirKing AKHU01BK Humidifier User Manual

Model: AKHU01BK | Brand: AirKing

INTRODUCTION

This manual provides detailed instructions for the safe and efficient use of your AirKing AKHU01BK Humidifier. Please read all instructions carefully before operating the device and retain this manual for future reference.

The AirKing AKHU01BK is designed to improve air quality by maintaining optimal humidity levels in your environment. It features a top-fill design, integrated hygrometer, remote control, and quiet operation for enhanced comfort.

Zorgt voor een comfortable leefomgeving

Voor huid en luchtwegen

Image: The AirKing humidifier operating in a living room setting, producing mist, placed on a wooden cabinet next to a plant and armchair. This device helps create a comfortable living environment for skin and airways.

SETUP INSTRUCTIONS

1. **Unpacking:** Carefully remove the humidifier from its packaging. Ensure all components are present: humidifier unit, water tank, lid, and remote control.
2. **Placement:** Place the humidifier on a firm, flat, water-resistant surface at least 15 cm (6 inches) away from walls and furniture. Avoid placing it directly on carpets or near heat sources.
3. **Filling the Water Tank:**
 - Remove the top lid of the humidifier.
 - Pour clean, cool tap water directly into the water tank opening. Do not exceed the maximum fill line.
 - Replace the top lid securely.

Vul gemakkelijk bij met water

Heeft in totaal een inhoud van 3.5 liter.

Verwijderbare deksel

Image: A hand pouring water into the top of the humidifier, demonstrating the easy top-fill feature. The removable lid is shown separately. This highlights the convenience of filling the 3.5-liter tank.

4. **Power Connection:** Plug the power cord into a standard electrical outlet (220V). The unit will enter standby mode.

OPERATING INSTRUCTIONS

Control Panel

The humidifier features a responsive touchscreen control panel on the front. The digital display shows current humidity levels and settings.

Touchscreen bediening

Kies gemakkelijk uit de
verschillende functies

Image: Close-up of a hand interacting with the humidifier's touchscreen control panel. This illustrates the ease of selecting different functions.

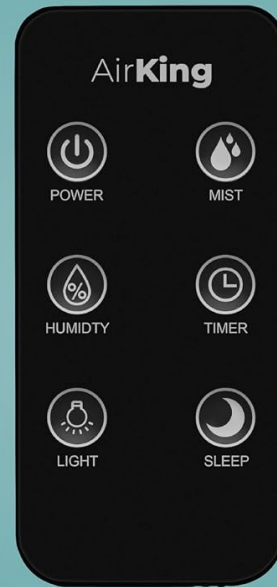

Image: A hand pointing to the control panel of the humidifier, which is placed on a table next to plants. The display shows '58%' humidity, indicating the current environmental conditions.

Remote Control

The included remote control allows for convenient adjustment of settings from a distance.

Afstands- bediening

Eenvoudige bediening
op afstand.

Inclusief timerfunctie

stel eenvoudig een timer in
tussen de 1 – 12 uur

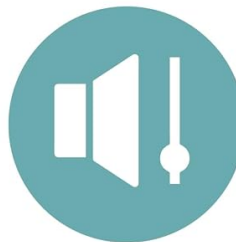

Image: The humidifier's remote control with various function buttons (Power, Mist, Humidity, Timer, Light, Sleep) next to the humidifier unit. This demonstrates the remote control and timer function (1-12 hours).

Functions

- **Power On/Off:** Press the power button on the control panel or remote to turn the unit on or off.
- **Mist Volume Adjustment:** Select from 3 mist output levels. The maximum mist volume is 250 ML/H.
- **Hygrometer Function:** The integrated hygrometer automatically detects the ambient humidity and adjusts the mist output to maintain your desired humidity level.
- **Timer Function:** Set the humidifier to operate for a specific duration, from 1 to 12 hours. The unit will automatically shut off once the timer expires.
- **Sleep Mode:** Activate sleep mode for quiet operation (less than 35 dB) and a dimmed display, ideal for nighttime use.
- **Aroma Diffusion:** If your model includes an aroma tray, add a few drops of essential oil to the designated tray (do not add directly to the water tank).

250 ML/H mist volume

Handig te bedienen
door te kiezen uit een
van de 3 standen

**Inclusief
slaapstand**
Slechts een
geluidsniveau
van <35 dB

MAINTENANCE

Regular cleaning is essential for optimal performance and hygiene.

1. Daily Maintenance:

- Empty and rinse the water tank daily.
- Wipe the inside of the tank with a clean cloth.

2. Weekly Cleaning:

- Unplug the humidifier before cleaning.
- Remove the water tank and empty any remaining water.
- Clean the water tank and base with a soft brush and mild detergent. Rinse thoroughly.
- For descaling, fill the tank with a mixture of white vinegar and water (1:1 ratio) and let it sit for 30 minutes. Rinse thoroughly.
- Wipe the mist outlet and exterior with a soft, damp cloth.

3.5 Liter watertank

14 uur plezier zonder
de tank bij te vullen

Image: Image showing the 3.5-liter water tank removed from the humidifier base. This illustrates the removable tank for easy cleaning and refilling.

3. **Storage:** When not in use for an extended period, clean and dry the humidifier thoroughly. Store it in a cool, dry place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No mist output	• No water in tank • Power cord not connected • Unit not turned on • Mineral buildup on transducer	• Refill water tank • Ensure power cord is securely plugged in • Press the power button • Clean the transducer with a soft brush and vinegar solution

Problem	Possible Cause	Solution
Unusual noise	• Unit not on a flat surface • Water level too low • Foreign object in water tank	• Place on a stable, flat surface • Refill water tank • Check and remove any foreign objects
Water leakage	• Lid not properly secured • Overfilled water tank • Unit placed on an uneven surface	• Ensure the lid is securely closed • Do not exceed the maximum fill line • Place on a stable, flat surface
Remote control not working	• Batteries depleted • Obstruction between remote and unit	• Replace batteries • Ensure a clear line of sight to the unit's sensor

SPECIFICATIONS
