WOODBIDGE BS667-R-CH01

WOODBIDGE 60" x 32" Alcove Acrylic Rectangular Whirlpool Heated Jetted Tub

MODEL: BS667-R-CH01

Instruction Manual

1. Important Safety Information

Please read all instructions carefully before installation and use. Failure to follow these instructions may result in injury or property damage.

- **Electrical Requirements:** This unit requires two dedicated 110-120V, 15AMP GFCI (Ground Fault Circuit Interrupter) breakers. One breaker is for the whirlpool pump and the other is for the inline heater. Consult a qualified electrician for proper installation.
- Do not operate the tub without water.
- Ensure all plumbing connections are secure and leak-free before operating.
- Keep children away from the tub unless supervised by an adult.
- Do not use abrasive cleaners or harsh chemicals on the tub surface.

2. Product Overview

The WOODBRIDGE BS667-R-CH01 is a 60" x 32" alcove acrylic rectangular whirlpool heated jetted tub designed for a relaxing bathing experience. It features adjustable water jets, an inline heater, and chromotherapy LED lighting.

Ergonomic Design

WOODBIDGE®

OTHERS

The large backrest tilt design provides reasonable support for the waist, back, and neck when lying down.

Image: Diagram illustrating the ergonomic backrest tilt design for comfortable support.

Key Features:

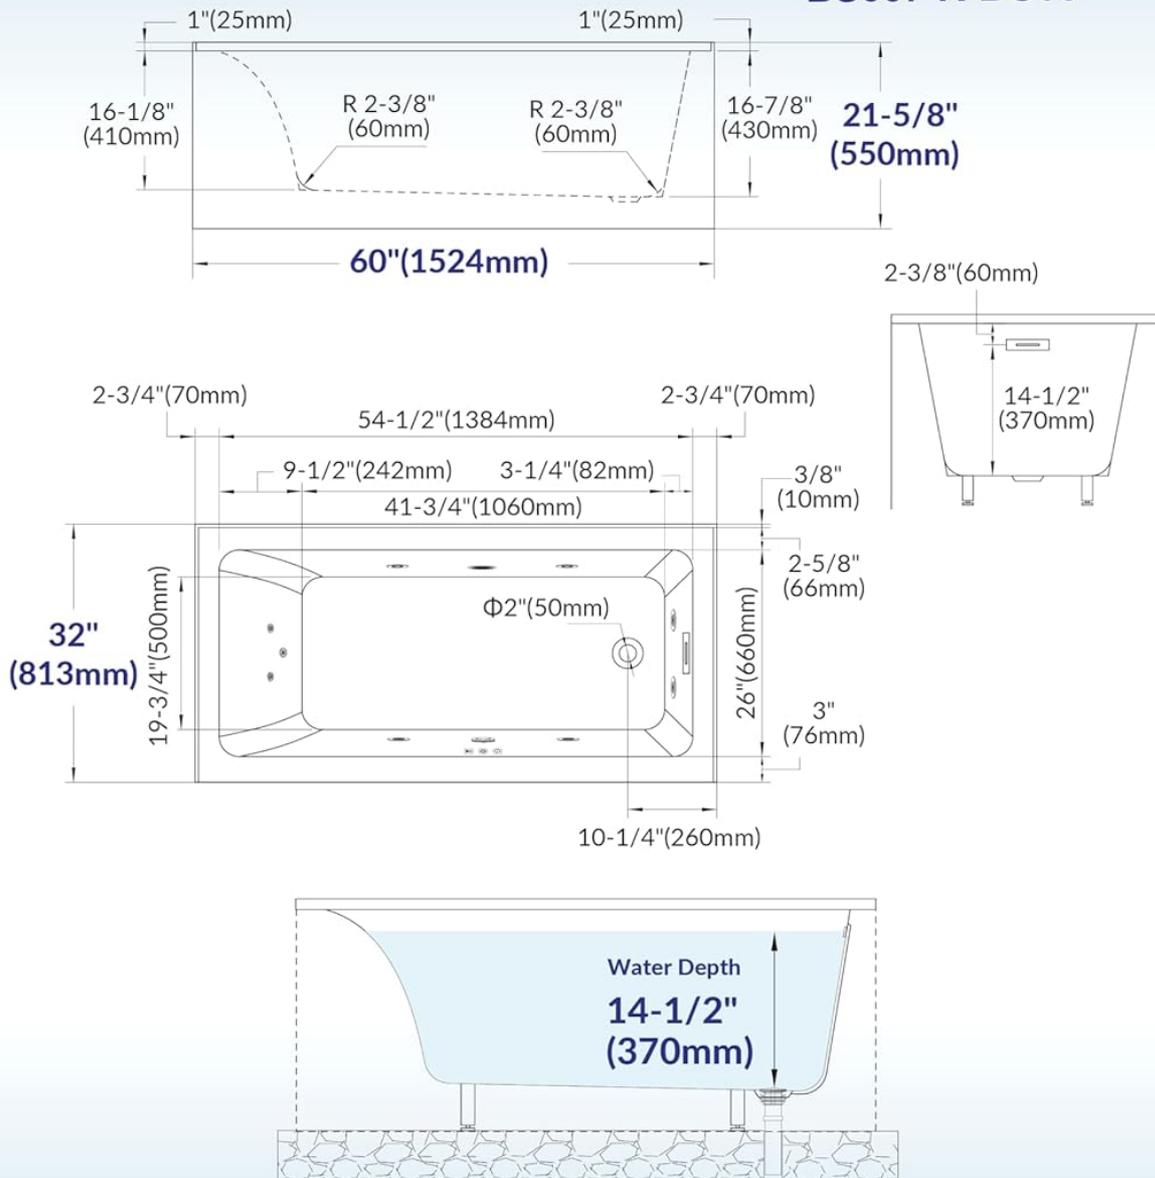

- **Water Jets:** Features 3 small jets and 6 large jets total, all with adjustable angles for customized comfort.
- **Heated Soaking Tub:** An inline heater maintains warm water, automatically activating with the pump and heating to 100°F/38°C.
- **Chromotherapy:** Includes 7-color LED lights for an enhanced bathing experience.
- **Non-Slip Design:** The bottom meets ASTM standards for safety and is easy to clean.
- **Premium Quality Construction:** Made of high gloss LUCITE acrylic and reinforced with ASHLAND resin & fiberglass.

Specification	Value
Exterior Dimensions (L x W x H)	60" x 32" x 21-5/8"
Interior Dimensions (L x W x D1 x D2)	54-1/2" x 26" x 16-1/8" x 16-7/8"
Seating Dimensions (L x W)	41-3/4" x 19-3/4"

Drain Positioning	Right Drain
Material	Acrylic
Color	White (Chrome Finish for fixtures)
Item Weight	108 Pounds
Capacity	52 Gallons
Installation Type	Alcove
Certification	CSA B45.5-17/IAPMO Z124-2017

4. Installation Guidelines

Proper installation is crucial for the functionality and longevity of your jetted tub. It is recommended to have this product installed by a licensed professional.

Electrical Connection:

- As noted in safety information, ensure two separate 110-120V, 15AMP GFCI protected circuits are available.
- Connect the whirlpool pump and inline heater to their respective GFCI circuits.

Plumbing and Alcove Setup:

- The tub features a 3-sided tiling flange to prevent water from seeping between the bath and tiles. Ensure proper sealing during installation.
- Install the solid brass drain and stainless steel overflow (polished chrome finish) according to the provided manual.

INTEGRAL TILE FLANGE

Three-sided, integral tile flange to prevent water from getting in between bath and tiles

Image: Diagram illustrating the integral tile flange on the left, back, and right sides of the tub.

Access Panel:

The tub includes a removable apron panel for easy access to internal components for maintenance or service. Ensure this panel is accessible after installation.

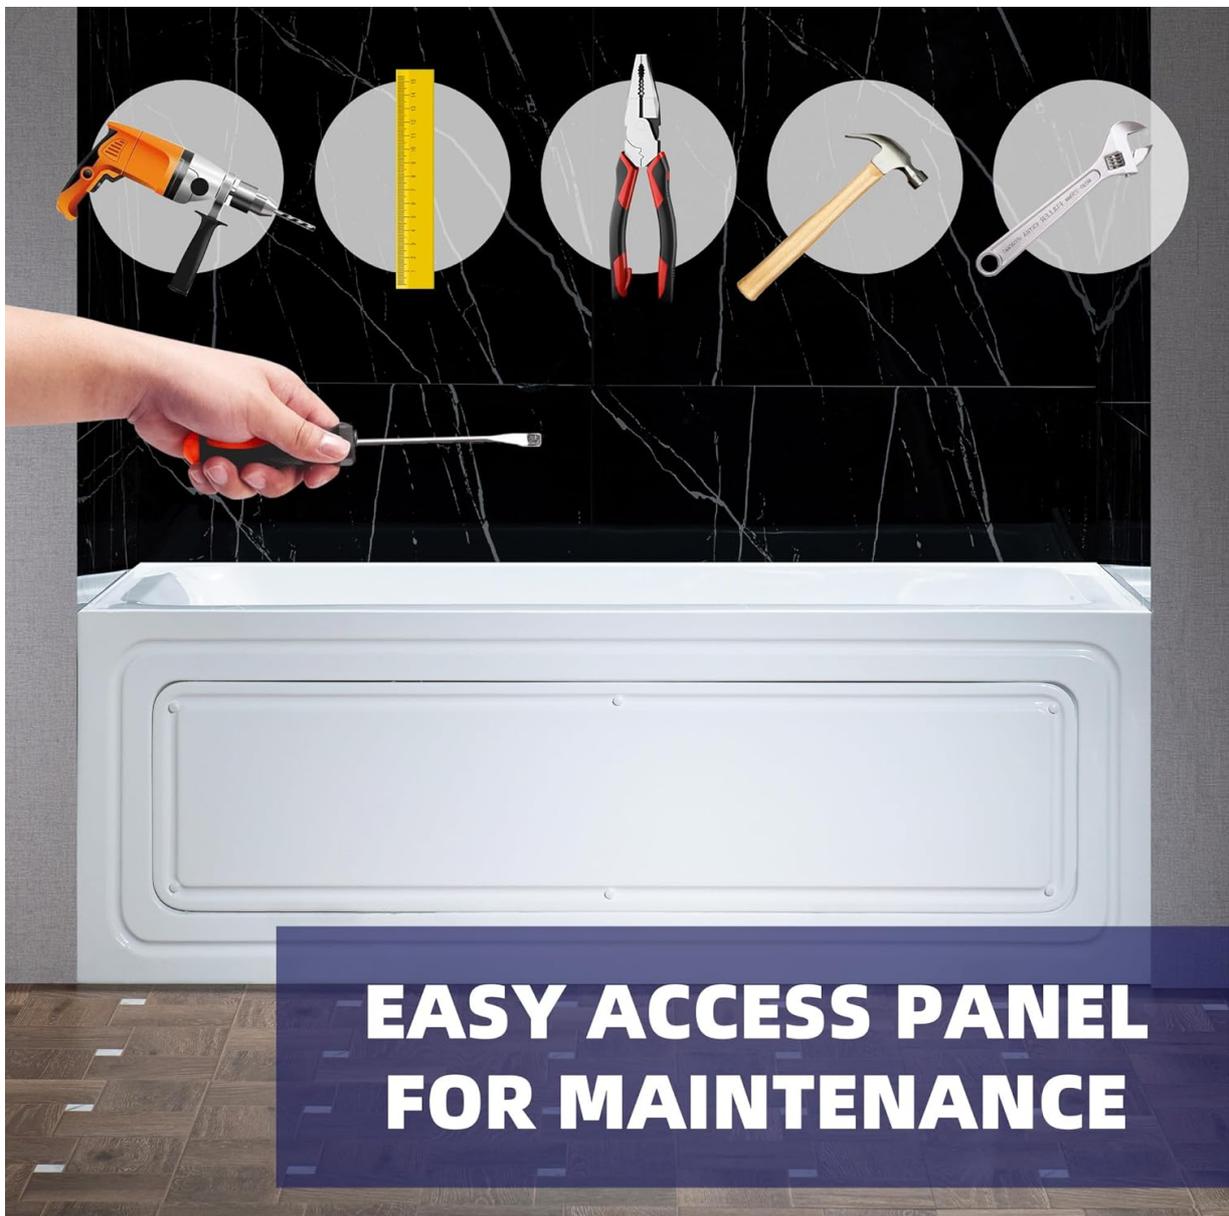

Image: Illustration showing the removable access panel for maintenance.

Shower Door Compatibility:

This tub is compatible with WOODBRIDGE 60" shower doors. When installing shower doors, pay attention to the threshold depth and ensure the water retaining edge is properly hidden within the wall structure.

Video: Demonstration of the jetted tub in operation, showing the bubbling water and jets.

Control Panel (Touch Pad):

The tub features a touch-sensitive control panel for activating various functions.

Image: Close-up of the touch pad controls, showing icons for wave massage, chromotherapy, and power.

- **Bathtub Power ON/OFF Button:** Press to turn the tub's main power on or off.
- **Wave Massage ON/OFF Button:** Activates or deactivates the water jets for a massage effect.
- **Chroma-Light ON/OFF Button:** Controls the 7-color LED chromotherapy lighting.

Image: Diagram indicating the placement and function of the 9 water jets for targeted massage.

Heated Soaking Function:

The built-in inline heater automatically maintains the water temperature at approximately 100°F (38°C) during operation of the jets. This ensures a consistent warm soak.

INLINE HEATER

Built-in heater can Auto-heats to maintain 100°F/38°C

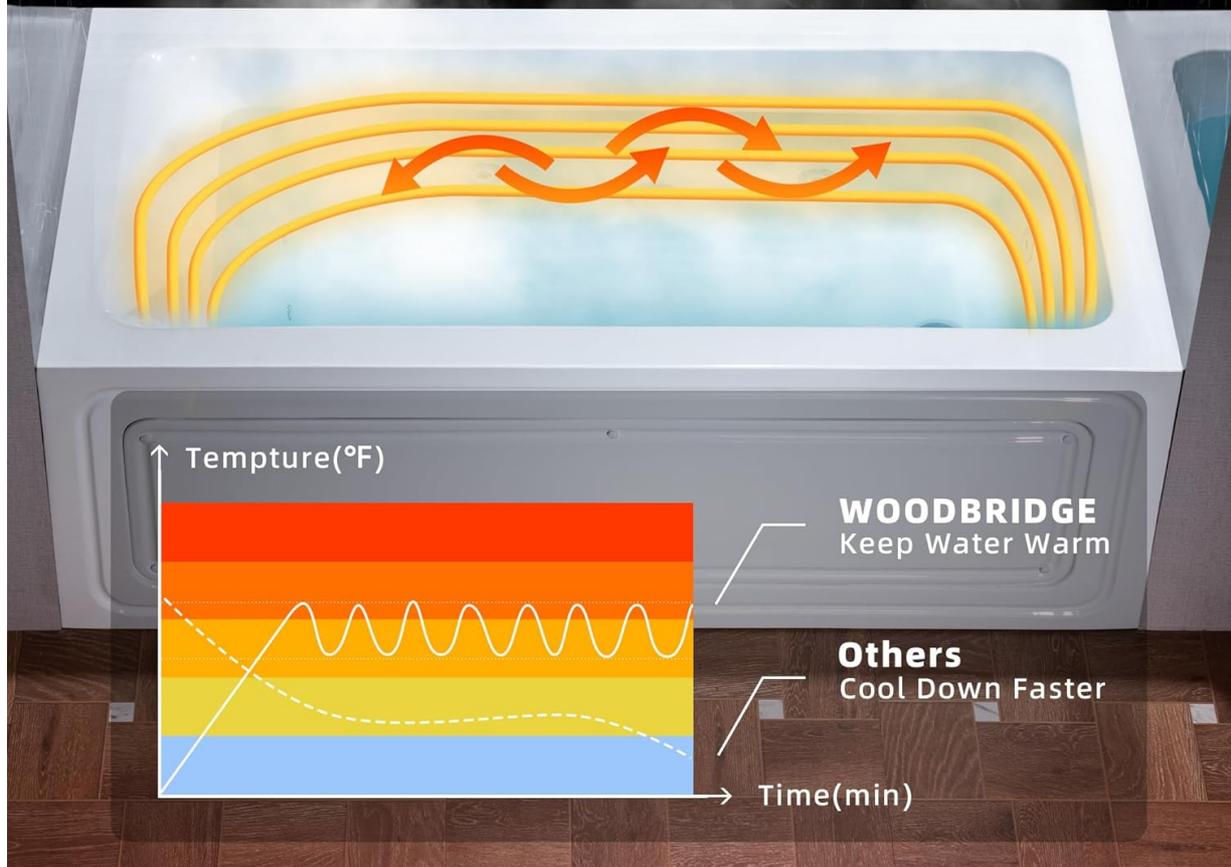

Image: Diagram illustrating how the inline heater maintains water temperature compared to tubs without this feature.

Chromotherapy Lighting:

Activate the chromotherapy feature to cycle through 7 different LED light colors, enhancing your relaxation experience.

6. Maintenance

Regular maintenance ensures the longevity and hygienic operation of your jetted tub.

Cleaning the Tub Surface:

- Clean the high gloss acrylic surface with a soft cloth and non-abrasive, mild bathroom cleaner.
- Avoid using harsh chemicals, abrasive pads, or solvents, as these can damage the finish.

Non-Slip Bottom:

The non-slip bottom is designed for safety and easy cleaning. Use a soft brush or cloth to clean the textured surface.

Non-slip Design

Image: Close-up of the non-slip textured surface on the tub bottom.

Jet and Plumbing System Cleaning:

Periodically run the jets with a tub cleaner specifically designed for jetted tubs to prevent buildup in the plumbing system. Follow the cleaner's instructions.

7. Troubleshooting

If you encounter issues with your WOODBRIDGE jetted tub, refer to the following common troubleshooting tips. For persistent problems, contact customer support.

- **No Power:** Check if the GFCI breakers have tripped. Reset them if necessary. Ensure the power cord is securely plugged in.
- **Jets Not Working:** Verify the tub has sufficient water level to cover the jets. Ensure the power is on and the wave massage button is activated.
- **Heater Not Maintaining Temperature:** Confirm the inline heater is connected to its dedicated GFCI circuit and the tub is operating. The heater maintains, not heats from cold, so ensure initial hot water fill.
- **Leaks:** Inspect all visible plumbing connections for tightness. If a leak is detected from internal components, access the removable panel and contact support.
- **Unusual Noise:** Ensure the tub is properly leveled and stable. Check for any obstructions in the

pump or jet areas.

8. Warranty & Support

WOODBIDGE is committed to providing quality products and customer satisfaction.

Warranty Information:

- WOODBRIDGE warrants a 1-Year limited warranty to be free of defects in material and workmanship from the date of purchase.
- **Extended Warranty:** Register your product on the WOODBRIDGE website to receive an additional 1-Year warranty.

Customer Support:

For any questions, technical assistance, or warranty claims, please contact WOODBRIDGE customer support:

- **Email:** help@woodbridgebath.com
