JOYOUNG DJ06U-K Mini

JOYOUNG Mini Multi-Function Automatic Soy Milk Maker

Model: DJ06U-K Mini

User Manual

1. Important Safety Instructions

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons, including the following:

- Read all instructions before operating the appliance.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electric shock, do not immerse cord, plugs, or appliance in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may result in fire, electric shock, or injury to persons.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to “off”, then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.

2. Product Overview

The JOYOUNG Mini Multi-Function Automatic Soy Milk Maker DJ06U-K Mini is designed for convenient preparation of various plant-based milks and grains. Its compact size makes it ideal for 1-2 person households.

Components

- Main Unit with integrated heating and grinding mechanism

- Transparent Collection Pitcher
- Control Panel
- Removable Exhaust Valve

Key Features

- **Capacity:** 300-600ml (10 fl oz - 20 fl oz), suitable for 1-2 persons.
- **6-in-1 Functionality:** Capable of making Nut milk, Oat milk, Soy milk, Almond milk, Coconut milk, and Grains.
- **One-Touch Operation:** Simplified controls for ease of use.
- **4 Self-Cleaning Modes:** Automated cleaning for convenience.
- **Versatile Bean Processing:** Enjoy fresh soy milk from both soaked and dry beans.
- **Surround Heating:** Ensures richer, aromatic flavors.
- **Filter-Free Design:** Smooth and nutrient-packed results without the need for filtering.
- **Adjustable Brew Capacity:** Choose between 10oz or 20oz batch sizes.

3. Setup

Follow these steps to set up your JOYOUNG Mini Multi-Function Automatic Soy Milk Maker for first use.

1. **Unpack:** Carefully remove all packaging materials and accessories from the box.
2. **Initial Cleaning:** Before first use, clean the collection pitcher and the interior of the main unit with warm, soapy water. Rinse thoroughly and dry. Wipe the exterior of the main unit with a damp cloth. Do not immerse the main unit in water.
3. **Placement:** Place the appliance on a stable, flat, heat-resistant surface, away from direct sunlight and heat sources. Ensure there is adequate ventilation around the unit.
4. **Power Connection:** Ensure the appliance is turned off before plugging the power cord into a grounded electrical outlet.

4. Operating Instructions

This section guides you through the process of making various beverages with your appliance.

Control Panel Overview

A close-up of the convenient control panel, showing various function buttons and the digital display.

Preparation

- Measure your desired ingredients (e.g., soybeans, oats, nuts). For best results with soybeans, soaking them for 6-8 hours prior to use is recommended, though the machine can process dry beans as well.
- Add the measured ingredients into the main unit's grinding chamber.
- Fill the water reservoir with clean water up to the desired volume mark (10oz or 20oz).

Illustration showing the separate compartments for ingredients and water, ensuring optimal processing.

Making Milk/Grains

1. Ensure the collection pitcher is correctly placed under the dispenser.
2. Plug in the appliance. The display will light up.
3. Press the 'Select' button to cycle through the available functions: Almond Milk, Oat Milk, Soy Milk, Coconut Milk, Nut Milk, Grains.
4. Once your desired function is selected, press the 'Start' button to begin the process.
5. The machine will automatically heat, grind, and dispense the finished product into the collection pitcher.
6. When the process is complete, the machine will beep and the display will indicate completion.
7. Carefully remove the collection pitcher. The contents will be hot.

Delay Start Function

The appliance features a delay start function, allowing you to program it to start at a later time. Refer to the control panel for the specific button (often labeled 'Delay Start' or similar) and follow the on-screen prompts to set the desired delay time.

Adjusting Volume

Use the 'Volume' button on the control panel to switch between 10oz and 20oz batch sizes, depending on your needs. Ensure the water level matches the selected volume.

5. Cleaning and Maintenance

Regular cleaning ensures the longevity and optimal performance of your JOYOUNG Soy Milk Maker.

Automatic Self-Cleaning System

The appliance is equipped with a convenient four-step auto-cleaning system:

1. **Pump Spray:** A high-speed water pump sprays water to rinse the interior.
2. **High Temperature Gas Steam:** Steam is used for high-temperature sterilization.
3. **Stir Washing of Cutting Tools:** The blade drives water to scour the inner wall and clean the cutting tools.
4. **Thermal Drying:** Remaining heat is used for drying and further germ removal.

Visual representation of the four-step auto-cleaning process, detailing each stage from pump spray to thermal drying.

To activate the auto-cleaning, press the 'Auto Clean' button on the control panel. Ensure the collection pitcher is empty and in place to collect rinse water.

Manual Cleaning

- **Collection Pitcher:** Wash the pitcher with warm, soapy water after each use.

- **Exhaust Valve:** The exhaust valve is removable for easy cleaning. Gently twist and pull to remove it, wash with warm, soapy water, rinse, and dry thoroughly before reattaching.

Close-up of the removable exhaust valve, designed for easy cleaning and maintenance.

- **Exterior:** Wipe the exterior of the main unit with a soft, damp cloth. Do not use abrasive cleaners or immerse the main unit in water.
- **Storage:** Store the appliance in a clean, dry place when not in use.

6. Troubleshooting

If you encounter issues with your JOYOUNG Mini Multi-Function Automatic Soy Milk Maker, refer to the following common problems and solutions:

- **Appliance does not turn on:**
  - Ensure the power cord is securely plugged into a working electrical outlet.
  - Check if the lid is properly closed and secured. The machine has safety interlocks.
- **Milk consistency is too thin/thick:**
  - Adjust the ratio of ingredients to water. Refer to recipes for optimal consistency.

- Ensure ingredients are fresh and of good quality.

- **Machine stops mid-cycle:**
  - Check for overheating. Unplug the machine and let it cool down for 30 minutes before restarting.
  - Ensure the water level is within the specified range.

- **Unusual noise during operation:**
  - This may be normal during grinding. If the noise is excessive or unusual, ensure no foreign objects are inside the grinding chamber.

- **Error codes on display:**
  - If an error code appears, unplug the appliance, wait a few minutes, and plug it back in. If the error persists, consult the manufacturer's support.

For issues not covered here, please contact JOYOUNG customer support.
