ATUVOS AT2204

ATUVOS Bluetooth Tracker Tag (Card Type) AT2204 User Manual

Model: AT2204

1. INTRODUCTION

This manual provides comprehensive instructions for the ATUVOS Bluetooth Tracker Tag (Card Type) AT2204. Please read this manual carefully before using the product to ensure proper operation and to prevent damage. Keep this manual for future reference.

Compatibility: This device is designed exclusively for iOS devices, including iPhone, Apple Watch, and macOS. It is not compatible with Android or other operating systems.

2. PRODUCT OVERVIEW

The ATUVOS Bluetooth Tracker Tag is a slim, card-type device designed to help you locate your valuables using Apple's "Find My" network. It integrates seamlessly with your iOS ecosystem to provide peace of mind against loss.

Image 1: Front view of the ATUVOS Bluetooth Tracker Tag. This image shows the sleek, black card-shaped tracker with the ATUVOS brand name and a subtle circular design element.

Image 2: Front and back view of the ATUVOS Bluetooth Tracker Tag. One card displays the front design, while the other shows the reverse side with product information including the model number AT2204 and various regulatory compliance symbols.

Key Features:

- **iOS Exclusive:** Seamless integration with Apple's "Find My" app.
- **Long-Range Tracking:** Utilizes the vast Apple Find My network for location beyond Bluetooth range.
- **Audible Alert:** High-pitched buzzer (80-100dB) to locate items nearby.
- **Durable Design:** IP67 dust and water resistance.
- **Extended Battery Life:** Up to 3 years with a non-replaceable built-in battery.

- **Lost Mode with NFC:** Allows finders to access your contact information via NFC.
- **Privacy Protection:** Anonymous and encrypted communication on the Find My network.

3. SETUP

Follow these steps to set up your ATUVOS Bluetooth Tracker Tag with your iOS device:

1. **Enable Bluetooth:** Ensure Bluetooth is enabled on your iPhone or iPad.
2. **Open Find My App:** Launch the "Find My" app on your iOS device.
3. **Add Item:** Navigate to the "Items" tab, then tap the "+" icon and select "Add Other Item".
4. **Activate Tracker:** Follow the on-screen instructions. The tracker should automatically be detected. If not, gently press the circular area on the tracker to activate it.
5. **Name Your Item:** Assign a name to your ATUVOS Tracker Tag (e.g., "Wallet," "Keys," "Bag").
6. **Confirm:** Confirm the pairing. Your tracker is now linked to your Apple ID and visible in the Find My app.

Note: For optimal performance, ensure your iOS device is running the latest software version.

4. OPERATING INSTRUCTIONS

4.1 Locating Your Item Nearby

When your ATUVOS Tracker Tag is within Bluetooth range (approximately 60 meters), you can make it play a sound:

1. Open the "Find My" app.
2. Go to the "Items" tab.
3. Select your ATUVOS Tracker Tag from the list.
4. Tap "Play Sound." The tracker will emit a loud buzzer sound (80-100dB) to help you locate it.

Alternatively, you can use Siri by saying, "Hey Siri, find my [item name]," where [item name] is what you named your tracker.

4.2 Locating Your Item Far Away (Find My Network)

If your item is out of Bluetooth range, the Find My network can help you locate it:

- The "Find My" app will display the last known location of your tracker on a map.
- If another Apple device on the Find My network passes by your tracker, its location will be anonymously updated in your app.
- You can get directions to the tracker's last known location using the "Directions" feature in the Find My app.

4.3 Using Lost Mode

If your ATUVOS Tracker Tag is lost, activate Lost Mode to increase your chances of recovery:

1. In the "Find My" app, select your tracker.
2. Scroll down and tap "Enable" under "Lost Mode."
3. Follow the prompts to enter a phone number or email address where you can be contacted.
4. You can also write a custom message for the finder.
5. When someone finds your tracker and taps it with an NFC-enabled smartphone, they will see your contact information and message.

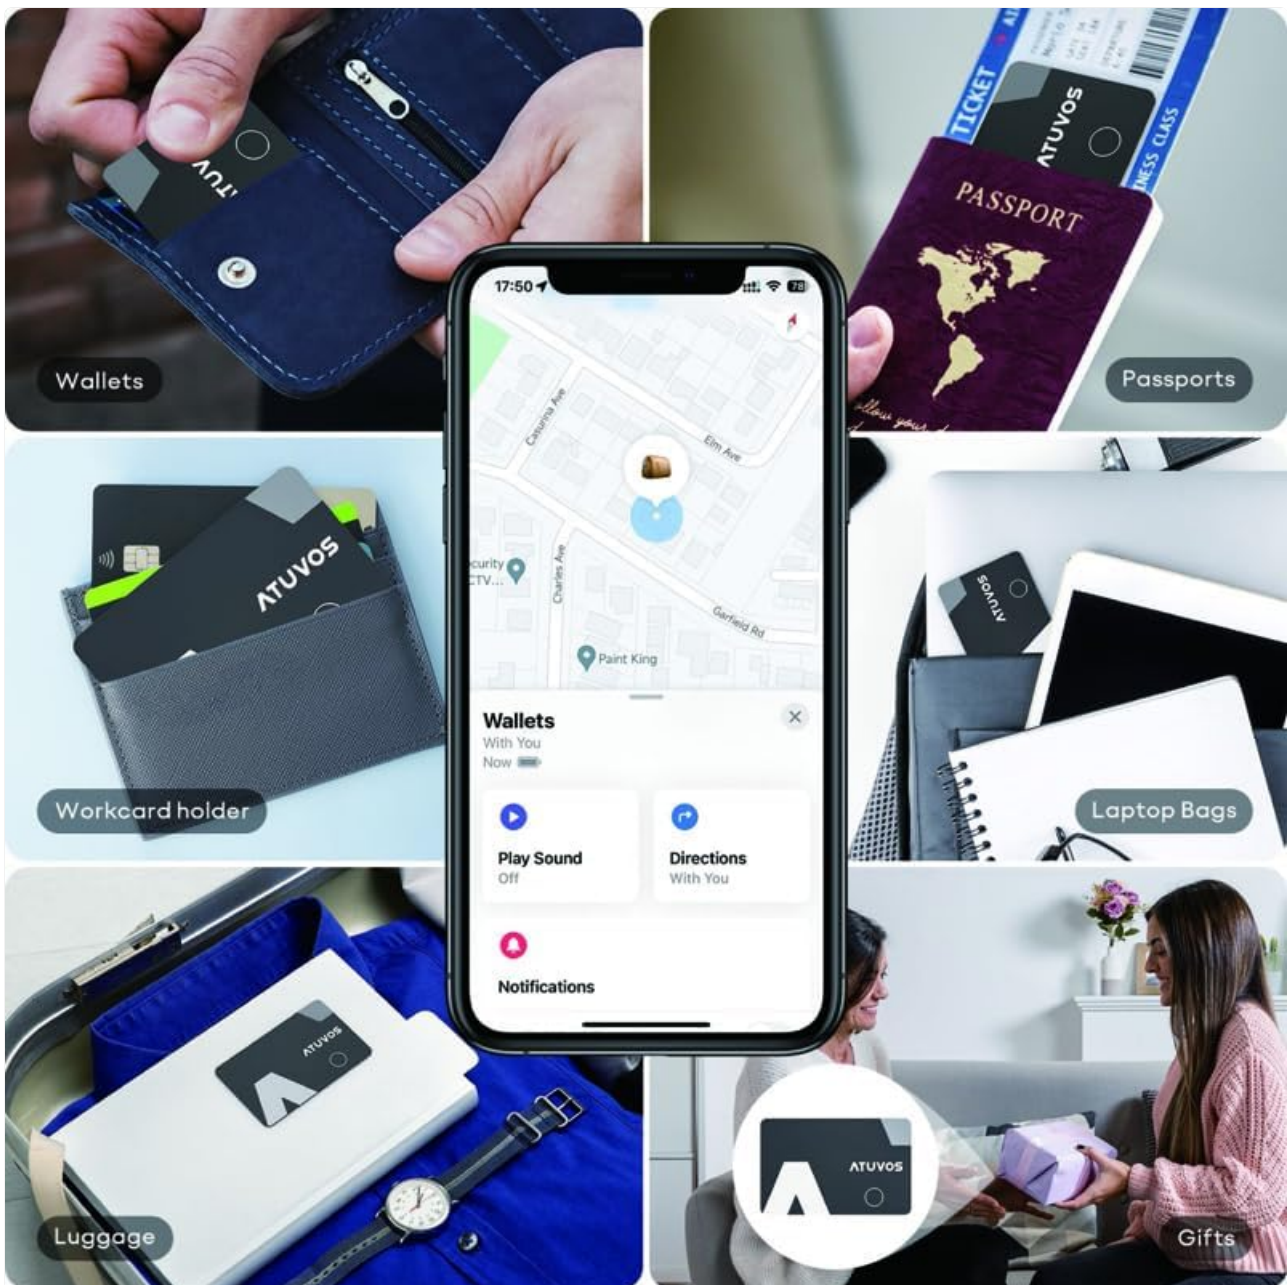

Image 3: Various applications of the ATUVOS Tracker Tag. This image illustrates how the slim tracker can be discreetly placed in wallets, passport holders, work card holders, laptop bags, luggage, or even attached to gifts, highlighting its versatility in preventing loss.

5. MAINTENANCE

5.1 Cleaning

To clean your ATUVOS Tracker Tag, wipe it gently with a soft, dry, lint-free cloth. Avoid using abrasive materials, solvents, or harsh chemicals, as these can damage the device.

5.2 Battery Information

The ATUVOS Tracker Tag features a built-in, non-replaceable battery with a lifespan of up to 3 years. There is no need for charging or battery replacement during its operational life. When the battery is depleted, the device will cease to function and should be disposed of according to local electronic waste regulations.

6. TROUBLESHOOTING

- **Tracker not appearing in Find My app:**
 - Ensure Bluetooth is enabled on your iOS device.

- Make sure the tracker is within Bluetooth range of your device during setup.
- Try gently pressing the circular area on the tracker to ensure it's active.
- Restart your iOS device and try the setup process again.
- **No sound when "Play Sound" is tapped:**
 - Ensure the tracker is within Bluetooth range of your iOS device.
 - Check if the tracker's battery is depleted (though it has a long lifespan, this is a possibility towards the end of its life).
- **Location not updating:**
 - If out of Bluetooth range, location updates rely on other Apple devices on the Find My network. Updates may not be instantaneous.
 - Ensure your iOS device has an active internet connection to receive location updates.
- **Lost Mode contact information not appearing via NFC:**
 - Ensure Lost Mode is activated in the Find My app for your tracker.
 - The NFC-enabled smartphone tapping the tracker must have NFC enabled and be positioned correctly over the tracker.

7. SPECIFICATIONS

Specifications and Features

Image 4: Specifications and Features of the ATUVOS Tracker Tag. This graphic details the physical dimensions (54mm x 85.5mm x 1.6mm) and highlights key functional specifications such as the 80-100dB buzzer, IP67 water resistance rating, approximately 60m Bluetooth connection range, and a battery life of up to 3 years.

Dimensions (W x D x H)	54mm x 85.5mm x 1.6mm
Weight	Approx. 12g
Certifications	MIC, Industrial Design, MFi, RoHS, Technical Conformity Mark

8. SAFETY INFORMATION

- Do not attempt to open, disassemble, or modify the device. This may cause damage, void the warranty, and pose safety risks.
- The battery is non-replaceable. Do not attempt to replace the battery.
- Avoid exposing the device to extreme temperatures (hot or cold), direct sunlight, or fire.
- While the device is IP67 water-resistant, it is protected against temporary immersion. Avoid continuous submersion or exposure to high-pressure water jets.
- Keep the device away from children and pets.
- Dispose of the device responsibly according to local electronic waste regulations at the end of its lifespan.

9. WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the documentation provided with your purchase or contact ATUVOS customer service through the retailer where the product was purchased.

Privacy Note: All communications on the Find My network are anonymous and encrypted to protect user privacy.

Location data and history are not stored on the tracker card itself.
