## Maintenance

- **Cleaning Boucle Fabric:** Gently spot clean the boucle upholstered areas with a mild detergent and a damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **LED Lights:** Wipe the LED light strips with a dry, soft cloth. Do not use liquid cleaners directly on the lights.
- **Frame Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Drawer Maintenance:** Keep the drawer wheels free of debris to ensure smooth operation.

## Troubleshooting

- **LED Lights Not Working:** Check if the bed frame's power cord is securely plugged into a working wall outlet.

Ensure the remote control batteries are functional.

- **Charging Station Not Functioning:** Verify the bed frame's power cord is connected. Test with a different device or cable to rule out device-specific issues.
- **Drawers Sticking:** Check for any obstructions under the drawers or in the wheel path. Ensure the locking mechanism is disengaged.
- **Noise from Frame:** Confirm all assembly screws are tightened. The EVA sound-absorbing strip should prevent most noise; if noise persists, re-examine slat placement.
