brotect YYKY E02 2.01"

BROTECT Screen Protector Instruction Manual

For YYKY E02 2.01" Devices

1. PRODUCT OVERVIEW

The BROTECT HD-Clear Screen Protector is designed to provide robust protection for your YYKY E02 2.01" device's screen. Manufactured in Germany, this film offers high transparency for a clear view, an extremely scratch-resistant surface, and an anti-fingerprint coating to keep your screen clean. Its advanced adhesive layer ensures a stress-free, bubble-free installation.

Key Features:

- **Made in Germany:** Ensures high quality and durability.
- **High Transparency:** Maintains original screen clarity and color.
- **Touch Sensitivity:** Preserves the responsiveness of your device's touchscreen.
- **Anti-Fingerprint Coating:** Reduces smudges and makes cleaning easier.
- **Scratch-Resistant:** Protects against daily wear and tear.
- **Bubble-Free Installation:** Specially designed adhesive for easy application without air bubbles.

2. WHAT'S INCLUDED

Each package of BROTECT Screen Protectors for YYKY E02 2.01" includes:

- 6x BROTECT HD-Clear Screen Protector compatible with YYKY E02 2.01"

3. INSTALLATION GUIDE

Follow these steps carefully for a successful, bubble-free installation of your BROTECT Screen Protector:

Screen Protector

Instructions in various languages can be found inside.

Anbringungsanleitung

Instructions

1.

Nutze zur Montage einen staubarmen Ort (z.B. Badezimmer) und reinige das Display gründlich von Staub und Verschmutzungen.

Before assembling, locate a dust free area (e.g. bathroom) and carefully remove any dust or dirt from the display.

2.

Löse das Trägermaterial zur Hälfte von der Displayschutzfolie ab und setze die Displayschutzfolie an einer Seite auf dem Display an. Die Displayschutzfolie sollte in aufgezogenem Zustand mittig auf dem Display ausgerichtet sein.

Remove half of the thin cover film of the screen protector and align the screen protector on one side with your screen. Make sure that the screen protector will be centered on the middle of your screen.

3.

Streiche die Displayschutzfolie leicht mittels einer mit einem weichen Tuch umwickelten Kreditkarte von einer Seite zur anderen auf das Display. Ziehe dabei gleichzeitig den Rest des Trägermaterials ab.

Cover a credit card with a soft cloth and carefully slide over the screen protector from one side to the other on your screen, enabling you to remove the rest of the thin cover film.

4.

Eventuell vorhandene Luft einschüsse herausstreichen - fertig!

Smooth out any remaining air bubbles with your credit card. It's that easy!

Image: Visual instructions for applying the screen protector, detailing each step from cleaning to smoothing out bubbles.

1. **Prepare Your Workspace:** Choose a dust-free environment for installation, such as a bathroom after a hot shower. Thoroughly clean your device's display to remove any dust, dirt, or fingerprints. Use a microfiber cloth for best results.
2. **Initial Application:** Carefully peel back about half of the protective backing film from the screen protector. Align the exposed adhesive side of the screen protector precisely with your device's screen. Ensure it is centered before gently laying it down.
3. **Smooth and Complete Application:** Using a soft cloth or a credit card wrapped in a soft cloth, gently smooth out the applied half of the screen protector from the center outwards. As you smooth, slowly peel off the remaining backing film, continuing to smooth the protector onto the screen to prevent air bubbles.
4. **Remove Remaining Bubbles:** If any small air bubbles remain, gently push them towards the edges of the screen using a soft cloth or a credit card. Apply light, consistent pressure until the bubbles are gone. Minor bubbles may disappear on their own within 24-48 hours.

Tip: For best results, avoid touching the adhesive side of the screen protector during installation.

4. USAGE AND PERFORMANCE

Once installed, your BROTECT Screen Protector will seamlessly integrate with your YYKY E02 2.01" device. It is designed to maintain the original touch sensitivity and display clarity, ensuring that all content is displayed in razor-sharp detail without any interference to your device's functionality.

5. CARE AND MAINTENANCE

To ensure the longevity and clarity of your BROTECT Screen Protector, follow these simple maintenance tips:

- **Cleaning:** Due to its anti-fingerprint coating, dirt and fingerprints can easily be wiped off. Use a soft, lint-free cloth to gently clean the screen protector. For stubborn smudges, slightly dampen the cloth with water or a screen cleaner designed for electronics.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, alcohol, or ammonia-based solutions, as these can damage the coating of the screen protector.
- **Protection:** While the screen protector is scratch-resistant, avoid placing your device with sharp objects (e.g., keys, coins) in pockets or bags to prevent excessive wear.

6. TROUBLESHOOTING

If you encounter any issues during or after installation, consider the following:

- **Persistent Bubbles:** Most small bubbles will disappear within 24-48 hours. For larger bubbles, gently lift the nearest edge of the protector and reapply, smoothing it down with a card. Ensure no dust particles are trapped underneath.
- **Dust Particles Underneath:** If you notice dust after application, carefully lift the nearest corner of the protector. Use a piece of sticky tape to gently dab the dust particle off both the screen and the adhesive side of the protector, then reapply.

- **Misalignment:** If the protector is significantly misaligned, it's best to carefully remove it and attempt reapplication with a new protector from the pack, ensuring precise alignment from the start.

7. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	brotect
Compatible Devices	YYKY E02 2.01"
Material	Polyethylene Terephthalate
Special Feature	Anti-Fingerprint
Screen Surface Description	Glossy
