Nespresso Vertuo Pop+

Nespresso Vertuo Pop+ Coffee and Espresso Machine User Manual

Model: Vertuo Pop+ (ENV92B)

INTRODUCTION

The Nespresso Vertuo Pop+ machine is designed to bring a touch of color and exceptional coffee experiences to your home. This sleek and compact machine offers a variety of coffee formats in five cup sizes, from Espresso to Alto and Cold Brew style coffee. Utilizing patented Centrifusion technology, the Vertuo Pop+ reads the barcode on each capsule to precisely adjust brewing parameters, ensuring a perfect cup every time. Its design includes a side-accessible water tank and an adjustable drip tray for various mug sizes. Made from 35% recycled plastic, the Vertuo Pop+ also features state-of-the-art connectivity for automatic updates and easy maintenance via your smartphone.

SETUP

- 1. Unboxing and Placement:** Carefully remove the machine from its packaging. Place the Vertuo Pop+ on a clean, stable, and level surface. Ensure there is adequate space around the machine for ventilation and access to the water tank.

Figure 2: The compact design of the Vertuo Pop+ fits well in various spaces.

2. **Water Tank Installation:** The 25 fl. oz water tank is located on the side for easy access. Fill the water tank with fresh drinking water.

BREWS 5 CUP SIZES

Figure 3: Side view illustrating the water tank and compact dimensions.

3. **Initial Rinse:** Before first use, perform an initial rinse cycle without a capsule to clean the internal components. Refer to the operating section for detailed instructions on starting a brew cycle.
4. **Adjustable Drip Tray:** The drip tray can be adjusted to two positions to accommodate different mug sizes.

OPERATING INSTRUCTIONS

The Nespresso Vertuo Pop+ is designed for simple, one-touch operation, delivering a variety of coffee and espresso styles.

1. **Power On:** Ensure the machine is plugged into a grounded electrical outlet. Press the button on top to turn on the

machine. It will heat up in approximately 30 seconds.

2. **Capsule Insertion:** Lift the lever to open the machine head. Insert a Nespresso Vertuo capsule into the capsule holder. The machine will automatically read the barcode on the capsule.

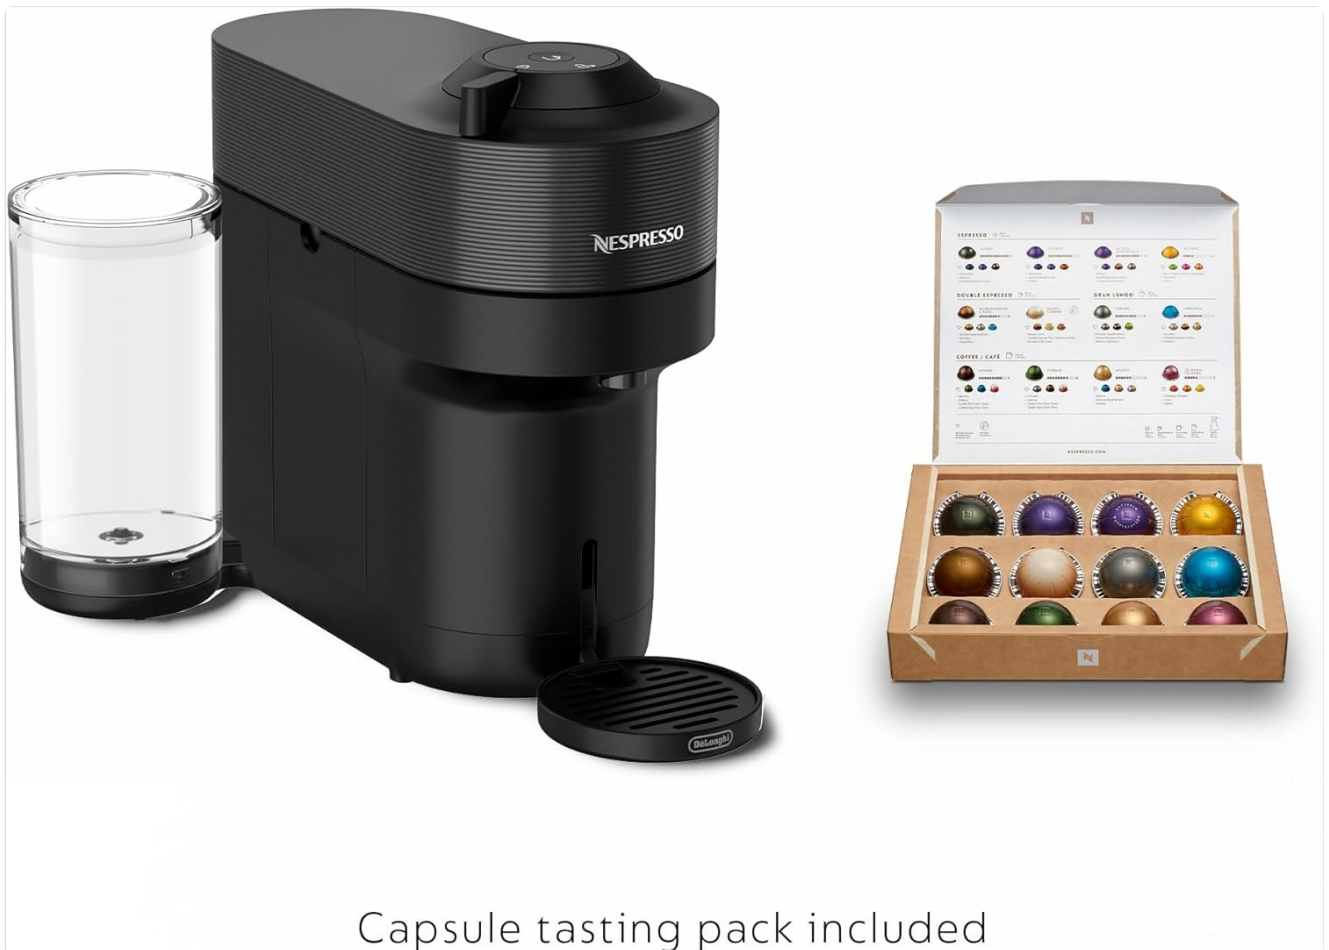

Figure 4: A complimentary capsule tasting pack is included with your machine.

3. **Brewing:** Close the machine head by pushing down the lever. Place your cup on the drip tray. Press the button to start brewing. The machine will automatically adjust brewing parameters based on the capsule's barcode, utilizing Centrifusion technology to extract the coffee.

Vertuo brews
espresso + coffee

Figure 5: The Vertuo Pop+ brews both espresso and coffee.

4. **Cup Sizes:** The Vertuo Pop+ offers five cup sizes:

- 1.4 oz (Espresso)
- 2.7 oz (Double Espresso)
- 5 oz (Gran Lungo)
- 8 oz (Coffee)
- 12 oz (Alto)

It also supports Cold Brew style coffee.

BREWS 5 CUP SIZES

Figure 6: Visual representation of the five available cup sizes.

5. **After Brewing:** After brewing, the machine will automatically eject the used capsule into the integrated capsule container.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your Nespresso Vertuo Pop+ machine.

- **Cleaning:** Regularly clean the drip tray, cup support, and used capsule container with warm water and a mild detergent. Wipe the exterior of the machine with a soft, damp cloth.
- **Water Tank:** Empty and rinse the water tank daily. Refill with fresh drinking water.

- **Descaling:** The machine features a descaling alert. Follow the descaling procedure as indicated by the machine's alerts to remove mineral buildup and maintain coffee quality.
- **Capsule Recycling:** Nespresso capsules are fully recyclable. Participate in Nespresso's free recycling program for aluminum capsules.

Figure 7: Nespresso pods are filled with freshly roasted ground coffee and are recyclable.

- **Software Updates:** Thanks to its connectivity features, your machine can receive software updates to ensure a smooth and consistent coffee experience.

TROUBLESHOOTING

This section provides solutions to common issues you might encounter with your Vertuo Pop+ machine.

Problem	Possible Cause	Solution
Machine does not turn on.	No power supply.	Check if the power cord is securely plugged into the machine and a working electrical outlet.
Coffee is not flowing.	Water tank is empty; machine needs descaling; capsule is not properly inserted.	Fill the water tank. Perform a descaling cycle. Ensure the capsule is correctly placed and the machine head is fully closed.
Coffee is cold.	Machine not preheated; cup is cold.	Allow the machine to fully preheat (approx. 30 seconds). Preheat your cup with hot water before brewing.
Machine is leaking.	Water tank not properly seated; damaged capsule.	Ensure the water tank is correctly positioned. Use only undamaged Nespresso Vertuo capsules.

If the problem persists, please contact Nespresso Customer Service for further assistance.

SPECIFICATIONS
