3. SETUP AND INSTALLATION

Follow these steps to properly install your Remax RM-C03 Car Phone Holder.

1. **Choose a Location:** Select a clean, flat, and smooth surface on your car's dashboard or windshield. Ensure the chosen location does not obstruct your view of the road or interfere with airbags.
2. **Clean the Surface:** Wipe the chosen surface with a clean, damp cloth, then dry it thoroughly. This ensures optimal suction.

3. **Attach the Holder:** Place the suction cup base firmly onto the cleaned surface. Press down on the center of the suction cup while flipping the locking lever down to create a strong vacuum seal.
4. **Adjust the Arm:** Loosen the adjustment knobs on the holder's arm to position it to your desired height and angle. Tighten the knobs securely once positioned.
5. **Adjust the Phone Cradle:** The cradle features a 360-degree rotation. Loosen the nut behind the cradle, adjust to your preferred orientation (portrait or landscape), and then tighten the nut.

Convenient navigation, within reach
Free adjustment, rotation/extension

Multi directional scene usage without selecting location
Windshield, center console, and flat area can all be used

Compact and Elegant High Cost-Effectiveness
Upgraded Silicone Padding, Non-Slip Protects Your Device, No Noise from Bumps

Hollow silicone base
Vacuum adsorption, strong suction power

Adjustable Bottom Support
For Better Protection

4-6.5 inch
Compatible size

4. OPERATING INSTRUCTIONS

Using your Remax RM-C03 Car Phone Holder is simple and intuitive.

1. **Inserting Your Phone:** Gently press the release button or squeeze the side arms of the cradle to open them. Place your phone into the cradle, ensuring it rests on the bottom support. The side arms will automatically close to secure your phone, or you may need to gently push them inwards until they grip the phone firmly.

2. **Removing Your Phone:** Press the release button (if applicable) or gently pull the side arms apart to release your phone.
3. **Adjusting Viewing Angle:** Use the adjustable arm and the 360-degree rotating cradle to achieve your optimal viewing angle. Ensure all knobs are tightened after adjustment to prevent movement during driving.

5. MAINTENANCE

To ensure the longevity and optimal performance of your phone holder, follow these maintenance tips:

- **Cleaning:** Wipe the holder regularly with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as they may damage the material.
- **Suction Cup Care:** If the suction cup loses its grip, rinse it with warm water and let it air dry. This can restore its adhesive properties. Ensure the mounting surface is always clean and smooth.
- **Storage:** When not in use for extended periods, store the holder in a cool, dry place away from direct sunlight.

6. TROUBLESHOOTING

If you encounter any issues with your Remax RM-C03 Car Phone Holder, refer to the following common problems and solutions:

| Problem | Possible Cause | Solution |
|--------------------------------------|---|--|
| Holder does not stick to surface. | Surface is dirty, uneven, or suction cup is dusty. | Clean the mounting surface and the suction cup thoroughly. Ensure the surface is flat and smooth. Re-apply the holder, pressing firmly and engaging the locking lever. |
| Phone is not held securely. | Side arms not fully closed or phone is too large/small. | Ensure the side arms are fully gripping the phone. Check phone compatibility with the holder's size range (4-6.5 inches). |
| Holder sags or moves during driving. | Adjustment knobs are loose. | Tighten all adjustment knobs and the nut behind the cradle firmly after positioning. |

7. SPECIFICATIONS
