ELECOM PET-AF06WH

ELECOM Automatic Pet Feeder PET-AF06WH Instruction Manual

Model: PET-AF06WH

1. INTRODUCTION

Thank you for purchasing the ELECOM Automatic Pet Feeder PET-AF06WH. This device is designed to provide scheduled meals for your cat or small to medium-sized dog, ensuring they receive fresh food even when you are away. It features a dial timer for easy scheduling, a stainless steel food tray for hygiene, and an ice pack to maintain food freshness. Please read this manual thoroughly before use to ensure proper operation and maintenance.

2. SAFETY PRECAUTIONS

- Do not immerse the main unit in water. Only the stainless steel tray is washable.
- Ensure the ice pack is securely placed and inaccessible to pets to prevent accidental ingestion.
- Use only the specified battery type (AA battery x 1). Do not mix old and new batteries or different types of batteries.
- Keep the feeder on a stable, flat surface to prevent tipping.
- This product is intended for pets only. Keep out of reach of children.
- Do not use this product for purposes other than feeding pets.

3. PACKAGE CONTENTS

- Automatic Pet Feeder Main Unit
- Stainless Steel Food Tray
- Ice Pack
- Connecting Parts (for linking multiple units)
- Battery Replacement Date Sticker
- Lid Lock Belt
- Instruction Manual (this document)

付属パーツ・サイズ

Detailed dimensions of the feeder: approximately 23cm length, 13.9cm width, and 7.8cm height. Also shows the connecting parts and lid lock belt.

Key Components:

- Lid:** Protects food and opens at the set time.
- Dial Timer:** Used to set the feeding time.
- Food Tray:** Removable stainless steel tray for holding pet food.
- Ice Pack Compartment:** Located beneath the food tray to keep food cool.
- Battery Compartment:** Located on the underside of the unit.

5. SETUP

5.1. Battery Installation

- Turn the feeder upside down.
- Open the battery compartment cover.
- Insert one AA battery, ensuring correct polarity (+/-).
- Close the battery compartment cover securely.

5.2. Food Tray and Ice Pack Placement

1. Place the frozen ice pack into the designated compartment under the food tray.
2. Insert the stainless steel food tray into the main unit.
3. Fill the tray with your pet's food. The capacity is 350ml (approximately 190g of dry food).

2台連結で複数回給餉可能

Two feeder units connected side-by-side, demonstrating how the connecting parts are used to create a larger feeding station.

6. OPERATING INSTRUCTIONS

6.1. Setting the Dial Timer

The feeder uses a simple dial timer to schedule meal times. You can set the timer for 1 to 48 hours in 1-hour increments.

1. Turn the dial clockwise past your desired time setting.
2. Then, turn the dial counter-clockwise to align the red bar with your desired feeding time (e.g., 12 hours).
3. The lid will automatically open after the set number of hours has passed.

Visual guide demonstrating the two-step process of setting the dial timer: first clockwise past the desired time, then counter-clockwise to the exact time.

6.2. Food Compatibility

This feeder is compatible with various types of pet food, including:

- Dry Food
- Soft Dry Food
- Semi-Moist Food
- Wet Food

Illustrations of dry, soft dry, semi-moist, and wet food, indicating the feeder's versatility.

7. MAINTENANCE

7.1. Cleaning the Stainless Steel Food Tray

The stainless steel food tray is removable and dishwasher-safe, making it easy to clean and maintain hygiene. It resists stains and odors.

1. Remove the food tray from the main unit.
2. Wash the tray with mild detergent and water.
3. Rinse thoroughly and dry completely before placing it back into the feeder.

食洗器にも対応しています

A person washing the stainless steel food tray under running water, demonstrating its easy cleaning.

7.2. Cleaning the Main Unit

Wipe the exterior of the main unit with a soft, damp cloth. Do not use abrasive cleaners or immerse the unit in water.

8. TROUBLESHOOTING

- Feeder not opening at the set time:** Check if the battery is inserted correctly and has sufficient power. Replace the battery if necessary. Ensure the dial timer is set properly according to the instructions.
- Lid not closing:** Ensure no food particles are obstructing the lid mechanism.
- Ice pack ingested by pet:** Immediately consult a veterinarian. Ensure the ice pack is always securely placed and the lid is closed to prevent access.
- Timer inaccuracy:** The dial timer may have a slight margin of error (approximately +/- 30 minutes). This is normal for mechanical dial timers.
