

## SPC 2340N

# SPC Talk 2 Basic 4G Mobile Phone User Manual

Model: 2340N | Brand: SPC

## 1. INTRODUCTION

The SPC Talk 2 is a basic 4G mobile phone designed for essential communication. It features a 1.8-inch display, a powerful 106 dB ringer, and a compact, lightweight design. This device includes practical tools such as a camera, flashlight, FM radio, and supports 9 quick dial memories. Its 4G connectivity ensures clear calls and broad coverage, while the USB-C port allows for convenient charging.

## 2. WHAT'S IN THE BOX

Upon unboxing your SPC Talk 2, verify that all the following items are included:

- SPC Talk 2 Mobile Phone
- Battery
- USB-C Charging Cable
- User Guide

### 3. PRODUCT OVERVIEW

Familiarize yourself with the physical components of your SPC Talk 2 mobile phone.

Image 3.1: Front and back view of the SPC Talk 2, showing the keypad, screen, and rear camera.

Image 3.2: Key features of the SPC Talk 2, including the flashlight, camera, FM radio, and quick dial memory buttons. The phone features a traditional keypad, a 1.8-inch color display, a rear camera, a built-in flashlight, and a 3.5mm audio jack. Charging is done via the USB-C port located at the bottom of the device.

## 4. SETUP

## 4.1. Battery and SIM Card Installation

1. Carefully remove the back cover of the phone.
2. Insert your SIM card(s) into the designated slot(s). The SPC Talk 2 supports Dual SIM.
3. Insert the battery into its compartment, ensuring the contacts align.
4. Replace the back cover until it clicks securely into place.

## 4.2. Charging the Device

Before first use, fully charge the phone. Use the provided USB-C cable to connect the phone to a power adapter (not included) or a computer. A full charge typically takes less than 3 hours.

## 4.3. Powering On/Off

- To power on: Press and hold the Power button (usually the red hang-up key) until the screen lights up.
- To power off: Press and hold the Power button, then select 'Power off' from the options.

## 5. OPERATING INSTRUCTIONS

## 5.1. Making and Receiving Calls

The SPC Talk 2 utilizes 4G technology for improved call clarity and network stability.

- **Making a Call:** Enter the phone number using the keypad and press the green Call button.
- **Receiving a Call:** When the phone rings, press the green Call button to answer.
- **Ending a Call:** Press the red Hang-up button.

Image 5.1: The phone's screen showing an active call interface.

The phone features a loud ringer at 106 dB, ensuring calls are not missed even in noisy environments.

Video 5.1: Demonstration of the phone's loud speaker and quick dial features, useful for basic call functions.

Video 5.2: Product demonstration showcasing the phone's ringer volume and flashlight functionality.

## 5.2. Contacts and Quick Dial

Store frequently called numbers in your phone's contacts. The SPC Talk 2 also supports 9 quick dial memories for instant calling.

- **Accessing Contacts:** Navigate to the 'Agenda' or 'Contacts' menu option.
- **Setting Quick Dial:** Refer to the phone's menu for assigning numbers to quick dial keys (typically 2-9).

Image 5.2: The phone's main menu, displaying options for navigation and accessing contacts.

### **5.3. Messaging**

Send and receive SMS text messages. Access the 'Messages' menu to compose new messages or view your inbox.

### **5.4. Camera**

The SPC Talk 2 includes a basic rear camera for capturing simple photos. Access the camera function through the main menu.

### **5.5. Flashlight**

Activate the built-in flashlight for illumination. This feature can typically be accessed via a dedicated button or a shortcut in the menu.

### **5.6. FM Radio**

Listen to FM radio stations. Ensure headphones are connected as they often act as the antenna. Access the FM Radio application from the main menu.

### **5.7. Basic Settings**

Adjust phone settings such as volume, display brightness, date and time, and language through the 'Settings' menu.

## 6. MAINTENANCE

### 6.1. Battery Care

The SPC Talk 2 battery offers extended usage times:

- Up to 6 days of normal use.
- Up to 15 days in standby mode.
- Up to 8 hours of continuous talk time.

To maximize battery life, avoid extreme temperatures and fully charge the device regularly.

### 6.2. Cleaning

Wipe the phone with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials that could damage the device.

## 7. TROUBLESHOOTING

If you encounter issues with your SPC Talk 2, refer to the following common problems and solutions:

Problem	Possible Solution
Phone does not power on	Ensure the battery is correctly inserted and charged. Connect the phone to the charger for at least 15 minutes before attempting to power on again.
Cannot make or receive calls	Check if the SIM card is properly inserted and activated. Verify network signal strength. Ensure the phone is not in airplane mode.
Low ringer volume	Adjust the ringer volume in the 'Settings' menu. Ensure the phone is not in silent or vibrate-only mode.

Problem	Possible Solution
Battery drains quickly	Reduce screen brightness. Close unused applications. Ensure the phone is not in an area with poor signal, which can cause increased battery consumption.
FM Radio issues (e.g., high volume, poor reception)	Ensure headphones are properly connected as they serve as the antenna. Adjust volume settings within the FM Radio application. Try moving to an area with better reception.
Bluetooth connectivity problems	Ensure Bluetooth is enabled on both devices. Make sure both devices are in pairing mode and within range. Restart both devices and try pairing again.

If the problem persists after attempting these solutions, please contact SPC customer support.

## 8. SPECIFICATIONS
