### 3. KEY FEATURES

The Punkt. MC02 Phone Case and Screen Protector set offers a range of features designed for optimal device protection and user experience:

- **Durable & Stylish Case:** Crafted from soft-touch liquid silicone, reinforced with recycled polycarbonate, providing both superior protection and a sleek design. Available in Black, Sky Blue, and Pearl White.
- **Reinforced & Lightweight:** Engineered for everyday protection against impacts while maintaining a lightweight profile.
- **Perfect Fit & Secure Grip:** Flexible material ensures a snug fit around your MC02, offering a comfortable and non-slip grip.
- **Premium Screen Protection:** High-aluminum rigid tempered glass with 2.5D rounded edges and an electroplating oiling coating for enhanced strength, clarity, and touch sensitivity.
- **Sustainable Design:** Both the case and screen protector are crafted from recycled materials, reflecting an eco-conscious approach.

## 4. SETUP INSTRUCTIONS

---

### 4.1. Applying the Screen Protector

1. **Clean the Screen:** Ensure your MC02 phone screen is completely clean and free of dust, smudges, or fingerprints. Use a microfiber cloth, and if necessary, a screen cleaning solution. A clean screen is crucial for bubble-free application.
2. **Align the Protector:** Carefully peel off the protective film from the adhesive side of the tempered glass screen protector. Align the screen protector with your phone's screen, paying close attention to the cutouts for the camera and sensors.
3. **Apply and Smooth:** Once aligned, gently lower the screen protector onto the phone screen. It will begin to adhere automatically. Use a clean, soft cloth or a squeegee (if provided) to gently push out any air bubbles from the center towards the edges.

4. **Final Wipe:** After application, give the screen protector a final wipe with a clean cloth to remove any remaining smudges.

## 4.2. Installing the Phone Case

1. **Insert Top First:** Gently slide the top edge of your MC02 phone into the top edge of the silicone case, ensuring the camera module aligns with the case's cutout.
2. **Snap into Place:** Apply gentle pressure to the bottom corners of the phone until it snaps securely into the case. Ensure all edges of the phone are fully seated within the case's frame.
3. **Check Alignment:** Verify that all buttons (power, volume) and ports (charging, headphone jack) are properly aligned with the case's openings and button covers.

## 5. OPERATING YOUR DEVICE WITH THE CASE AND PROTECTOR

Once installed, the Punkit. MC02 Phone Case and Screen Protector work together to provide comprehensive protection without hindering your device's functionality.

- **Enhanced Grip:** The soft-touch silicone case provides a secure and comfortable grip, reducing the likelihood of accidental drops.
- **Button Functionality:** The case is designed with precise button covers that allow for tactile feedback and easy pressing of the power and volume buttons. If you experience any difficulty, ensure the phone is seated correctly within the case.
- **Port Accessibility:** All ports and speakers remain fully accessible for charging, audio, and other functions.
- **Screen Responsiveness:** The tempered glass screen protector maintains the original touch sensitivity and clarity of your MC02's display.
- **Wireless Charging:** The case is designed to be compatible with wireless charging, allowing you to charge your device without removing the case.

## 6. CARE AND MAINTENANCE

---

To ensure the longevity and effectiveness of your Punkt. MC02 Phone Case and Screen Protector, follow these maintenance guidelines:

- **Cleaning the Case:**

Wipe the silicone case regularly with a damp cloth and mild soap if necessary. Avoid harsh chemicals or abrasive cleaners, as these can damage the material or finish. Allow the case to air dry completely before reattaching it to your phone.

- **Cleaning the Screen Protector:**

Clean the screen protector with a soft, lint-free microfiber cloth. For stubborn smudges, a small amount of screen cleaning solution can be applied to the cloth (not directly to the screen). Avoid excessive pressure.

- **Avoid Extreme Temperatures:**

Do not expose the case or screen protector to extreme temperatures (hot or cold) or direct sunlight for prolonged periods, as this may affect their material integrity.

- **Inspect Regularly:**

Periodically inspect the case and screen protector for any signs of wear, cracks, or damage. Replace them if significant damage is observed to ensure continued protection for your device.

## 7. TROUBLESHOOTING

---

If you encounter any issues with your Punkt. MC02 Phone Case or Screen Protector, refer to the following common solutions:

Problem	Possible Cause	Solution
Difficulty pressing side buttons (power/volume)	Phone not fully seated in the case; case material slightly stiff.	<ol style="list-style-type: none"><li>1. Remove the phone from the case and re-install, ensuring it is fully seated and aligned.</li><li>2. Gently press and flex the button areas of the case a few times to soften the material.</li><li>3. Ensure you are pressing directly on the button covers.</li></ol>
Bubbles under the screen protector	Dust particles trapped; improper application; uneven surface.	<ol style="list-style-type: none"><li>1. For small bubbles, gently push them towards the nearest edge with a soft cloth or squeegee.</li><li>2. If caused by dust, carefully lift the nearest corner of the protector, use a dust-removal sticker to lift the dust, and reapply.</li><li>3. Ensure the screen is thoroughly cleaned before application.</li></ol>
Screen protector peeling at edges	Improper initial adhesion; impact damage; dust accumulation.	<ol style="list-style-type: none"><li>1. Press down firmly on the peeling edge to re-adhere.</li><li>2. Clean the edge area to remove any dust or debris.</li><li>3. If peeling persists or is significant, the protector may need replacement.</li></ol>
Case feels loose or doesn't fit snugly	Incorrect model; material stretching over time.	<ol style="list-style-type: none"><li>1. Verify that you have the correct case for the Punkt. MC02 model.</li><li>2. If the case has stretched significantly, consider replacing it to ensure optimal protection.</li></ol>
