

## Bomann GT7356

# Bomann GT7356 Chest Freezer User Manual

Model: GT7356 (Type 773560)

## 1. INTRODUCTION

---

Thank you for choosing the Bomann GT7356 Chest Freezer. This manual provides essential information for the safe and efficient operation, installation, and maintenance of your appliance. Please read these instructions carefully before use and keep them for future reference.

## 2. SAFETY INFORMATION

---

### General Safety:

- Read all instructions before using the appliance.
- This appliance is intended for household use only.
- Do not allow children to play with the appliance.
- Unplug the appliance before cleaning or maintenance.
- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.

### Electrical Safety:

- Ensure the voltage indicated on the rating plate matches your household supply.
- Do not use extension cords or ungrounded adapters.
- Do not damage the refrigerant circuit.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard.

### Installation Safety:

- Place the appliance on a firm, level surface.
- Ensure adequate ventilation around the appliance.
- Do not install near heat sources or in direct sunlight.

### 3. PRODUCT OVERVIEW

---

The Bomann GT7356 is a 198-liter chest freezer designed for efficient and reliable food storage. Key features include LED lighting, electronic temperature control, and a Super Freeze function.

Figure 1: Front view of the Bomann GT7356 Chest Freezer with the lid partially open, revealing the interior. This image provides a general overview of the appliance.

#### Control Panel

The electronic control panel allows for precise temperature adjustments and features LED indicator lights for operational status. (Refer to Figure 7 for a detailed view of the control panel).

### 4. SETUP AND INSTALLATION

---

#### 4.1 Unpacking

Carefully remove all packaging materials. Dispose of packaging responsibly, keeping plastic bags away from children.

Check the appliance for any transport damage.

## 4.2 Placement

- **Dimensions:** The appliance measures approximately 84.5 cm (H) x 102.6 cm (W) x 61.6 cm (D). Ensure sufficient space for air circulation.
- **Ventilation:** Allow at least 10 cm of space around the sides and back of the freezer for proper ventilation.
- **Leveling:** Use the adjustable feet to ensure the freezer is stable and level. The appliance also features castors for easier movement.
- **Environment:** Avoid placing the freezer in direct sunlight, near heat sources (e.g., oven, radiator), or in excessively damp areas. The climate class is SN/N/ST/T, suitable for ambient temperatures from +10°C to +43°C.

Figure 7: This image illustrates the overall dimensions of the Bomann GT7356 chest freezer and provides a close-up view of its electronic control panel.

## 4.3 Electrical Connection

Connect the appliance to a properly installed and grounded wall socket. The required voltage is 220-240 V~ / 50 Hz. After positioning, wait at least 2-4 hours before plugging in the appliance to allow the refrigerant to settle.

## 4.4 Initial Cleaning

Before first use, clean the interior and exterior of the freezer with a damp cloth and a mild detergent. Dry thoroughly.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 Temperature Control

The freezer features electronic temperature control with LED indicator lights. The temperature range is  $\leq -18^{\circ}\text{C}$ . Use the control panel to set your desired freezing temperature. The LED lights will indicate the current setting (e.g., MIN, NORMAL, MAX, SUPER).

### 5.2 Super Freeze Function

Activate the Super Freeze function when adding a large quantity of fresh food to the freezer. This function rapidly lowers the temperature to quickly freeze items, preserving their quality, texture, and taste. The freezing capacity is 12 kg per 24 hours.

### 5.3 Loading the Freezer

The freezer has a net capacity of 198 liters, providing ample space for frozen goods. It is a 4-star freezer, indicating its suitability for long-term storage of frozen foods at  $-18^{\circ}\text{C}$  or colder.

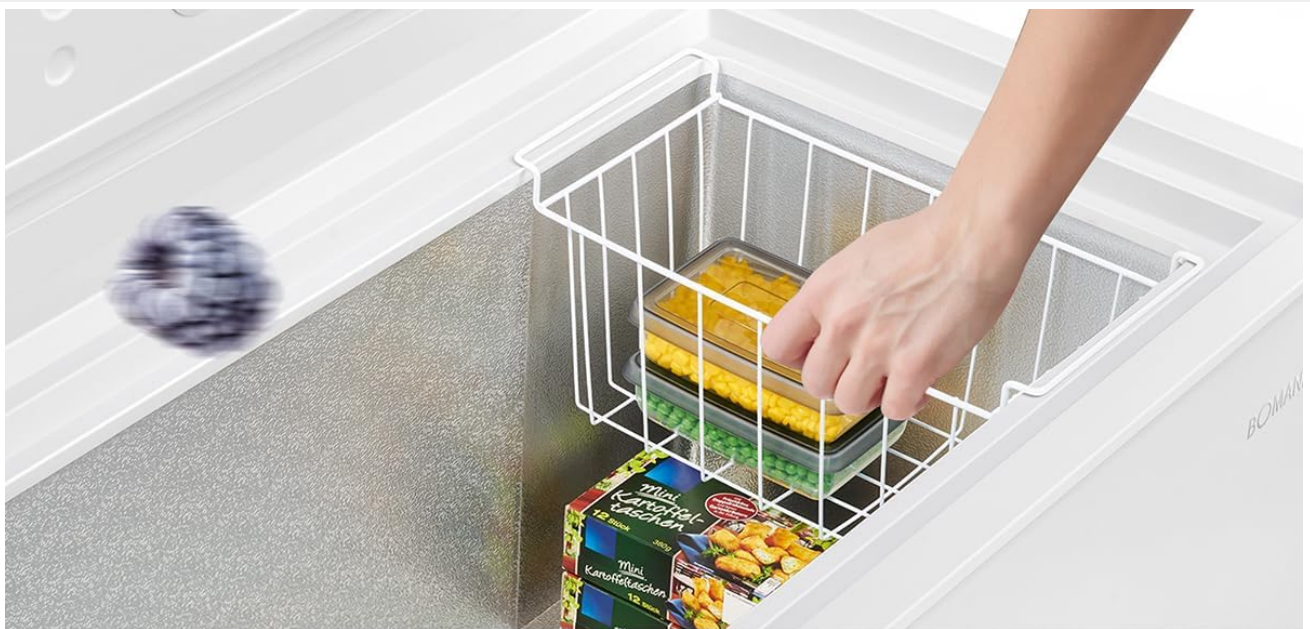

# MEHR PLATZ FÜR ALLES, WAS DIR WICHTIG IST!

Figure 2: The spacious interior of the Bomann GT7356 chest freezer, demonstrating its 198-liter volume for storing various frozen items.

## 5.4 Freezing Basket

A removable freezing basket (approx. 40.4 x 42.5 x 40.4 cm) is included for convenient organization and easy access to smaller or frequently used items.

## PERFEKT ORGANISIERT HERAUSNEHMBARER GEFRIERKORB INKLUSIVE!

Figure 3: This image shows the practical, removable freezing basket, allowing for organized storage within the freezer.

### 5.5 LED Lighting

The integrated LED lighting illuminates the interior, making it easy to view and locate items, even in low-light conditions.

## 6. MAINTENANCE AND CARE

---

### 6.1 Cleaning

Regularly clean the interior and exterior of the freezer. Unplug the appliance before cleaning. Use a soft cloth with mild detergent and water. Avoid abrasive cleaners or solvents. Ensure all surfaces are dry before plugging the appliance back in.

### 6.2 Defrosting

Defrost the freezer when the ice layer becomes approximately 5 mm thick. Unplug the appliance, remove all food, and allow the ice to melt naturally. A practical ice scraper is included to assist with ice removal. Do not use sharp objects to remove ice.

# ALLES, WAS DU BRAUCHST!

Figure 6: An image of the included ice scraper, designed for safe and easy removal of ice buildup during defrosting.

## 6.3 Power Failure

In case of a power failure, the freezer can maintain the temperature for up to 41 hours, provided the lid remains closed. Avoid opening the lid unnecessarily during a power outage to preserve the internal temperature.

## 7. TROUBLESHOOTING

---

Before contacting customer service, check the following common issues:

- **Appliance not working:** Check if the power cord is plugged in, the fuse is intact, and the power outlet is functional.
- **Temperature not cold enough:** Ensure the temperature setting is correct, the lid is properly closed, and there is adequate ventilation. Avoid overloading the freezer.
- **Excessive noise:** Check if the appliance is level and not touching any walls or furniture.
- **Excessive ice buildup:** This is normal and requires defrosting. Ensure the lid seal is intact.

If the problem persists after checking these points, please contact customer support.

## 8. TECHNICAL SPECIFICATIONS

Feature	Specification
Brand	Bomann
Model Name	GT7356
Model Number	773560
Net Capacity	198 Liters
Freezer Rating	4-Star
Temperature Range	≤ -18°C
Freezing Capacity	12 kg / 24 h
Storage Time (Power Failure)	Max. 41 h
Dimensions (H x W x D)	84.5 x 102.6 x 61.6 cm
Net Weight	37.0 kg
Rated Power	100 W
Connection Voltage	220-240 V~ / 50 Hz
Climate Class	SN/N/ST/T (+10°C ~ +43°C)
Refrigerant	R600a
Noise Level	40 dB
Energy Consumption / 24h	0.395 kWh
Annual Energy Consumption	160 kWh (according to EU Regulation 2019/2016)
Door Material	Plastic
