2. Pairing

1. Open the charging case. The earbuds will automatically enter Bluetooth pairing mode.
2. On your device (smartphone, tablet, or PC), navigate to the Bluetooth settings and ensure Bluetooth is enabled.
3. Search for available devices and select 'AVIOT TE-A1' from the list.
4. A voice prompt will confirm successful pairing.

3. Fitting

Selecting the correct ear tip size is crucial for optimal sound quality, noise canceling, and comfort. Experiment with the included ear tip sizes (SS, S, M, L) to find the best fit for your ears. Gently insert the earbuds and twist them slightly to create a secure seal.

OPERATING INSTRUCTIONS

Touch Controls

The AVIOT TE-A1 earbuds feature high-sensitivity touch sensors on each earbud for controlling playback, calls, and noise modes. Specific functions can often be customized through the dedicated AVIOT SOUND ME app.

Noise Control Modes

- **Adaptive Noise Canceling:** This mode actively reduces ambient noise, automatically adjusting to your environment for an immersive listening experience.
- **Ambient Sound Mode:** Allows you to hear your surroundings while audio is playing, enhancing situational awareness without removing the earbuds.

3D Spatial Audio

Experience an enhanced audio dimension with AVIOT's proprietary external localization algorithm, which creates a three-dimensional soundstage. This feature brings movies, games, and other entertainment to life with increased realism and depth.

Multi-Point Connectivity

The earbuds support multi-point connectivity, allowing you to connect to two devices simultaneously. For example, you can connect to both your smartphone and your PC, enabling seamless transitions between calls and media playback.

Low Latency Mode (Gaming Mode)

Activate the low latency mode to minimize audio and video synchronization delays. This is particularly beneficial for gaming and watching videos, ensuring a more fluid and responsive experience.

Dedicated App Support

Download the AVIOT SOUND ME app to unlock additional features and customization options. The app allows you to adjust sound profiles with various EQ presets (e.g., Movie, ASMR, Live) and configure touch control functions.

MAINTENANCE

Cleaning

Regularly clean your earbuds and charging case to maintain performance and hygiene. Use a soft, dry, lint-free cloth to wipe the surfaces. For ear tips, remove them from the earbuds and clean with mild soap and water if necessary, ensuring they are completely dry before reattaching.

Water Resistance

The AVIOT TE-A1 earbuds are rated IPX4, meaning they are resistant to sweat and splashes of water from any direction. This makes them suitable for workouts and outdoor activities. However, they are not designed for submersion in water. Always ensure the charging port is dry before connecting the charging cable or placing on a wireless charger.

TROUBLESHOOTING

If you encounter any issues with your AVIOT TE-A1 earbuds, please refer to the following common solutions:

- **No Sound:**

- Check the volume levels on both the earbuds and your connected device.
- Ensure the earbuds are properly paired with your device.

- **Connection Issues:**

- Try re-pairing the earbuds with your device.
- Ensure no other Bluetooth devices are interfering with the connection.
- Move closer to your connected device to ensure a stable connection.

- **Charging Problems:**

- Verify that the USB Type-C charging cable is securely connected to both the case and the power source.
- If using wireless charging, ensure the case is correctly aligned on the charging pad.
- Clean the charging contacts on both the earbuds and the case if necessary.

- **Poor Sound Quality or Noise Canceling:**

- Adjust the fit of the earbuds in your ears and try different ear tip sizes to ensure a proper and secure seal.
- Ensure the earbuds are clean and free from debris.
