Bayer Design 17026AA Xeo Doll's Pram User Manual

Model: 17026AA Xeo

1. PRODUCT OVERVIEW

The Bayer Design 17026AA Xeo Doll's Pram is a versatile accessory designed for dolls up to 46 cm. It features a modern design with multiple adjustment options, including a height-adjustable handle and a swivel slider. The pram can be easily converted into a doll jogger, offering flexible play scenarios. It includes swiveling front wheels for enhanced maneuverability, a matching bag, and an integrated storage basket.

2. IMPORTANT SAFETY INFORMATION

- **WARNING:** Not suitable for children under 3 years due to small parts. Choking hazard.
- Assembly of this toy must be performed by an adult.
- Keep all packaging materials away from children.
- Regularly inspect the product for any damage or loose parts. Discontinue use if any damage is found.

3. PACKAGE CONTENTS

Please ensure all components are present before beginning assembly:

- Pram Frame Components (various bars and connectors)
- Pram Body / Bassinet Fabric
- Convertible Sports Seat Fabric
- Wheels (Front Swivel Wheels, Rear Wheels)
- Matching Accessory Bag
- Integrated Storage Basket Fabric
- Assembly Instructions Sheet

4. ASSEMBLY INSTRUCTIONS

Follow these steps carefully for proper assembly. Adult supervision is required.

Image 4.1: Detailed assembly diagram illustrating the 10-step process for setting up the doll's pram.

1. **Step 1:** Attach component D to the main frame.
2. **Step 2:** Secure component T and K to the frame using the provided fasteners.
3. **Step 3:** Connect component C to the lower frame section.
4. **Step 4:** Attach wheels A and B to the designated axles. Ensure they click into place securely.
5. **Step 5:** Secure component F to the frame (2 times).
6. **Step 6:** Attach component E to the frame (2 times).
7. **Step 7:** Connect component J to the frame (2 times).
8. **Step 8:** Attach handle H to the main frame.
9. **Step 9:** Position the bassinet/sports seat onto the assembled frame.
10. **Step 10:** Ensure all connections are firm and the pram is stable before use.

5. OPERATING INSTRUCTIONS

5.1 Adjusting the Handle

The pram features a height-adjustable handle, allowing it to be set between 58 cm and 71 cm to suit different user heights. Locate the adjustment buttons or levers on the side of the handle, press them, and slide the handle to the desired height. Release the buttons to lock it in place.

5.2 Swivel Slider Function

The swivel slider allows you to change the direction of the handle, enabling the doll's pram to be pushed with the doll facing towards or away from the user. To activate, locate the swivel mechanism near the handle's base, unlock it, rotate the handle 180 degrees, and lock it back into position.

5.3 Converting from Pram to Jogger

The Xeo doll's pram can be easily converted into a doll jogger. This involves adjusting the position of the tub/seat unit. Locate the press studs or clips that secure the bassinet in its flat position. Release these, and reconfigure the fabric and frame to form an upright sports seat. The cover can be adjusted to protect the doll in both lying and sitting positions.

Image 5.1: The doll's pram configured as a jogger, demonstrating its convertible functionality.

5.4 Swivel Front Wheels

The front wheels are designed to swivel, providing excellent maneuverability and making it easy to navigate corners and tight spaces. Ensure the wheels are free from obstructions for smooth operation.

5.5 Using the Integrated Basket and Bag

The pram includes an integrated basket located beneath the seat, offering convenient storage for doll accessories or other small items. A matching accessory bag is also provided, which can be used as a shoulder bag or handbag, featuring both long and short handles.

Image 5.2: A close-up view of the matching accessory bag, highlighting its design and handles.

6. CARE AND MAINTENANCE

- Cleaning:** Wipe down the frame with a damp cloth and mild soap. The fabric components can be spot cleaned as needed. Do not machine wash unless specified by the manufacturer.
- Storage:** Store the pram in a dry, cool place away from direct sunlight to prevent fading and material degradation.
- Inspection:** Periodically check all screws, fasteners, and moving parts to ensure they are secure and functioning correctly.

7. TROUBLESHOOTING

- Wheels not turning smoothly:** Check for any debris or hair caught in the wheel axles. Ensure the wheels are securely attached.
- Handle not adjusting:** Verify that the adjustment buttons are fully pressed in and that there are no obstructions preventing movement.
- Pram unstable:** Recheck all assembly connections as per Section 4. Ensure all parts are securely fastened.

8. PRODUCT SPECIFICATIONS

| Feature | Specification |
|--------------------------------|-----------------|
| Model Number | 17026AA |
| Recommended Age | 3 years and up |
| Maximum Doll Size | 46 cm |
| Product Dimensions (L x W x H) | 68 x 37 x 73 cm |
| Adjustable Handle Height | 58 - 71 cm |

| | |
