

ELLE EL7280-NOC-STK-6

ELLE Infrared Heated Round Brush

Model: EL7280-NOC-STK-6

INTRODUCTION

The ELLE Infrared Heated Round Brush is designed to provide effortless volume and shine to your hair using gentle infrared heat technology. This manual provides essential information for the safe and effective use, maintenance, and troubleshooting of your heated round brush.

IMPORTANT SAFETY INSTRUCTIONS

WARNING: To reduce the risk of burns, electrocution, fire, or injury to persons:

- Always unplug the appliance immediately after using.
- Do not use while bathing or in a shower.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- Do not reach for an appliance that has fallen into water. Unplug immediately.
- This appliance should never be left unattended when plugged in.
- Close supervision is necessary when this appliance is used by, on, or near children or individuals with certain disabilities.
- Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
- Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped, damaged, or dropped into water.
- Keep the cord away from heated surfaces. Do not wrap the cord around the appliance.
- Never use while sleeping.

- Never drop or insert any object into any opening.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Do not use an extension cord with this appliance.
- The brush barrel becomes hot during use. Do not touch heated surfaces directly.
- Ensure hair is dry before use to avoid sizzling and potential damage.

PRODUCT OVERVIEW

The ELLE Infrared Heated Round Brush features a ceramic-coated barrel and infrared technology for gentle, effective styling. It is designed for ease of use and to enhance hair's natural volume and shine.

The image shows a dark blue ELLE Infrared Heated Round Brush. It has a long, cylindrical barrel with a dense array of black bristles. The handle is also dark blue and features a power button with a circular icon. A black power cord is attached to the bottom of the handle. The background is a solid light pink color.

Components:

- **Heated Ceramic-Coated Barrel:** Distributes infrared heat evenly.
- **Bristles:** Designed to grip hair for styling and detangling.

- **Power Button:** For turning the device on and off.
- **Cool Tip:** For safe handling during styling.
- **360° Swivel Cord:** Prevents tangling during use.

SETUP

1. **Unpack:** Carefully remove the heated round brush from its packaging.
2. **Inspect:** Check the appliance for any signs of damage. Do not use if damaged.
3. **Placement:** Ensure the brush is placed on a heat-resistant surface when not in use or during cool-down.
4. **Plug In:** Insert the power cord into a standard electrical outlet.

OPERATING INSTRUCTIONS

For optimal results, ensure your hair is dry and detangled before using the heated round brush. This brush operates at a maximum temperature of 374°F (190°C) and does not have variable heat settings.

1. **Preparation:** Ensure hair is completely dry. Apply a heat protectant spray if desired.
2. **Power On:** Press the power button to turn on the brush. The brush will begin to heat up quickly.
3. **Section Hair:** Divide your hair into manageable sections, approximately 1-2 inches wide.
4. **Styling for Volume:** For added volume at the roots, place the brush underneath a section of hair close to the scalp. Gently lift and hold for a few seconds, then slowly pull the brush through the hair section, rotating it slightly as you go.
5. **Styling for Smoothness/Shine:** For smoothing and adding shine, place the brush on top of a hair section and slowly glide it down from root to tip.
6. **Curling Ends:** To create soft curls or flipped ends, wrap the end of a hair section around the barrel, hold for a few seconds, then release.
7. **Repeat:** Continue styling section by section until desired look is achieved.
8. **Power Off:** After use, press the power button to turn off the brush and unplug it from the outlet.

Note: The brush features a 60-minute auto shut-off for safety. If the brush turns off during use, simply press the power button to restart.

MAINTENANCE

Proper maintenance ensures the longevity and performance of your ELLE Infrared Heated Round Brush.

1. **Cleaning:** Ensure the brush is unplugged and completely cool before cleaning. Use a soft, damp cloth to wipe down the barrel and handle. Do not use abrasive cleaners or immerse the appliance in water.
2. **Removing Hair:** Regularly remove any hair tangled in the bristles using a comb or your fingers.
3. **Storage:** Store the brush in a cool, dry place, away from moisture and direct sunlight. Do not wrap the cord tightly around the appliance, as this can cause damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Brush does not heat up.	Not plugged in correctly, power outlet issue, or auto shut-off activated.	Ensure the brush is securely plugged into a working outlet. Press the power button to turn it on. If it was on for 60 minutes, it might have auto-shut off; simply restart.
Hair is not styling effectively.	Hair is too wet, sections are too large, or not enough tension.	Ensure hair is completely dry. Work with smaller sections of hair. Apply gentle tension as you glide the brush through.
Brush pulls hair.	Hair is tangled, or brush is not gliding smoothly.	Detangle hair thoroughly before use. Ensure the brush is clean of any accumulated hair.
