SETUP

Charging the Shaver

Before first use, fully charge the shaver. A full charge typically takes approximately 1 hour.

1. Ensure the shaver is turned off.
2. Connect the provided USB Type-C charging cable to the charging port on the shaver.
3. Plug the other end of the USB cable into a compatible USB power source (e.g., computer, wall adapter, power bank).
4. The LED display will show the charging progress. Once fully charged, the display will indicate 100%.
5. Disconnect the charging cable once charging is complete.

OPERATING INSTRUCTIONS

General Usage

The Fangaci Mini Electric Foil Shaver can be used for both wet and dry shaving.

- **Dry Shaving:** For quick touch-ups, ensure your skin is clean and dry.
- **Wet Shaving:** For a smoother experience, use with shaving cream, gel, or foam in the shower or bath. The shaver is IPX7 waterproof, allowing for full body washing.

Shaving Technique

1. Remove the protective cap from the shaver head.
2. Press the power button to turn on the shaver.
3. Hold the shaver at a 90-degree angle to your skin.
4. Gently glide the shaver against the direction of hair growth. Stretch your skin taut with your free hand to ensure a closer shave.
5. Apply light pressure; do not press too hard, as this can cause irritation or damage the foil.
6. After shaving, press the power button to turn off the shaver.
7. Replace the protective cap.

MAINTENANCE

Cleaning the Shaver

Regular cleaning ensures optimal performance and hygiene.

1. Turn off the shaver and remove the protective cap.
2. Gently tap the shaver head to dislodge any loose hair.
3. Use the provided cleaning brush to brush away hair clippings from the foil and blade assembly.
4. For a deeper clean, rinse the shaver head under running water. Ensure the shaver is turned off before rinsing.
5. Allow the shaver head to air dry completely before replacing the protective cap or storing the device.

Storage

When not in use, store the shaver in a dry place, away from direct sunlight and extreme temperatures. Always ensure the protective cap is on to prevent damage to the foil head.
