## RONEGN PA100

# RONEGN PA100 Portable Charger User Manual

Model: PA100

## INTRODUCTION

---

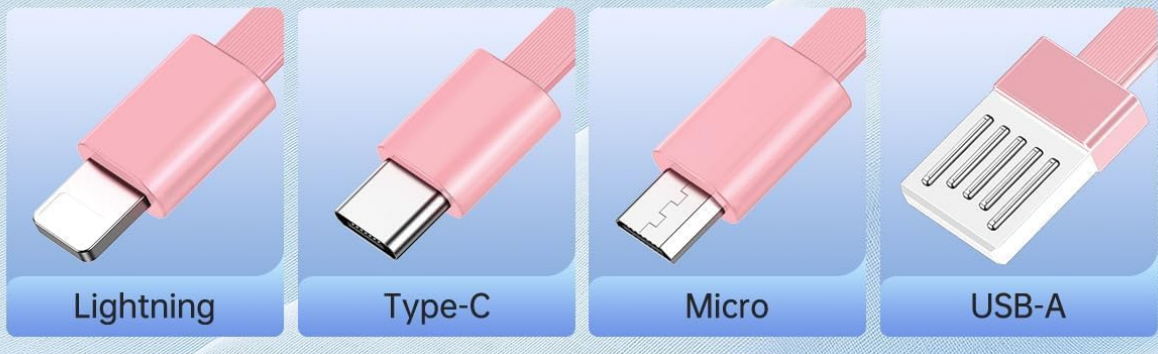

This manual provides essential instructions for the safe and efficient use of your RONEGN PA100 Portable Charger. Please read this manual thoroughly before operating the device and retain it for future reference.

## PRODUCT OVERVIEW

---

The RONEGN PA100 is a 20000mAh portable power bank designed for fast charging multiple devices. It features built-in cables for various device types, an LED display, and multiple output/input options for convenience.

# Built-in 4 Cables Power Bank

**Figure 1:** The RONEGN PA100 Portable Charger featuring four integrated charging cables (Lightning, Type-C, Micro, USB-A) for versatile device compatibility.

# Compatible with multiple devices

Figure 2: Device compatibility illustration, showing the power bank charging an iPhone and indicating support for various smartphones, tablets, and earbuds.

# Power Bank Fast Charging PD 22.5W

Lightning 12V/1.67A

TYPE-C 10V/2.25A

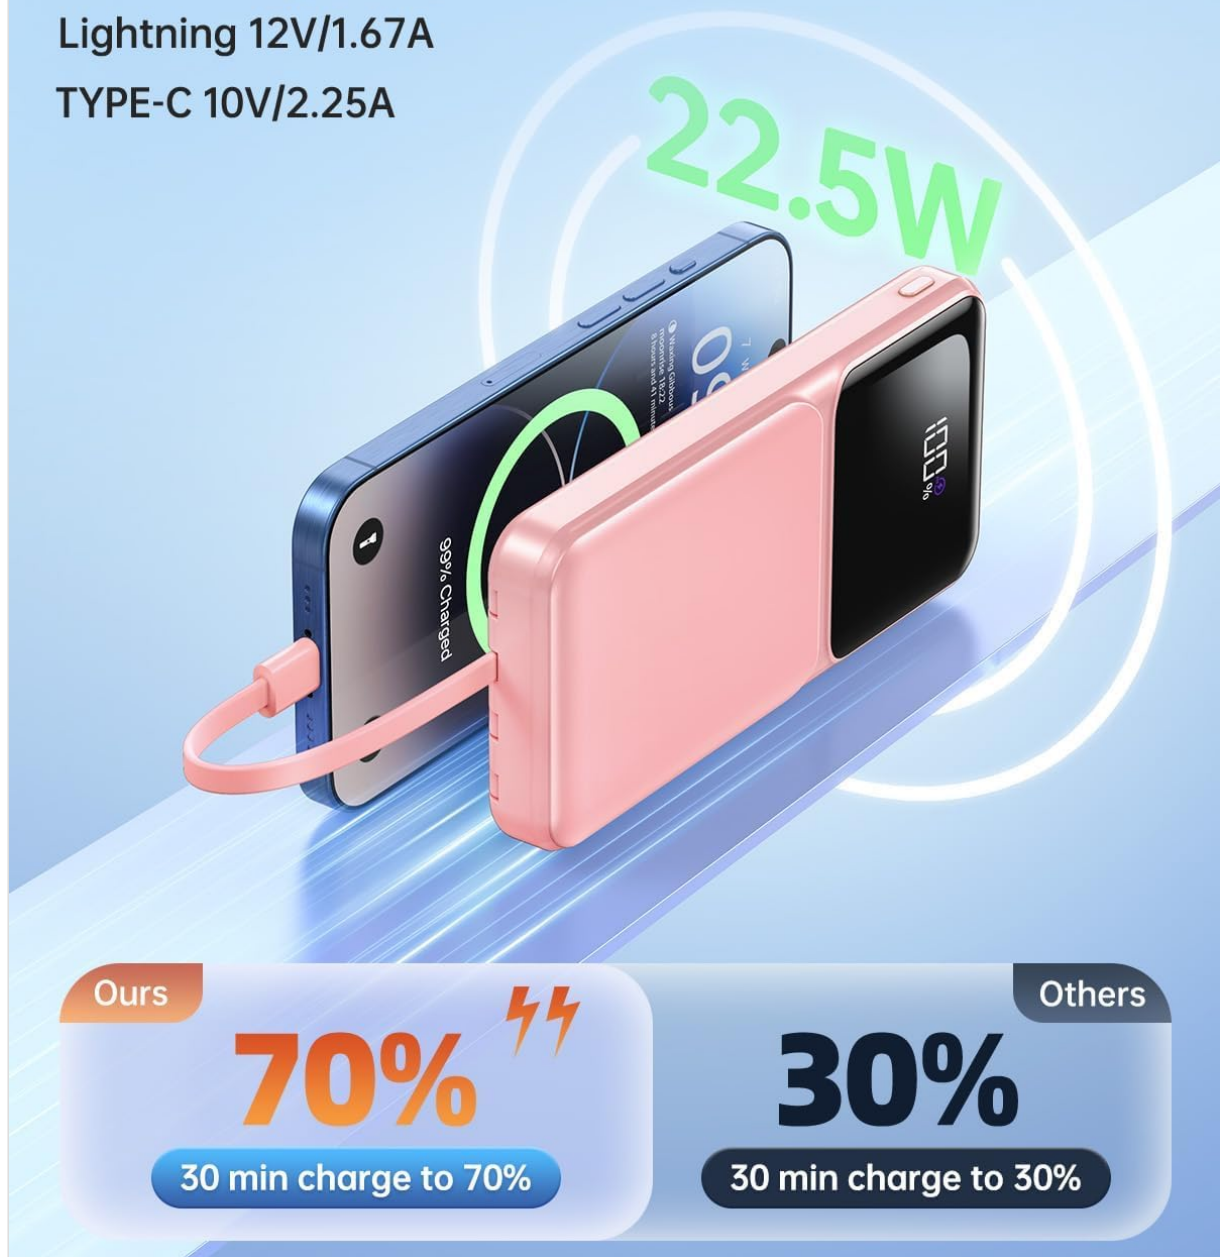

Figure 3: Fast charging capabilities of the RONEGN PA100, demonstrating 22.5W Power Delivery (PD) and the ability to charge devices up to 70% in 30 minutes.

# Up to Charge 5 devices at once

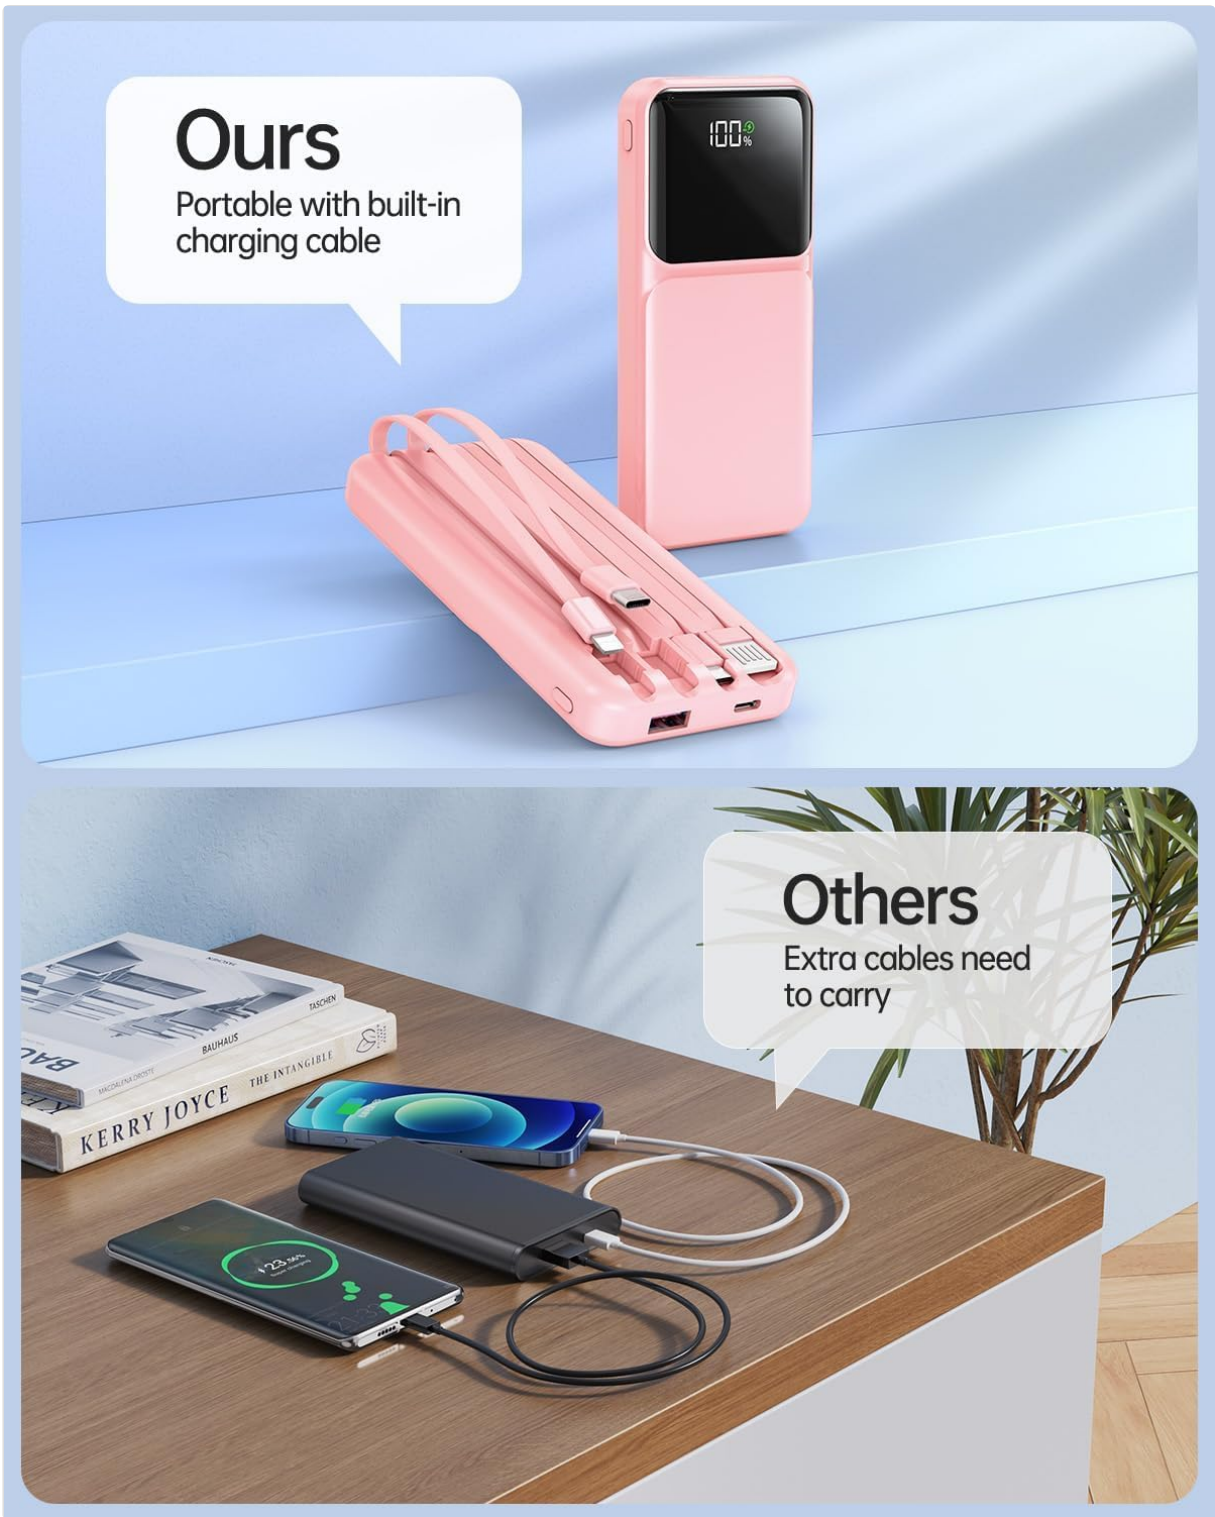

Figure 4: The RONEGN PA100's ability to charge up to five devices concurrently, showcasing its multiple output ports.

# Pocket Size

Smaller than Iphone 15

**Figure 5:** The compact and portable design of the RONEGN PA100, demonstrating its small size, comparable to an iPhone 15, for easy carrying.

**Figure 6:** A comparison highlighting the convenience of the RONEGN PA100's built-in cables versus traditional power banks that require separate cables.

# Airline Approved

Flight Friendly

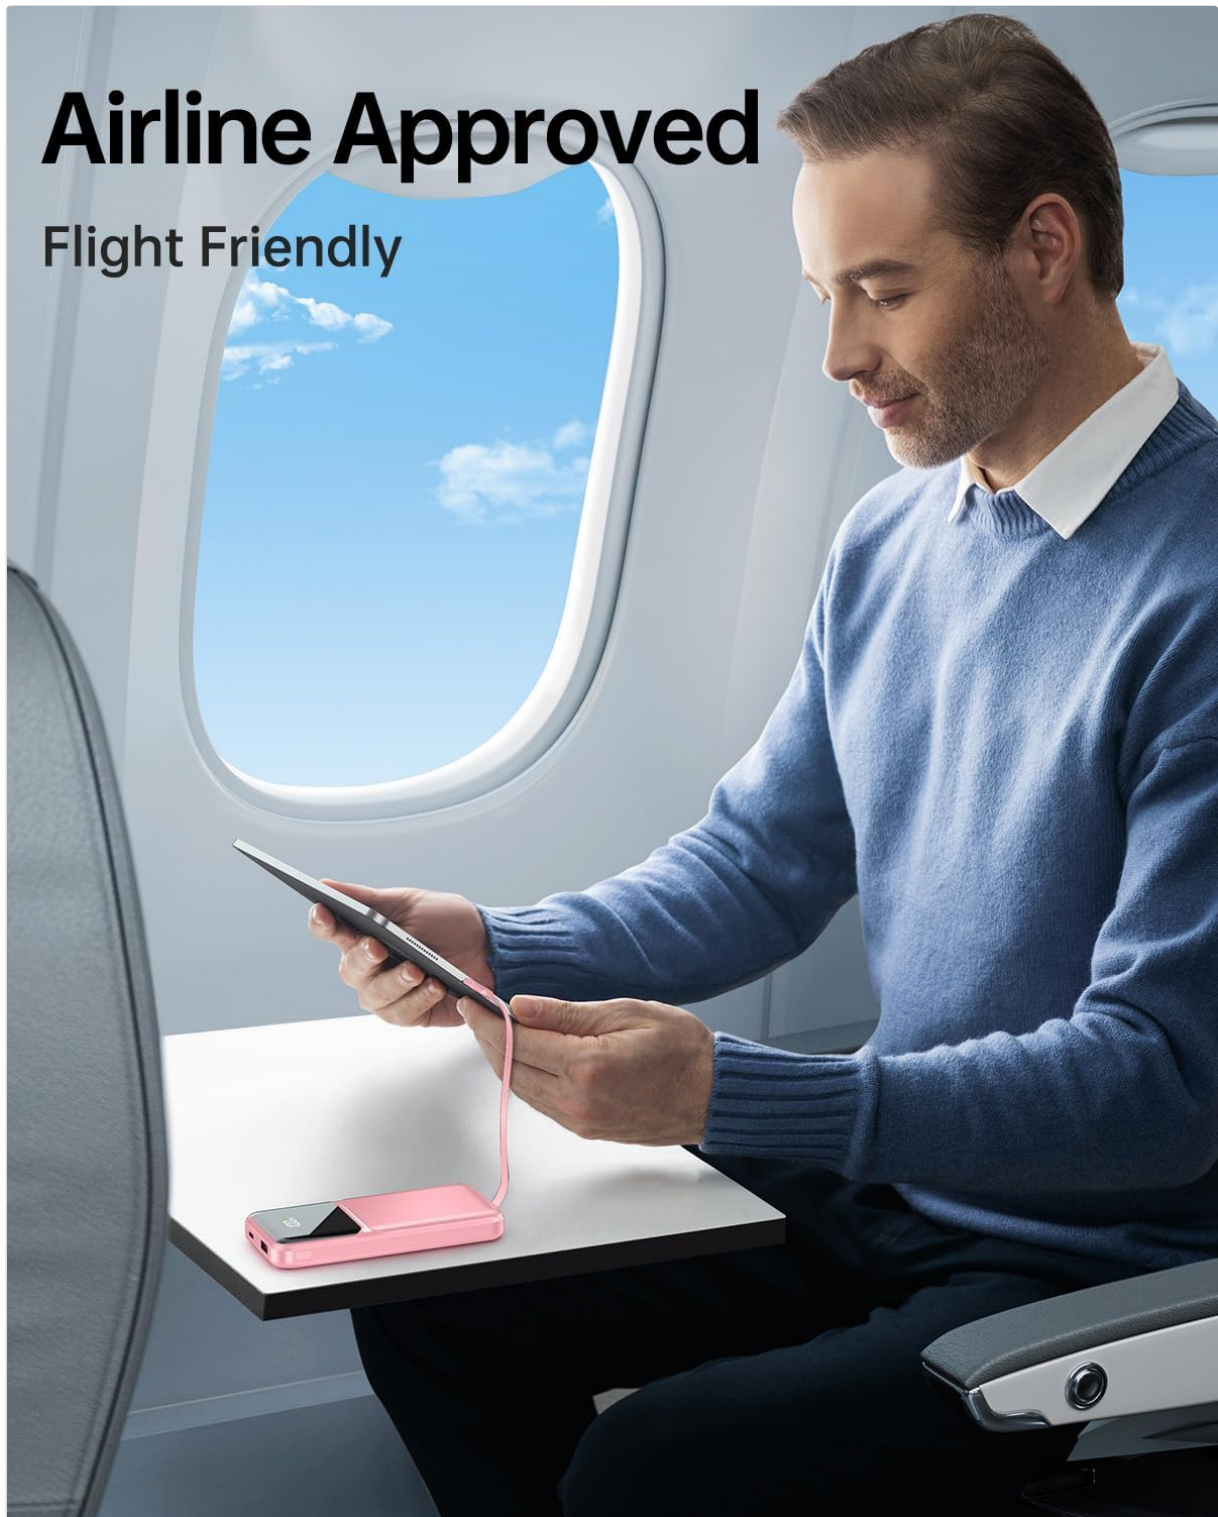

Figure 7: The RONEGN PA100 is airline-approved, making it suitable for travel and use during flights.

## SETUP AND INITIAL CHARGE

1. **Unpacking:** Carefully remove the RONEGN PA100 Portable Charger from its packaging.
2. **Initial Charge:** Before first use, fully charge the power bank. Connect the power bank to a USB wall adapter (not included) using one of the built-in input cables (USB-A) or an external USB-C cable. The LED display will show the charging progress.
3. **LED Display:** The digital LED display indicates the remaining battery percentage. Ensure it reads 100% for optimal performance on first use.

## OPERATING INSTRUCTIONS

---

## Charging Your Devices

1. **Identify Cable:** Select the appropriate built-in cable for your device (Lightning for Apple, Type-C for modern Android/USB-C devices, Micro USB for older Android/accessories).
2. **Connect Device:** Plug the chosen built-in cable directly into your device's charging port. The power bank will automatically begin charging.
3. **External Cables:** For devices not compatible with built-in cables, use your own USB charging cable and connect it to one of the available USB-A or USB-C output ports on the power bank.
4. **Multiple Devices:** The RONEGN PA100 supports charging up to five devices simultaneously using its built-in cables and external ports.
5. **Monitoring Charge:** The LED display will show the power bank's remaining battery level during charging.

## Recharging the Power Bank

- The power bank can be recharged via its USB-C input port or the built-in USB-A input cable.
- Connect the power bank to a suitable power source (e.g., wall adapter, computer USB port).
- The LED display will show the charging status, indicating when the power bank is fully charged.

---

## CARE AND MAINTENANCE

- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cleaning:** Use a soft, dry cloth to clean the exterior of the power bank. Do not use liquid cleaners or abrasive materials.
- **Avoid Drops:** Protect the device from drops and impacts, which can damage internal components.
- **Regular Use:** For optimal battery health, use and recharge the power bank at least once every three months.

---

## TROUBLESHOOTING

### Device not charging:

- Ensure the power bank is sufficiently charged (check LED display).
- Verify that the charging cable is securely connected to both the power bank and your device.
- Try a different built-in cable or an external cable to rule out a faulty cable.
- Confirm your device is compatible with the selected cable type.

### Power bank not recharging:

- Check the connection between the power bank and the power source.
- Ensure the wall adapter or USB port is functional.
- Try a different input cable (USB-C or built-in USB-A).

### Slow charging:

- Ensure your device supports fast charging and that the power bank has sufficient charge.
- Using multiple output ports simultaneously may reduce charging speed for individual devices.
- Check if the cable is damaged or if a different cable improves speed.

## SPECIFICATIONS

Feature	Detail
Brand	RONEGN
Model Name	PA100
Battery Capacity	20000 Milliamp Hours
Connector Types	Built-in Lightning, Type-C, Micro USB, USB-A; External USB-C (Input/Output), USB-A (Output)
Special Features	Built-in Cables, Digital Display, Fast Charging, Pocket Size, Short Circuit Protection
Voltage	5V
Power Source	Corded Electric
Number of Ports	5 Outputs (4 built-in cables, 1 USB-A port) and 2 Inputs (USB-C port, built-in USB-A cable)
Compatible Devices	Smartphones (iPhone, Samsung, Google Pixel, Android), iPad, Tablets, and other USB-powered devices.
Battery Cell Type	Lithium Polymer
Item Dimensions	1"L x 1"W x 1"Th
Battery Weight	200 Grams
UPC	791069645270
Manufacturer	Shenzhen Lang Shui Innovative Technology Co.,Ltd

## WARRANTY AND SUPPORT

The RONEGN PA100 Portable Charger comes with a **2-Year Warranty** from the date of purchase. This warranty covers manufacturing defects and ensures the product meets its stated specifications under normal use.

For warranty claims, technical support, or any inquiries, please contact RONEGN customer service through the retailer where the product was purchased or visit the official RONEGN website.
