Assembly is required for this product. It is recommended to have two people for assembly. A power drill may be helpful for faster assembly, but ensure not to overtighten screws.

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, soft surface (e.g., a blanket or carpet) to prevent scratches. Identify each part using the provided parts list in your separate assembly guide.
2. **Assemble the Metal Frame:** Begin by connecting the main metal frame components. Ensure the V-shaped supports are correctly oriented as shown in the assembly diagram.

3. **Attach Side Panels:** Secure the side wooden panels to the assembled metal frame using the provided fasteners.
