Naturehike Ultralight Camping Cot Instruction Manual

Model: XJC05-KA-2

1. PRODUCT OVERVIEW

The Naturehike Ultralight Camping Cot is designed for portability and comfort in outdoor environments. Constructed from aircraft-grade 7075 aluminum alloy and durable 300D Oxford fabric, it offers a stable and comfortable sleeping surface. Its lightweight and compact design makes it suitable for camping, hiking, mountaineering, and other outdoor activities.

- **Sturdy Construction:** Features 7075 aluminum alloy frame and 5 support legs, capable of supporting up to 330 lbs.
- **Comfortable Fabric:** Made from breathable and durable 300D Oxford fabric, designed to prevent moisture and cold.
- **Lightweight & Portable:** Weighs only 4.8 lbs and packs down to 18" x 6.3" for easy transport.
- **Easy Assembly:** Designed for quick setup and disassembly.

2. SAFETY INFORMATION

This cot can support a maximum weight of 330 pounds (150 kg). Always ensure that the weight limit is not exceeded to prevent accidents, damage to the cot, or injury. Do not jump on the cot. Use on a flat, stable surface whenever possible.

3. PACKAGE CONTENTS

Verify that all components are present before assembly:

- 1 x Naturehike Ultralight Camping Cot Fabric Sheet
- 2 x Long Support Poles (shock-corded)
- 5 x Support Leg Assemblies
- 1 x Carry Bag

4. SETUP INSTRUCTIONS

Follow these steps to assemble your Naturehike Ultralight Camping Cot:

1. Unpack all components from the carry bag. Lay the fabric sheet flat on a clean, level surface.

2. Identify the two long support poles. These are typically shock-corded for easy assembly.
3. Locate the two sleeves along the long edges of the cot fabric. Insert one long support pole into each sleeve. Ensure the poles are fully seated within the sleeves.
4. Identify the five support leg assemblies. Each assembly consists of two legs connected by a crossbar.
5. Attach the support leg assemblies:
 - Position the cot on its side.
 - Align the clips on a support leg assembly with the long support poles.
 - Press down firmly on the leg assembly to snap the clips onto both long support poles. This may require some force. It is often easier to attach one side first, then use your body weight or the ground to help flex and attach the second side.
 - Repeat this process for all five support leg assemblies, spacing them evenly along the cot.
6. Once all leg assemblies are securely attached, carefully flip the cot over so it rests on its legs.

5. OPERATING INSTRUCTIONS (USAGE)

Once assembled, the Naturehike Ultralight Camping Cot is ready for use. It provides an elevated sleeping surface, protecting you from cold and damp ground.

- **Sleeping:** Lie down gently on the cot. The 300D Oxford fabric is designed for comfort and breathability.
- **Placement:** Position the cot inside your tent or shelter on a relatively flat surface. The non-slip legs provide stability.
- **Storage Underneath:** The 5.9-inch height allows for storage of small items or shoes underneath, helping to keep your tent organized.

Easy to Assemble

Simply insert the 2 long support poles into the 2 sleeves of the bed sheet and lock the 5 support legs into place.

6. MAINTENANCE

Proper care will extend the life of your camping cot:

- **Cleaning:** Wipe the fabric and frame with a dry cloth after each use. For stubborn dirt, a damp cloth with mild soap can be used, followed by thorough drying.
- **Drying:** Ensure the cot is completely dry before packing it away to prevent mildew and corrosion.
- **Storage:** Store the disassembled cot in its carry bag in a cool, dry place, away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Difficulty attaching leg assemblies	Requires significant force; incorrect technique.	Ensure the cot is on its side. Attach one side of the leg assembly clip, then use body weight or leverage against the ground to snap the second side into place.
Cot feels unstable or wobbly	Leg assemblies not fully secured; uneven ground.	Verify all leg assemblies are firmly clipped onto both long support poles. Move the cot to a more level surface.
Poles do not fit into fabric sleeves	Sleeve opening blocked; incorrect end of sleeve.	Ensure you are inserting the pole into the open end of the sleeve. Some sleeves are stitched closed at one end. Clear any obstructions.

8. SPECIFICATIONS

Model Number	XJC05-KA-2
Assembled Dimensions	74.8 x 25.59 x 5.91 inches (190 x 65 x 15 cm)
Packed Size	18 x 6.3 inches (45.7 x 16 cm)
Product Weight	4.8 lbs (2.18 kg)
Weight Capacity	330 lbs (150 kg)
