LINSY HOME HT001J

LINSY HOME Round Fluted End Table

MODEL: HT001J

Introduction

Thank you for choosing the LINSY HOME Round Fluted End Table. This manual provides essential information for the safe assembly, operation, and maintenance of your new furniture. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Safety Information

To ensure safe use and prevent injury or damage, please observe the following:

- Always follow the assembly instructions carefully to avoid injury.
- Do not overload the table; it has a weight limit of 33 pounds.
- Keep the table away from heat sources.
- Do not place heavy objects on the sliding door to prevent damage or injury.
- Ensure all connections are securely fastened before use.

Package Contents

Before assembly, verify that all components are present. The package should include:

- End Table components (top, bottom, side panels, shelf, tambour door)
- Assembly Guide
- Installation Tool (screwdriver)
- Assorted hardware (screws, dowels, cam locks, anti-slip pads)

Refer to the assembly video for a visual overview of the parts.

Assembly Instructions

Follow these steps for proper assembly. A detailed video guide is also provided below.

Step 1: Assemble the Inner Structure

Connect the vertical side panels using the provided dowels and screws. Ensure they form a stable, open-ended box structure.

Step 2: Attach the Base

Secure the assembled inner structure to the round base using screws. Ensure the base is oriented correctly with pre-drilled holes aligning.

Step 3: Attach the Top Panel

Place the round top panel onto the assembled structure, aligning the holes. Secure it with screws, ensuring a tight fit.

Step 4: Install the Tambour Door

Carefully slide the fluted tambour door into the grooves on the top and bottom panels. Apply the provided wax cube to the grooves if the door feels stiff. Ensure the door slides smoothly to open and close the storage compartment.

Step 5: Insert the Adjustable Shelf

Insert the shelf supports into the desired height adjustment holes within the inner structure. Place the adjustable shelf onto these supports.

Operating Instructions

Sliding Tambour Door

The end table features a unique fluted tambour door that slides smoothly along grooves to reveal or conceal the storage compartment. To open, gently push the door along its track. To close, slide it back until the two halves meet in the center.

Adjustable Shelf

The internal shelf can be adjusted to different heights to accommodate various items. To adjust, remove any items from the shelf, then lift the shelf to detach it from its supports. Reinsert the shelf supports into the desired set of holes and place the shelf back on top.

Maintenance

To maintain the appearance and longevity of your LINSY HOME Round Fluted End Table:

- Wipe the surface with a dry, soft cloth regularly to remove dust.
- Avoid using abrasive cleaners or harsh chemicals, as these can damage the finish.
- If the tambour door becomes stiff, apply a small amount of wax (such as paraffin wax) to the grooves to improve sliding action.
- Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- Avoid prolonged exposure to direct sunlight or extreme temperature changes, which can cause warping or fading.

Troubleshooting

If you encounter any issues with your end table, consider the following common solutions:

- **Sliding Door Sticking:** Ensure the tracks are clean and free of debris. Apply a small amount of wax to the grooves as described in the Maintenance section.
- **Table Wobbles:** Check that all assembly screws are securely tightened. Ensure the table is placed on a flat, even surface. Adjust the anti-slip pads if necessary.
- **Missing Parts:** If any parts are missing or damaged upon arrival, please contact customer support immediately.
