4. SETUP

4.1 Initial Charging

Before first use, fully charge your headset using the provided USB-A to USB-C charging cable. Connect the USB-C end to the headset and the USB-A end to a compatible power source (e.g., computer USB port, USB wall adapter). Charging time is approximately 2.5 hours for a full charge.

4.2 Connecting the Removable Boom Mic

To use voice chat, insert the removable boom mic into the designated port on the left earcup until it clicks into place. Ensure it is firmly connected for optimal microphone performance.

4.3 Wireless Connectivity Options

The Crusher PLYR 720 offers two primary wireless connection methods:

1. 2.4GHz Wireless (Low Latency):

- Insert the USB-A Low Latency Transmitter into an available USB-A port on your PC, PlayStation console, or Nintendo Switch dock.
- Power on your headset. The headset should automatically pair with the transmitter. A solid LED indicator on both the headset and transmitter confirms a successful connection.

2. Bluetooth:

- Power on your headset.
- Press and hold the Bluetooth button for 3 seconds until the LED indicator flashes blue, indicating pairing mode.
- On your device (e.g., mobile phone, PC, Nintendo Switch), go to Bluetooth settings and select "Crusher PLYR 720" from the list of available devices.
- A solid blue LED on the headset confirms successful pairing.

The headset also supports simultaneous connection to both 2.4GHz wireless and Bluetooth, allowing you to mix audio from two different sources.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

Press and hold the Power button for 3 seconds to turn the headset on or off. An audible prompt will confirm the action.

5.2 Volume Control

Use the volume dial located on the left earcup to adjust the overall audio volume.

5.3 Crusher Bass Adjustment

The Crusher Bass dial on the right earcup allows you to adjust the intensity of the multi-sensory bass. Turn the dial up for more tactile bass feedback, or down to reduce it.

5.4 Microphone Usage

- **Mute/Unmute:** Flip the boom mic up to mute and down to unmute. An audible tone will indicate the mic status.
- **Microphone Monitoring:** Adjust the level of your own voice heard through the headset using the sidetone control (if available via app).

5.5 Customization with Skull-HQ App

Download the Skull-HQ desktop app (for PC) or the Skullcandy mobile app (for iOS/Android) to unlock advanced customization options:

- **Crusher EQ Customizer:** Adjust audio equalization settings to your preference.
- **THX Spatial Audio Controls:** Enable or disable spatial audio and head tracking.
- **Personalized Enhanced Sound Perception:** Tailor audio to your unique hearing profile.
- **RGB Headset Settings:** Customize lighting effects (if applicable).
- **Game/Chat Mix:** Adjust the balance between game audio and chat volume.
