

Yaheetech 593073 Beige

Yaheetech Wide Criss Cross Chair with Wheels User Manual

Model: 593073 Beige

1. PRODUCT OVERVIEW

The Yaheetech Wide Criss Cross Chair with Wheels is designed for comfort and versatility in various settings, including home offices, vanity areas, study corners, and guest bedrooms. Its armless design and wide seat allow for flexible sitting positions, such as cross-legged.

Figure 1: Yaheetech Wide Criss Cross Chair with Wheels in Beige.

Figure 2: The chair's wide seat accommodates cross-legged sitting.

Key Features:

- **Extra-Large Metal Base:** Five-star iron base with a 25" diameter for smooth 360-degree swivel and stability. Black powder-coated surface resists spills and scratches.
- **Wide Seat Cushion:** 26" wide seat cushion provides ample space for various sitting positions, including cross-legged.
- **Comfortable Seat:** Extra-wide, armless seat with a gentle upward curve and thick high-density foam cushion for extended comfort.
- **Adjustable Height:** Seat height can be adjusted from 19.3" to 23".
- **Tilt Function:** Lean back and pull the lever to activate the tilt function, relieving lumbar pressure.
- **Practical Armless Design:** Compact design allows the chair to slide easily beneath desks or tables.

2. SAFETY INFORMATION

Please read and understand all safety information before assembling or using the chair.

- **Do not exceed the maximum weight capacity of 300 pounds (136 kg).**
- Ensure all screws and bolts are securely tightened before use.
- Keep small parts away from children during assembly.

3. SETUP AND ASSEMBLY

The Yaheetech Criss Cross Chair is designed for quick and easy assembly, typically completed in three main steps.

Assembly Steps:

1. **Assemble the Base:** Insert the gas lift cylinder into the center hole of the five-star metal base. Ensure it is firmly seated.
2. **Attach Mechanism to Seat:** Secure the chair's mechanism (which includes the height adjustment lever and tilt function) to the underside of the seat cushion. Use the **shorter screws** for this step. Ensure all screws are tightened securely.
3. **Attach Backrest to Seat:** Connect the backrest to the seat cushion. Use the **longer screws** for this step, ensuring a snug fit.
4. **Place Chair on Base:** Carefully place the assembled seat and backrest onto the gas lift cylinder on the base. The chair should sit securely and be able to swivel.

Figure 3: Quick 3-Step Setup Diagram.

Note on Screws: Some users have noted that the assembly instructions may not clearly differentiate between screw lengths. Always use the shorter screws for attaching the mechanism to the seat and the longer screws for attaching the backrest to the seat.

4. OPERATING INSTRUCTIONS

The Yaheetech Criss Cross Chair offers several features for personalized comfort and functionality.

Adjusting Chair Height:

- To raise the seat, lift the adjustment lever while standing.
- To lower the seat, lift the adjustment lever while seated.
- The seat height can be adjusted between 19.3 inches and 23 inches.

Using the Tilt Function:

- To activate the tilt function, pull the adjustment lever outwards. The chair back will allow for a gentle rocking motion.
- To lock the chair in an upright position, push the adjustment lever inwards.

Swivel and Mobility:

- The chair features a 360-degree swivel for easy rotation.
- Equipped with smooth-gliding wheels for effortless movement across various floor surfaces.

5. MAINTENANCE

Proper care will extend the life and appearance of your Yaheetech chair.

- **Cleaning:** Spot clean the fabric as needed. Use a mild detergent and a damp cloth, then blot dry. Avoid harsh chemicals.
- **Regular Checks:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.
- **Wheel Care:** Keep the wheels free of debris (hair, dust, etc.) to ensure smooth movement.

6. TROUBLESHOOTING

This section provides general advice for common issues. No specific troubleshooting steps are provided by the manufacturer in the available data.

- **Chair feels wobbly:** Ensure all assembly screws are fully tightened. Check the connection between the gas lift and the base/seat.
- **Difficulty adjusting height:** Verify the adjustment lever is functioning correctly and the gas lift is properly inserted into the base.
- **Wheels not rolling smoothly:** Check for any hair or debris wrapped around the wheel axles and remove them.
