### 4.2 Battery Care

The 5500mAh battery provides extended usage. For optimal battery life, avoid fully discharging the device frequently. Utilize the 33W fast charging feature with the provided charger for efficient power replenishment. Avoid using unapproved chargers or cables.

### 4.3 Software Updates

Regularly check for and install system updates to ensure optimal performance, security, and access to the latest features of Android 14. Updates can be found in 'Settings > System > System update'.

## 5. Troubleshooting

If you encounter issues with your DOOGEE Blade GT Ultra, consider the following basic troubleshooting steps:

- **Device Unresponsive:** Press and hold the power button for 10-15 seconds to force a restart.
- **Network Connectivity Issues:** Check your SIM card installation, ensure mobile data is enabled, or toggle airplane mode on and off. For Wi-Fi, try restarting your router.
- **Camera Malfunction:** Clear the cache and data of the camera app in 'Settings > Apps'. If the issue persists, restart the device.
- **Battery Draining Quickly:** Reduce screen brightness, close unused apps, and check for background processes consuming excessive power in battery settings.

For more complex issues, refer to the 'Support' section for further assistance.
