Kreo IKARUS

Kreo IKARUS Wireless Gaming Mouse User Manual

Model: IKARUS

1. INTRODUCTION

This manual provides instructions for the setup, operation, maintenance, and troubleshooting of your Kreo IKARUS High Performance Wireless Gaming Mouse. Please read this manual thoroughly before using the device to ensure optimal performance and longevity.

2. PACKAGE CONTENTS

Verify that all items are present in the package:

- Kreo IKARUS Wireless Gaming Mouse
- USB Wireless Receiver
- USB-C Charging Cable
- User Manual (this document)

3. SETUP

3.1 Charging the Mouse

Before first use, fully charge the mouse. Connect the supplied USB-C charging cable to the mouse's charging port and the other end to a powered USB port on your computer or a USB wall adapter. The LED indicator on the mouse will show charging status and turn off or change color when fully charged.

3.2 Connecting the Wireless Receiver

1. Insert the USB wireless receiver into an available USB port on your computer.
2. Turn on the mouse using the power switch located on the bottom of the mouse.
3. The mouse should automatically connect to the receiver. If connection is not established, refer to the troubleshooting section.

3.3 Driver Installation (Optional)

The Kreo IKARUS mouse is plug-and-play for basic functionality. For advanced customization, including button remapping, macro creation, and detailed DPI settings, download the official Kreo software from the Kreo support website. Follow the on-screen

instructions for installation.

4. OPERATING THE MOUSE

4.1 Basic Functions

- **Left Click:** Primary action.
- **Right Click:** Secondary action/context menu.
- **Scroll Wheel:** Scroll up/down, middle click.
- **Side Buttons:** Default to forward/back in web browsers. Customizable via software.

4.2 DPI Adjustment

The Kreo IKARUS features a dedicated DPI button (location may vary, typically near the scroll wheel or on the bottom). Press this button to cycle through preset DPI levels. The LED indicator will change color to indicate the current DPI setting. For precise DPI customization up to 26,000 DPI, use the Kreo software.

4.3 Polling Rate

The mouse supports a 4k Polling Rate, providing rapid response times. This setting can typically be adjusted within the Kreo software to suit your preferences and system capabilities.

5. MAINTENANCE

5.1 Cleaning

To clean the mouse, use a soft, dry cloth. For stubborn dirt, lightly dampen the cloth with water or a mild cleaning solution. Avoid using harsh chemicals or abrasive materials. Do not allow liquids to enter the mouse's internal components.

5.2 Battery Care

- Avoid fully discharging the battery frequently.
- Store the mouse in a cool, dry place when not in use for extended periods.
- Use only the provided charging cable or a certified USB-C cable.

6. TROUBLESHOOTING

- **Mouse not responding:**

  - Ensure the mouse is turned on.
  - Check if the USB receiver is securely plugged into a working USB port.
  - Recharge the mouse battery.
  - Try a different USB port.

- **Erratic cursor movement:**

  - Clean the mouse sensor.
  - Ensure you are using the mouse on a suitable surface (e.g., a mouse pad).
  - Check for wireless interference from other devices.

- **DPI button not changing settings:**

  - Ensure the Kreo software is not overriding hardware DPI settings.
  - Restart the mouse and computer.
