## Vorago H2202

# Vorago Portable Air Conditioner User Manual

Model: H2202

## INTRODUCTION

---

The Vorago Portable Air Conditioner is a versatile 4-in-1 device designed to provide personal cooling, humidification, and fan functions, along with a soothing LED night light. This compact and rechargeable unit is ideal for use in various personal spaces such as offices, desks, homes, bedrooms, camping, and cars. Enjoy fresh, cool air powered by just water and ice.

## PRODUCT FEATURES

---

- **4-in-1 Multifunction Design:** Combines portable air conditioner, humidifier, fan, and LED night light. Includes an aromatherapy tray for essential oils.
- **Adjustable Speeds & Energy-Saving:** Offers 3 wind speeds (high, medium, low). Can be used as a standard fan or with water/ice for evaporative cooling. Designed for energy efficiency.
- **Large Capacity Water Tank:** Features a 450ml top-fill water tank for 6-8 hours of continuous cooling. Automatic mist shut-off when water runs out for safety.
- **7 Colorful LED Night Light:** Built-in LED light with 7 cycling colors or a fixed color option, creating a calming ambiance.
- **Quiet Operation & Built-in Timer:** Operates quietly for undisturbed sleep or work. Includes 2-hour or 4-hour timer options.
- **Portable & Rechargeable:** Powered by a 2200mAh rechargeable battery, providing 3-5 hours of use on a full charge. USB charging compatible with power banks, laptops, car chargers, or adapters. Equipped with a hand strap for easy portability.

## WHAT'S IN THE BOX

- 1 x Portable Air Cooler
- 1 x USB Cable
- 1 x User Manual

## SETUP

1. **Unpack the Unit:** Carefully remove the air cooler and all accessories from the packaging.
2. **Charge the Unit:** Connect the provided USB cable to the unit's charging port and plug the other end into a compatible USB power source (e.g., power bank, laptop, USB adapter). Ensure the unit is fully charged before first use for optimal battery life.

### 3. Fill the Water Tank:

- Remove the top cover of the unit.
- Fill the 450ml water tank with clean tap water. For enhanced cooling, add ice cubes to the water. Do not fill with only ice; a small amount of water is necessary for the cooling mechanism.
- Replace the top cover securely.

4. **Position the Unit:** Place the air cooler on a flat, stable surface in your desired personal space. Ensure there is adequate airflow around the unit.

1. **Power On/Off:** Press and hold the power button (●) on the top panel for a few seconds to turn the unit on or off.
2. **Adjust Fan Speed:** Short press the fan speed button (●●●) to cycle through 3 fan speeds: Low, Medium, and High.
3. **Activate Cooling/Humidifying:** Press the mist/cool button (●●) to activate the humidifying and cooling mist function. The unit will draw air over the ice water to produce a cooler, humidified breeze.
4. **Set Timer:** Press the timer button (●●●●) to set the automatic shut-off timer for 2 hours or 4 hours.
5. **Control LED Night Light:** Press the light button (●●●●●) to cycle through the 7 colorful LED light options or to fix it on a single color.

## MAINTENANCE

- **Cleaning the Water Tank:**
  - Regularly empty and clean the water tank to prevent mold and mildew buildup.
  - The detachable design allows for easy access. Use a soft cloth and mild detergent, then rinse thoroughly.
  - Ensure the tank is completely dry before refilling or storing.
- **Exterior Cleaning:** Wipe the exterior of the unit with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Air Filter Cleaning:** While not explicitly mentioned as replaceable, regularly check the air intake area for dust buildup and gently clean with a soft brush or vacuum cleaner.
- **Storage:** When not in use for extended periods, empty the water tank, clean the unit, and store it in a cool, dry place away from direct sunlight.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not turn on.	No power or low battery.	Ensure the USB cable is securely connected and the unit is charged or plugged into a power source.
No mist/cooling effect.	Water tank empty or mist function not activated.	Refill the water tank. Press the mist/cool button to activate the function. Ensure water is cold and ice is present for optimal cooling.
Weak airflow.	Fan speed set too low or air intake/outlet blocked.	Increase fan speed. Check for and clear any obstructions around the air intake (back) and outlet (front).
Unit making unusual noise.	Unit not on a stable surface or internal component issue.	Place the unit on a flat, stable surface. If noise persists, contact customer support.
Water leakage.	Water tank not properly sealed or overfilled.	Ensure the top cover is securely closed. Do not overfill the water tank beyond the MAX line.
