

BenQ G-TR

BenQ Zowie G-TR Large Esports Gaming Mouse Pad

Instruction Manual

1. PRODUCT OVERVIEW

The BenQ Zowie G-TR is a large esports gaming mouse pad designed for competitive gaming. It features a new cloth surface engineered for enhanced humidity resistance and durability, providing a consistent and controlling glide for precise mouse movements. The pad incorporates a softer, uniform high-density rubber base for stability and support, along with stitched edges and an anti-slip base to ensure it stays firmly in place during intense gaming sessions.

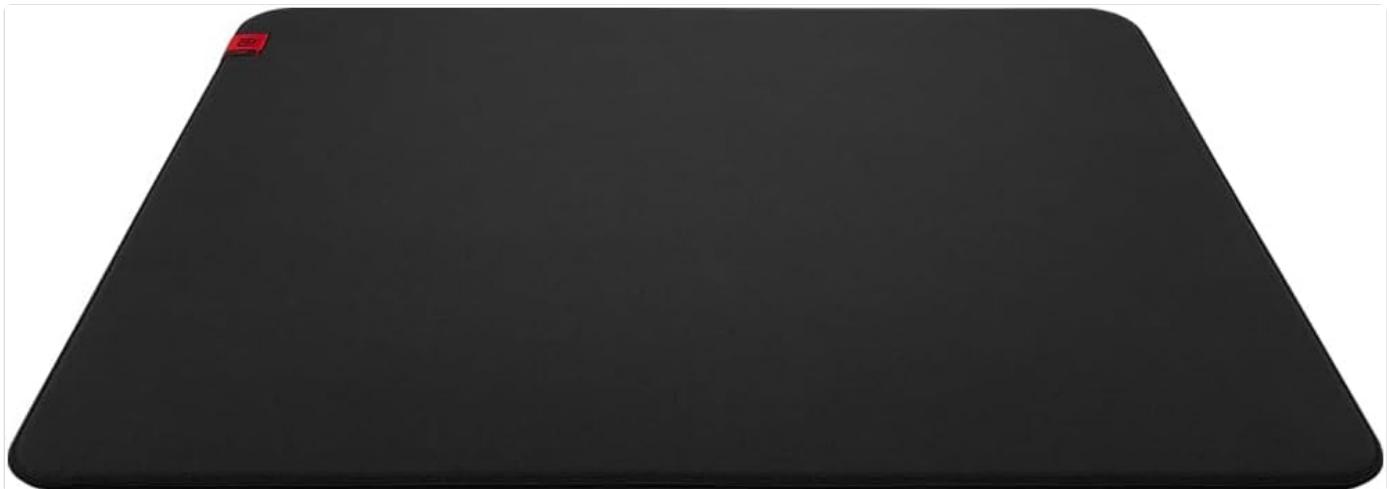

Image 1.1: Top-down view of the BenQ Zowie G-TR Large Esports Gaming Mouse Pad, showcasing its minimalist black design and rectangular shape with rounded corners.

2. KEY FEATURES

- New Cloth Surface:** Engineered for enhanced humidity resistance and improved durability, maintaining performance in various environmental conditions.
- Consistent and Controlling Glide:** Provides a balanced feel for both speed and control, allowing for precise mouse movements.
- Softer Uniform High-Density Rubber Base:** Delivers effortless stopping power with superior stability and support. The elasticity of the base ensures smooth transitions from static to motion.
- Stitched Edges:** Prevents fraying and increases the lifespan of the mouse pad.
- Anti-Slip Base:** Ensures the mouse pad remains securely in position on your desk, even during rapid mouse movements.
- Dimensions:** 470 x 390 mm ± 10 mm (18.5 x 15.3 inches ± 0.4 inch).

- **Thickness:** 3.5 mm.

Unique Stopping Power

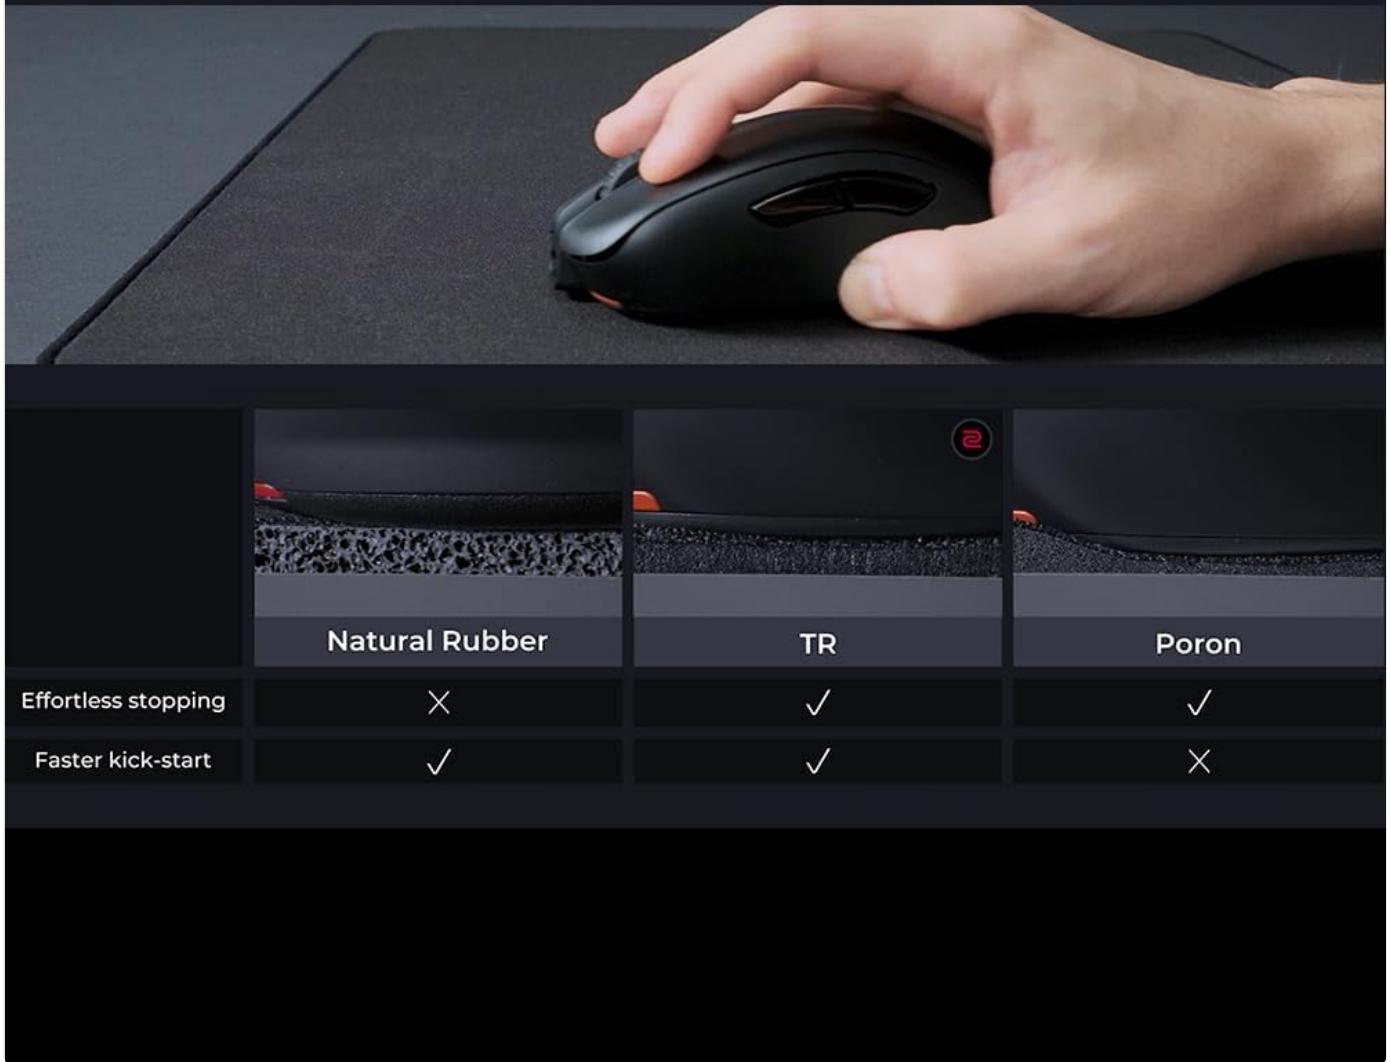

Image 2.1: Illustration demonstrating the 'Unique Stopping Power' of the G-TR mouse pad, comparing its performance in effortless stopping and faster kick-start against natural rubber and Poron bases.

Consistent and Controlling Glide

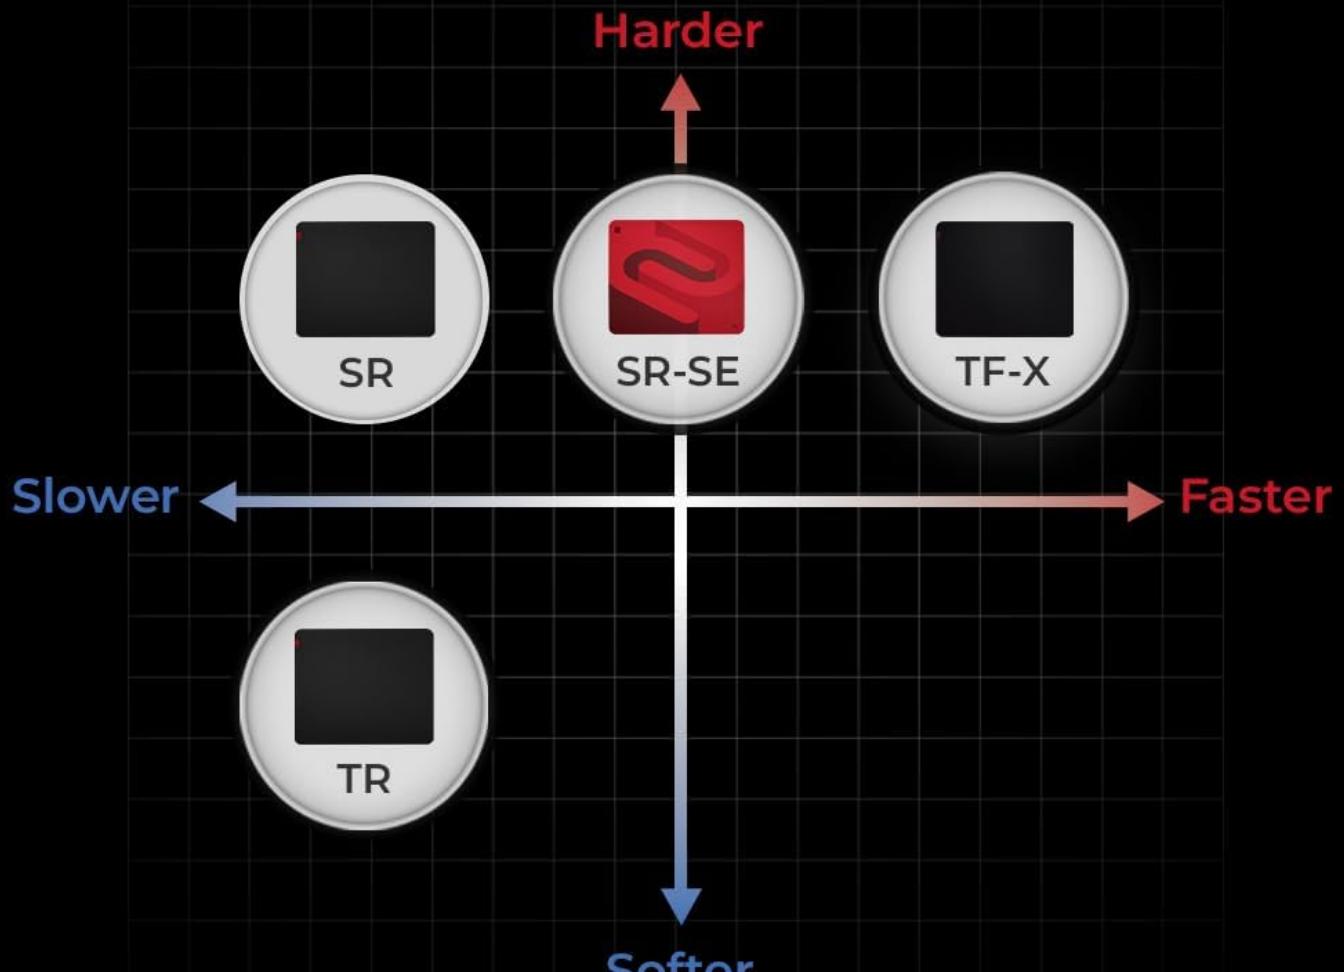

Image 2.2: A chart illustrating the glide characteristics of various BenQ Zowie mouse pads, positioning the G-TR (TR) as softer and slower compared to SR, SR-SE, and TF-X models, indicating its focus on control.

Enhanced Humidity Resistance

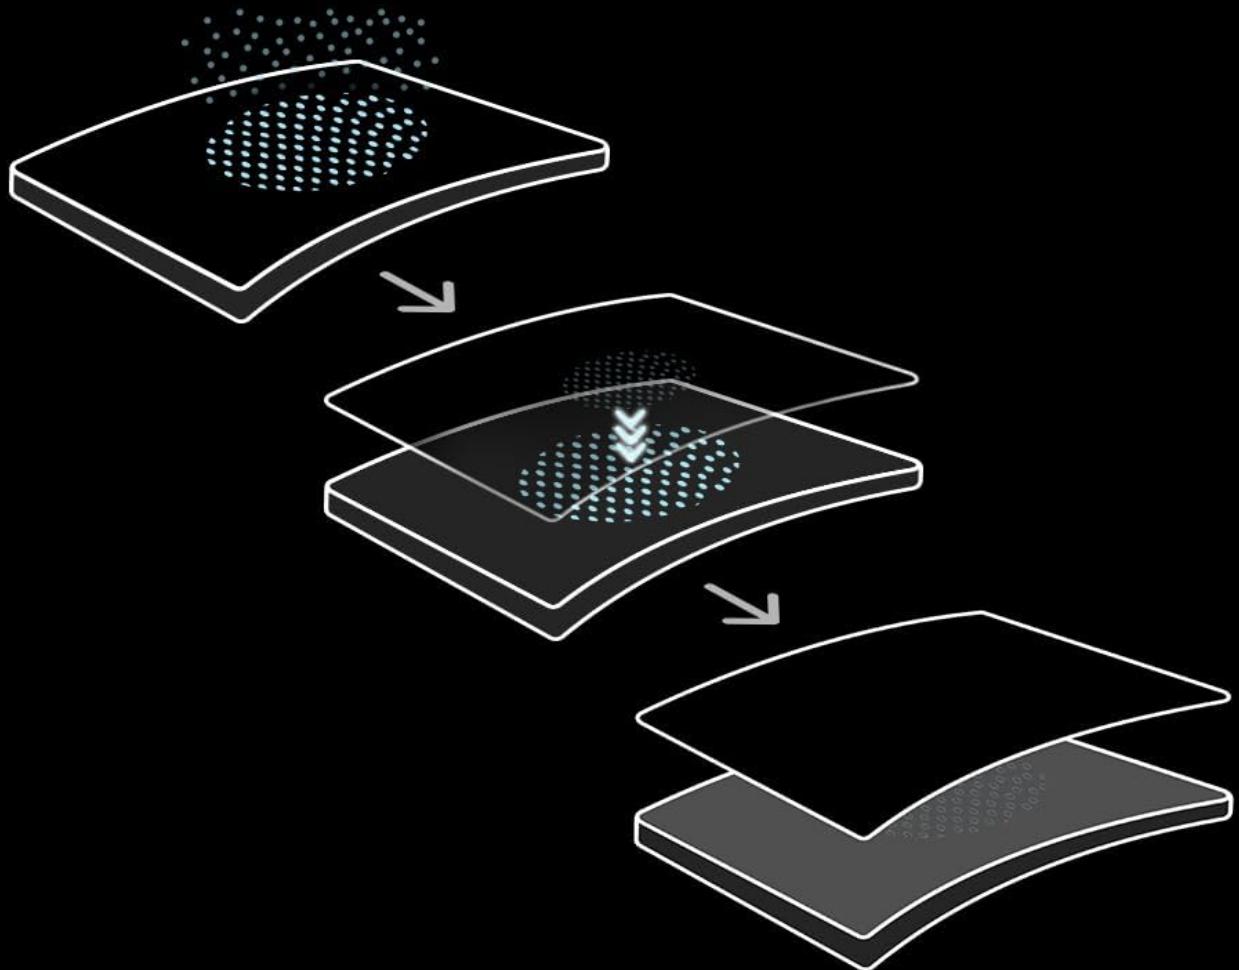

Image 2.3: Diagram illustrating the multi-layered construction of the G-TR mouse pad, highlighting its enhanced humidity resistance by showing moisture being repelled and not penetrating the surface.

New Anti-Slip Base

Image 2.4: Close-up view of the underside of the BenQ Zowie G-TR mouse pad, revealing the textured anti-slip rubber base designed to prevent movement during use.

Improved Durability

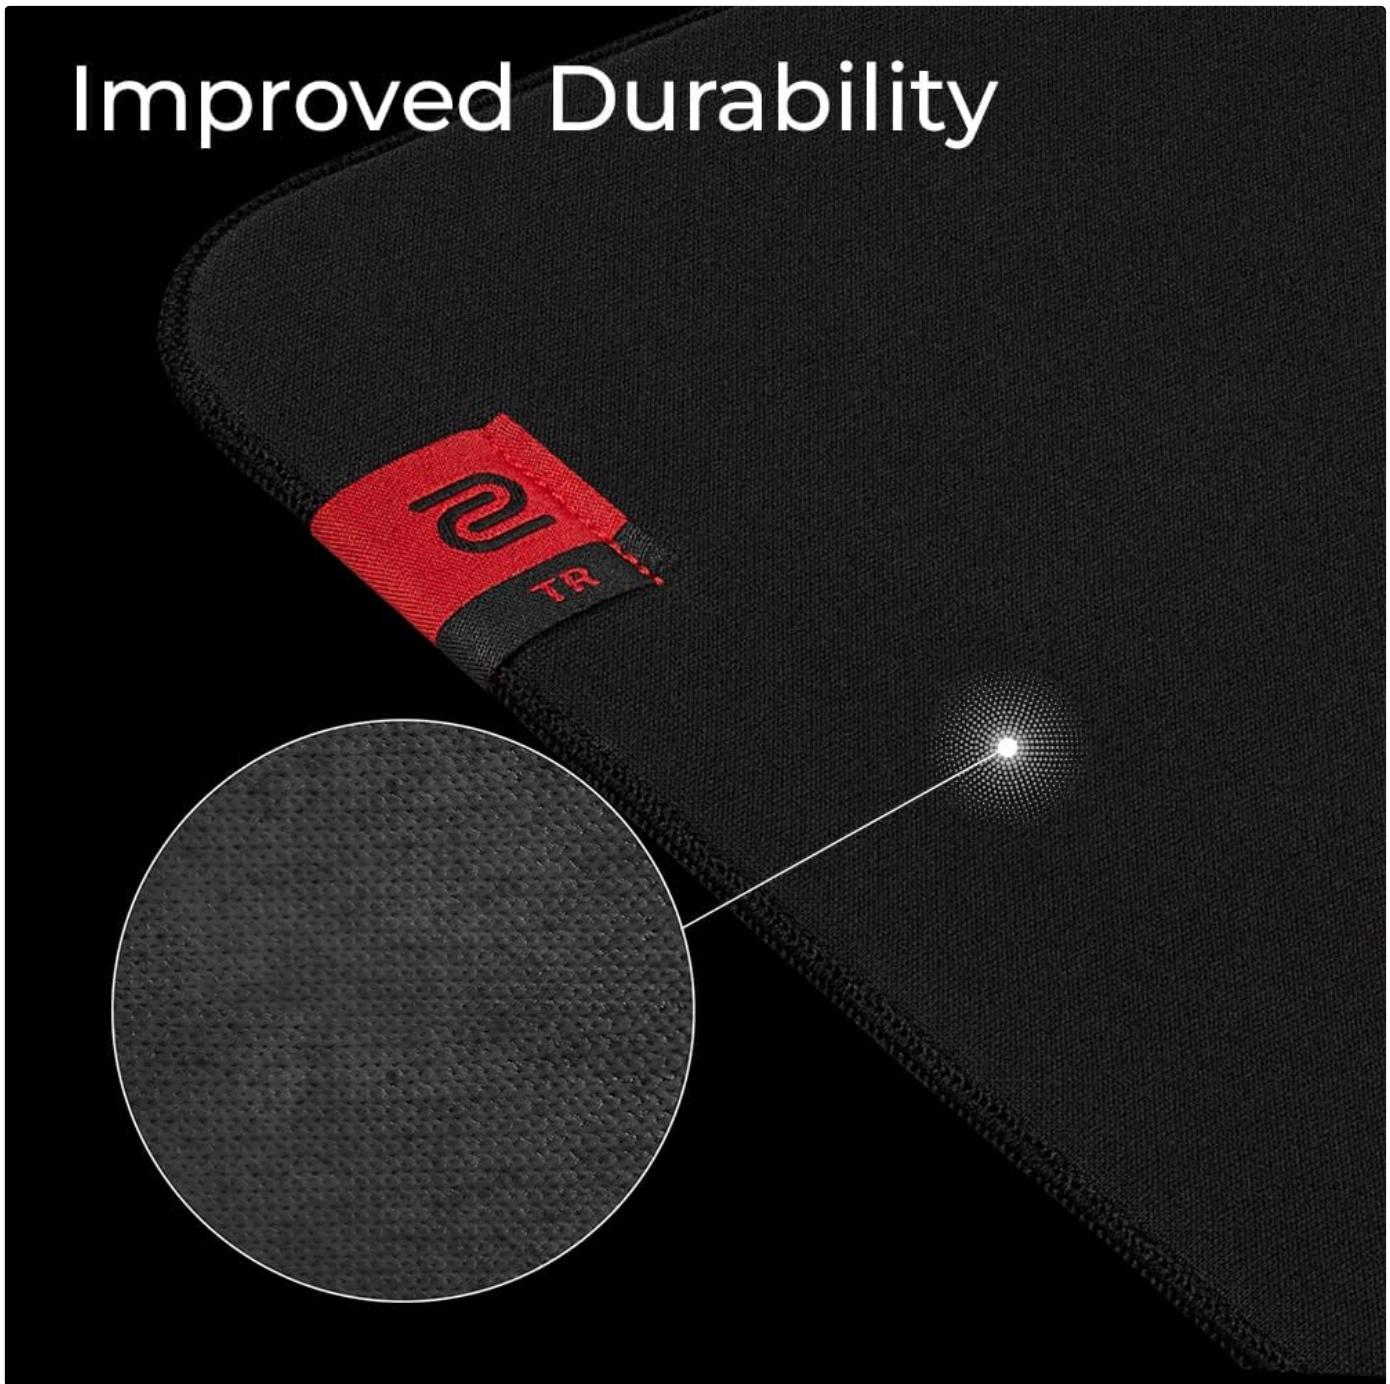

Image 2.5: Detail shot of the BenQ Zowie G-TR mouse pad's corner, showing the tightly stitched edges and a magnified inset of the fabric texture, emphasizing its improved durability.

3. SETUP

Setting up your BenQ Zowie G-TR mouse pad is a straightforward process. Follow these steps for optimal placement and immediate use:

1. **Unpack:** Carefully remove the mouse pad from its packaging.
2. **Unroll:** If the mouse pad was rolled, gently unroll it and lay it flat on your desired surface. Due to its high-density rubber base, it should flatten quickly.
3. **Surface Preparation:** Ensure the surface where you intend to place the mouse pad is clean, dry, and free of dust or debris. This will maximize the effectiveness of the anti-slip base.
4. **Placement:** Position the mouse pad on your desk in a location that provides ample space for your mouse movements and comfortable arm/wrist support.

5. **Ready for Use:** Once placed, the mouse pad is ready for immediate use with your gaming mouse.

4. OPERATING

The BenQ Zowie G-TR mouse pad is a passive accessory designed to enhance your mouse's performance. There are no active operating procedures required. Simply place your mouse on the pad and begin using it as normal.

- **Mouse Compatibility:** The G-TR mouse pad is compatible with all types of optical and laser gaming mice.
- **Optimal Performance:** For best results, ensure your mouse's sensor is clean and free of dust. The consistent surface of the G-TR pad is designed to provide accurate tracking.
- **Comfort:** The softer high-density rubber base provides a comfortable surface for your wrist and forearm during extended use.

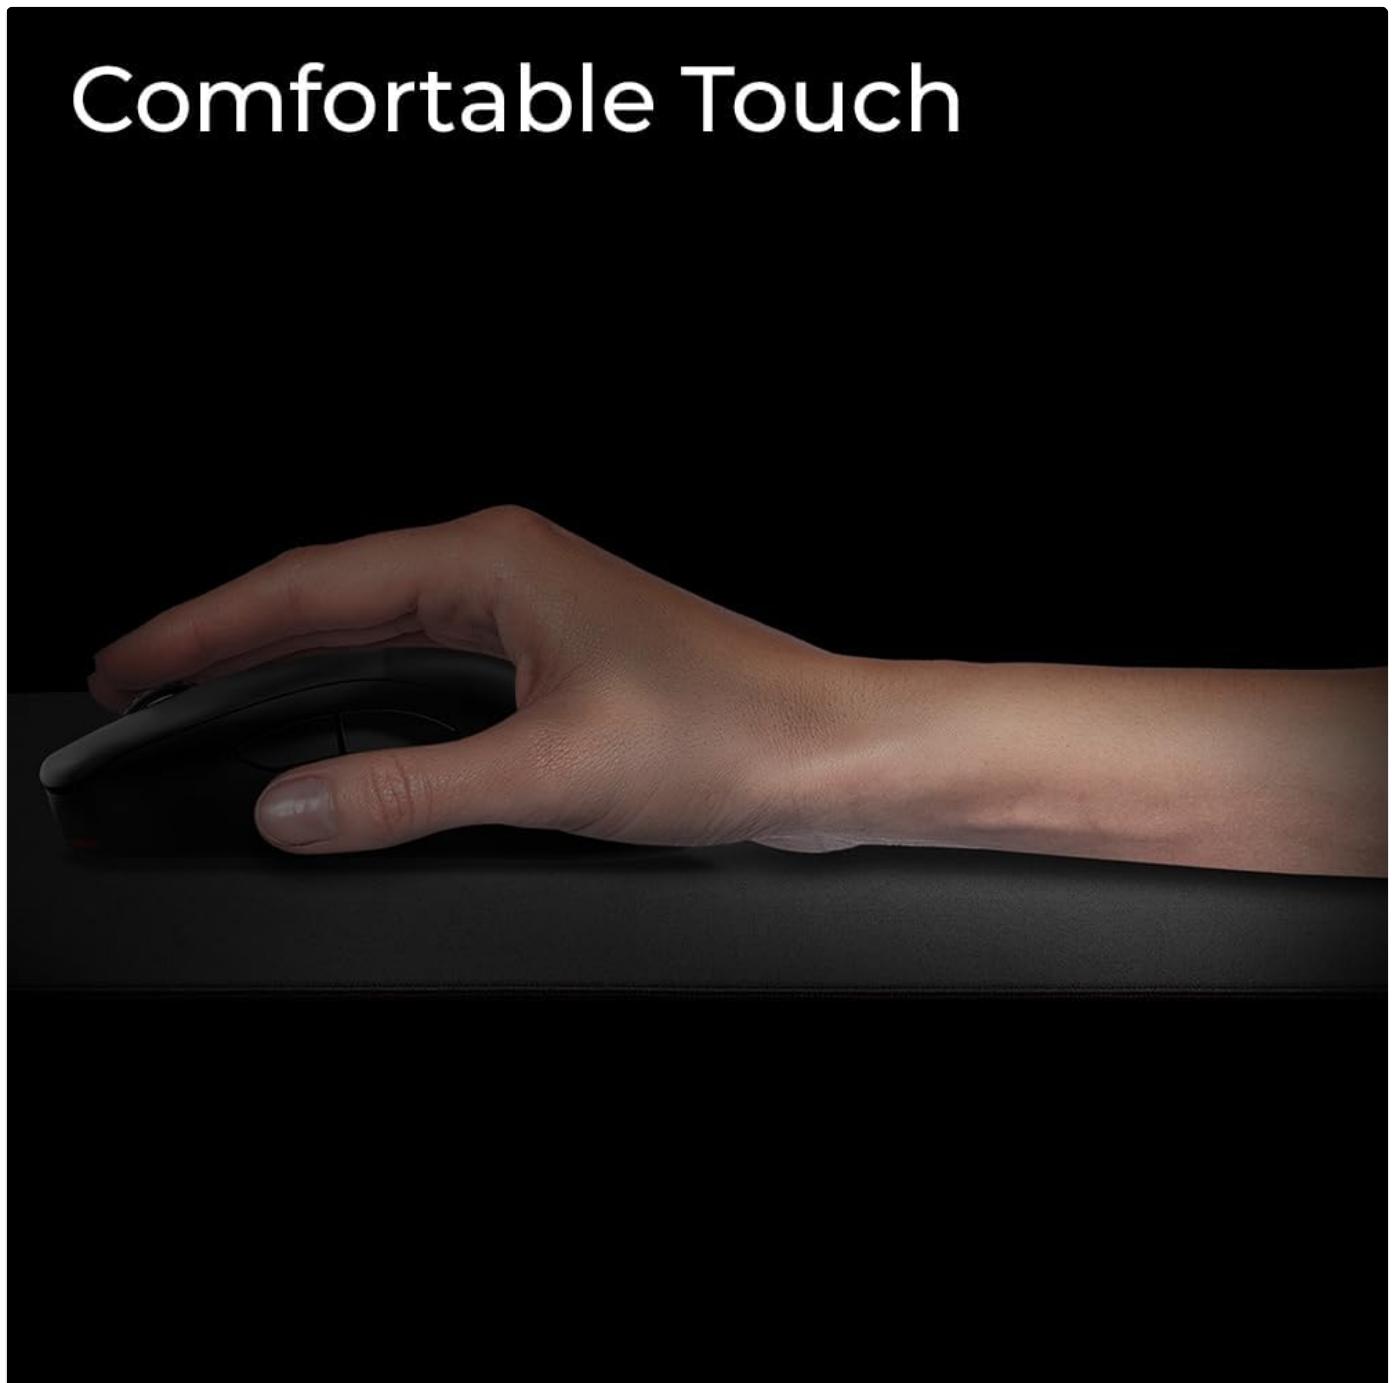

Image 4.1: A hand resting comfortably on the BenQ Zowie G-TR mouse pad, illustrating the 'Comfortable Touch' and ergonomic design for extended use.

High-Quality Craftsmanship

Image 4.2: A hand gently touching the surface of the BenQ Zowie G-TR mouse pad, highlighting its 'High-Quality Craftsmanship' and smooth texture.

5. MAINTENANCE

Proper maintenance will extend the life and maintain the performance of your BenQ Zowie G-TR mouse pad. Follow these guidelines for cleaning and care:

- **Regular Cleaning:** For light dust and debris, use a soft, dry cloth to wipe the surface of the mouse pad.
- **Spot Cleaning:** For spills or stains, use a slightly damp cloth with a small amount of mild soap (e.g., dish soap). Gently rub the affected area.
- **Drying:** After cleaning with a damp cloth, allow the mouse pad to air dry completely before use. Do not use direct heat sources like hair dryers, as this may damage the material.
- **Avoid Harsh Chemicals:** Do not use strong detergents, bleach, or abrasive cleaners, as these can damage the cloth surface and rubber base.

- **Storage:** When not in use for extended periods, store the mouse pad flat or gently rolled (surface side out) to prevent creases or damage to the base.

6. TROUBLESHOOTING

Most issues with a mouse pad are minor and easily resolved. Here are some common concerns and their solutions:

- **Mouse Tracking Issues:**
 - **Symptom:** Mouse cursor skips, lags, or moves erratically.
 - **Solution:** Clean the surface of the mouse pad and the optical/laser sensor of your mouse. Ensure there are no obstructions or debris on either surface.
- **Mouse Pad Sliding:**
 - **Symptom:** Mouse pad moves around on the desk during use.
 - **Solution:** Ensure the desk surface beneath the mouse pad is clean and dry. Dust or moisture can reduce the effectiveness of the anti-slip base.
- **Unpleasant Odor:**
 - **Symptom:** New mouse pad has a slight rubber smell.
 - **Solution:** This is normal for new rubber products. The odor will dissipate over a few days. Place the mouse pad in a well-ventilated area for 24-48 hours.
- **Edges Fraying:**
 - **Symptom:** Threads appearing along the edges of the mouse pad.
 - **Solution:** The G-TR features stitched edges to prevent fraying. If minor fraying occurs, carefully trim loose threads with scissors. Avoid pulling them.

7. SPECIFICATIONS

Attribute	Detail
Brand	BenQ
Model Number	G-TR
Material	Polyester (Surface), High-Density Rubber (Base)
Product Dimensions (L x W x H)	470 x 390 x 3.5 mm (18.5 x 15.3 x 0.1 inches)
Item Weight	1.25 pounds
Special Feature	Non-slip base, Stitched Edges, Humidity Resistance
Recommended Use	Gaming
Date First Available	February 7, 2025

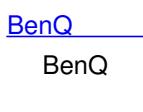

8. WARRANTY AND SUPPORT

For warranty information, technical support, or any product-related inquiries, please refer to the official BenQ Zowie website or contact the authorized seller from whom you purchased the product. Keep your proof of purchase for warranty claims.

- **Manufacturer:** BenQ
- **Seller:** BenQ INFTY Lab (as per Amazon listing)
- **Official BenQ Zowie Website:** For the most up-to-date support resources, FAQs, and contact information, please visit the official BenQ Zowie support page.
