## SETUP

### 1. Initial Inspection

Upon unboxing, inspect the thermometer for any visible damage. Ensure the folding probe moves smoothly and the display is clear.

### 2. Charging the Battery

The Stelo thermometer features a rechargeable lithium-ion battery. Connect the provided USB-C cable to the charging port on the device and to a compatible USB power source. The battery indicator on the display will show charging status. A full charge ensures hours of uninterrupted use.

### 3. Powering On/Off

To power on the thermometer, simply unfold the stainless steel probe. The display will illuminate. To power off, fold the probe back into the body of the thermometer. The device also features an auto-off function to conserve battery life after a period of inactivity.

### 4. Unit Selection (°F/°C)

To switch between Fahrenheit (°F) and Celsius (°C), locate the unit selection button, typically on the side or

back of the device. Press this button to toggle between the two measurement units.

## OPERATING INSTRUCTIONS

---

### 1. Taking a Temperature Reading

1. Unfold the probe to power on the device.
2. Carefully insert the 1.6mm step-down tip of the probe into the thickest part of the food, avoiding bone or gristle.
3. The temperature reading will appear on the large, backlit LCD screen in under a second.

### **3. Hold Function**

Press the 'Hold' button (if available, or a touch-sensitive button as described in product features) to lock the current temperature reading on the display. This is useful when reading temperatures in hard-to-reach areas or when you need to remove the probe from the food to view the reading.

### **4. Rotating Display**

The display automatically rotates for effortless left or right-handed operation, ensuring clear readability from any angle.

### **FOLDABLE PROBE:**

Can be used at any angle between 45° and 180°.

### **RECHARGEABLE BATTERY:**

Rechargeable lithium-ion battery.

### **WATERPROOF:**

With an impressive IPX7 rating.

### **ULTRA-FAST READING:**

Temperature reading in under one second.

### **ROTATING DISPLAY:**

Making it perfect for both left and right-handed users.

### **LARGE BACKLIT DISPLAY:**

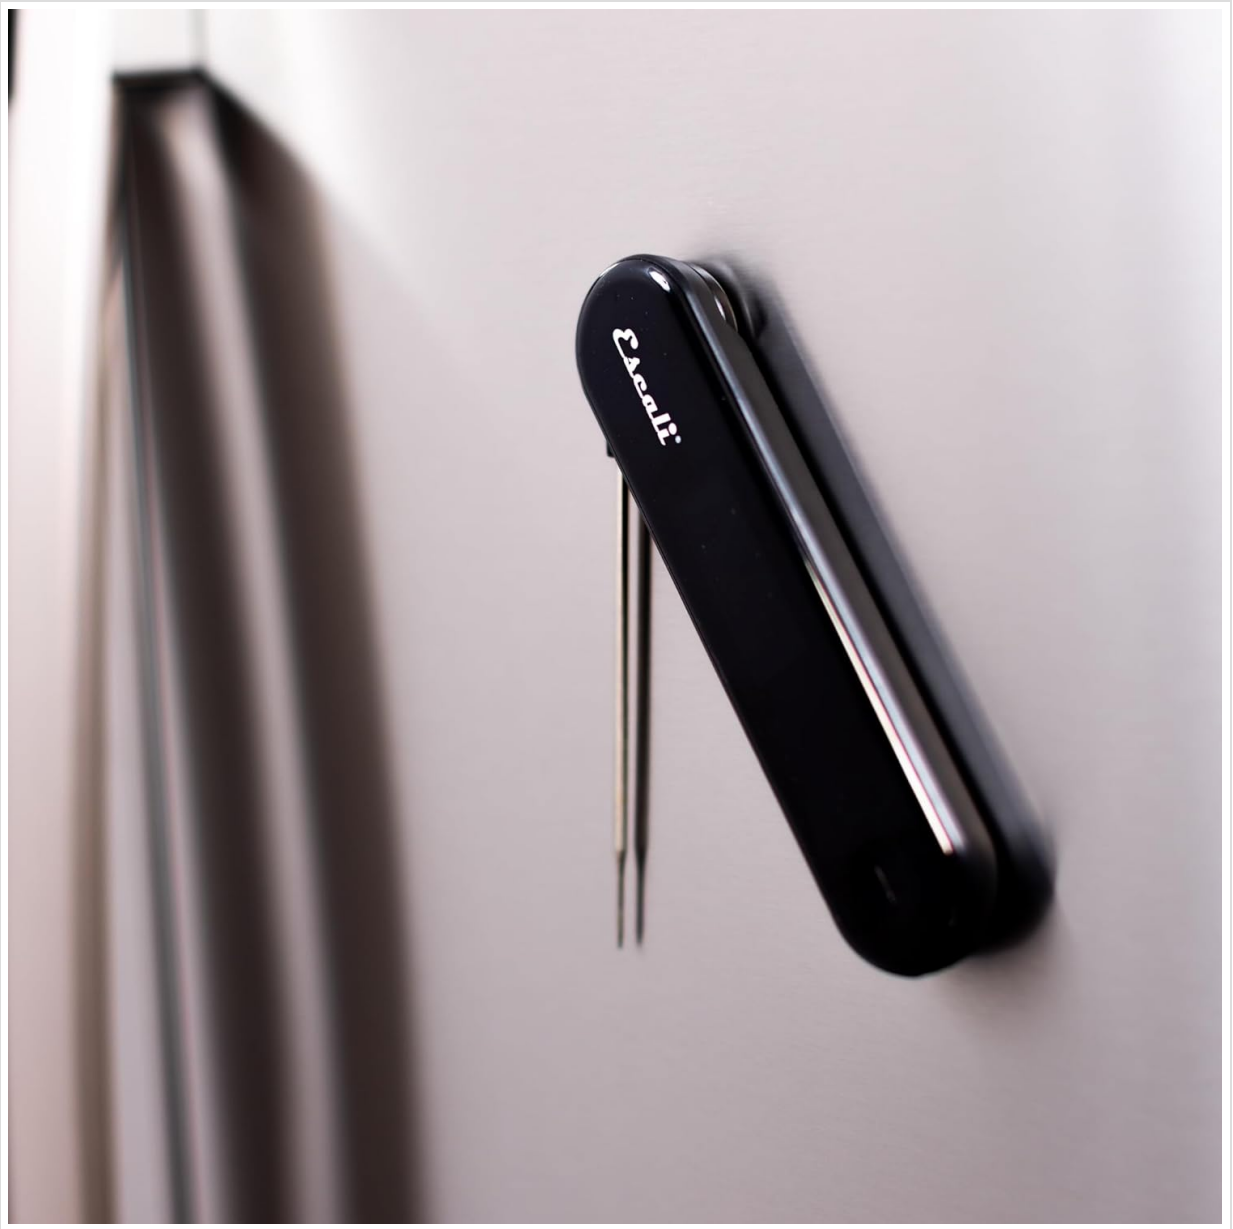

Easy to read numbers.

## **MAINTENANCE**

### **1. Cleaning Instructions**

The Escali Stelo is IPX7 waterproof, allowing for easy cleaning. Rinse the probe and body under running water with mild soap. Avoid abrasive cleaners or scrubbing pads that could damage the surface or display. Ensure the charging port cover (if applicable) is securely closed before washing.

## **2. Battery Care**

To prolong battery life, avoid completely draining the battery before recharging. Recharge the device when the battery indicator shows low power. Unplug the charger once the battery is full.

## **3. Storage**

Fold the probe back into the thermometer body for compact and safe storage. The device features a hidden magnetic back, allowing it to be conveniently stored on metal surfaces like refrigerators or grill sides.

## TROUBLESHOOTING

- **Display Not Working:** Ensure the probe is fully unfolded. Check battery level and recharge if necessary.
- **Inaccurate Readings:** Ensure the probe tip is inserted into the thickest part of the food and not touching bone or gristle. Allow a moment for the reading to stabilize.
- **Battery Not Charging:** Verify the USB-C cable is securely connected to both the thermometer and the power source. Try a different cable or power adapter.
- **Water Damage:** Although waterproof, ensure the charging port cover is sealed during washing. If water enters, allow the device to dry completely before attempting to use or charge.
