OPERATING AND USAGE

The GAOMON 8 Cube Storage Organizer Bookcase is designed for versatile use in various rooms. It can serve multiple functions:

- **Bookshelf:** Organize and display books, magazines, and other reading materials within its eight spacious cube compartments.
- **Console Table:** Place it in an entryway or behind a sofa to hold decorative items, lamps, or everyday essentials.
- **TV Stand:** Its low horizontal design and sturdy construction make it suitable for supporting televisions and media devices.
- **Display Unit:** Showcase collectibles, photo frames, plants, and other decorative pieces.

Weight Capacity: The bookcase is designed to support a maximum weight of 200 pounds (90.7 kg) evenly distributed across its shelves. Avoid placing excessively heavy items on a single shelf or concentrating weight in one area to maintain stability and prevent damage.

Safety: The low horizontal design contributes to secure usage, especially in households with children. For added safety, consider securing the unit to a wall using anti-tip hardware (if included or purchased separately), especially if heavy items are stored on upper shelves or if the unit is placed in an area with high traffic.
