nania Topo

Nania Topo Booster Car Seat Instruction Manual

Model: Topo | Brand: nania

Introduction

This instruction manual provides essential information for the safe and proper use, installation, and maintenance of your nania Topo Booster Car Seat. This booster seat is designed for children in Group 2/3, weighing between 15 and 36 kg (approximately 4 to 12 years old). It is approved to the ECE R44/04 standard, ensuring it meets European safety requirements. Please read this manual thoroughly before using the car seat and keep it for future reference.

Safety Information

- **Weight and Age Group:** This booster seat is suitable for children weighing 15-36 kg (Group 2/3).
- **Approval:** The nania Topo Booster Car Seat is approved according to the European safety standard ECE R44/04.
- **Installation:** This booster seat must be installed in a forward-facing position using the vehicle's 3-point safety belt. It is designed for use on the rear seat of the vehicle.
- **Child Restraint:** The child is secured directly by the vehicle's 3-point safety belt. Ensure the lap belt is low across the child's hips and the shoulder belt crosses the shoulder and chest, not the neck or face.
- **Vehicle Compatibility:** Always check your vehicle's owner's manual to ensure it is compatible with universal child restraint systems.
- **Damage:** Do not use the car seat if it has been involved in an accident, even a minor one, as unseen damage may compromise its safety.

Product Overview

The nania Topo Booster Car Seat is a lightweight and compact solution for older children. It features small, comfortable armrests designed to enhance the child's comfort during travel. Its low-profile design makes it ideal for vehicles with limited space.

A black nania Topo booster car seat, designed for children in Group 2/3, featuring a compact and ergonomic design.

Setup and Installation

Follow these steps to correctly install the nania Topo Booster Car Seat in your vehicle:

1. **Position the Booster Seat:** Place the booster seat firmly on the vehicle's rear seat. Ensure it is stable and does not wobble.
2. **Seat the Child:** Have the child sit on the booster seat, ensuring their back is flat against the vehicle's seat back.
3. **Route the Seat Belt:** Pull the vehicle's 3-point safety belt around the child and the booster seat.
4. **Secure the Lap Belt:** Ensure the lap portion of the belt is positioned low across the child's hips, touching the thighs. It should not be on the abdomen.
5. **Secure the Shoulder Belt:** Guide the shoulder portion of the belt across the child's shoulder and chest. It should rest comfortably on the shoulder, away from the neck, and across the center of the chest.

6. **Buckle and Tighten:** Insert the seat belt buckle into the vehicle's receiver until it clicks. Pull the shoulder belt upwards to remove any slack, ensuring the belt is snug against the child and the booster seat.

A child seated in the nania Topo booster car seat, demonstrating how the vehicle's 3-point safety belt is used to secure both the child and the seat. The image confirms the seat is suitable for children weighing 15 to 36 kg and is used in a forward-facing position.

Always double-check the installation before each journey to ensure the booster seat and child are securely fastened.

Operating Instructions

Once installed, the operation of the booster seat primarily involves correctly securing the child with the vehicle's 3-point safety belt. Ensure the belt is not twisted and lies flat across the child's body. The belt should be snug but not uncomfortably tight. Regularly check that the child has not unbuckled themselves or loosened the belt during the journey.

Maintenance

Proper maintenance will extend the life of your booster seat and ensure its continued safety.

- **Cleaning the Cover:** The booster seat cover is removable and hand-washable. Please refer to the care label on the cover for specific washing instructions, typically at 30°C. Do not machine wash, tumble dry, iron, or bleach the cover.
- **Cleaning the Plastic Parts:** The plastic parts of the booster seat can be cleaned with a damp cloth and mild soap. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, store the booster seat in a cool, dry place away from direct sunlight.

Troubleshooting

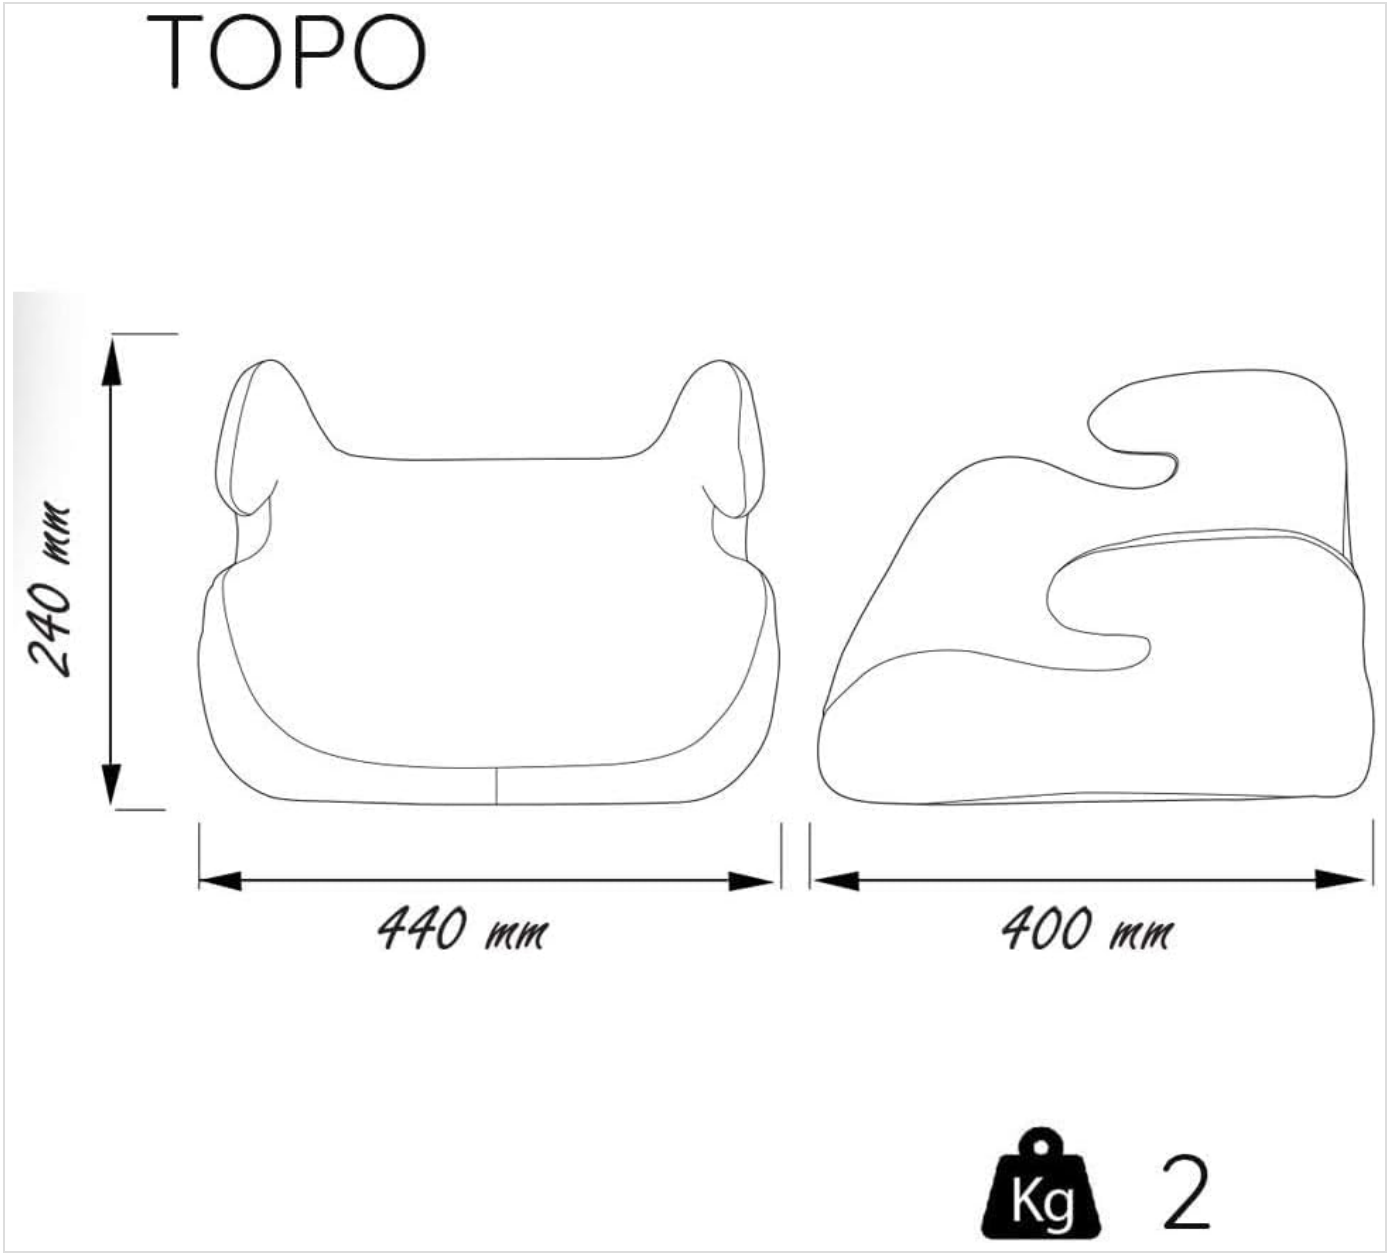

If you encounter any issues with your nania Topo Booster Car Seat, consider the following common solutions:

- **Booster Seat Wobbles:** Ensure the booster seat is placed firmly on the vehicle's seat. Re-tighten the vehicle's safety belt after the child is seated.
- **Seat Belt Too Loose:** After buckling, pull the shoulder portion of the belt upwards to remove any slack. Ensure the belt is not twisted.
- **Seat Belt Rubs Neck:** Adjust the child's seating position slightly or ensure the shoulder belt is routed correctly across the shoulder, not the neck. For some children, a belt positioning clip (not included) might be necessary, but always ensure it does not compromise safety.
- **Difficulty Removing Cover:** Refer to the diagrams or instructions provided with the seat for specific steps on detaching the cover.

If problems persist, please contact nania customer support.

Specifications

Property	Value
Product Dimensions (L x W x H)	44 x 40 x 24 cm
Item Weight	1 kg
