Normcore Manual Coffee Grinder V2 Instruction Manual

Model: 48.6mm Titanium Ghost Burr

INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your Normcore Manual Coffee Grinder V2. Designed for a fresh and rich aroma, this grinder features a 48.6mm Titanium Ghost Burr for uniform grinding and enhanced flavor. Please read this manual thoroughly before operating the device.

PRODUCT COMPONENTS

The Normcore Manual Coffee Grinder V2 package includes the following items:

- 1 x Manual Burr Coffee Grinder (with 48.6mm Titanium Ghost Burr)
- 1 x EVA Carrying Case
- 1 x Cleaning Brush
- 1 x User Manual (this document)

Key features of the grinder include:

- **Stable Grinding:** Centralized steel shaft and ball bearings for smooth and consistent grinding.
- **Titanium Burr:** Professional-grade titanium burr for enhanced flavor.
- **Stepped Adjustment:** 24 clicks per rotation with a 0.5 mm thread pitch for precise grind settings.
- **Portable Design:** Compact and robust design, ideal for travel.
- **Material:** Aluminum Alloy, 304 Stainless-steel, Wood, Polycarbonate.

SETUP

1. **Unpack:** Carefully remove all components from the EVA carrying case.
2. **Initial Cleaning:** Before first use, it is recommended to clean the burrs and internal components with the provided cleaning

brush to remove any manufacturing residue.

3. **Assemble:** Ensure all parts are correctly assembled. The handle attaches to the top shaft, and the collection cup screws onto the bottom of the grinder body.

OPERATING INSTRUCTIONS

1. Adjusting Grind Size

The Normcore Manual Coffee Grinder V2 features a stepped adjustment mechanism with 24 clicks per rotation, allowing for precise control over grind size. To adjust:

1. Unscrew the collection cup from the bottom of the grinder.
2. Locate the grind adjustment dial at the bottom of the burr assembly.
3. Turn the dial clockwise for a finer grind and counter-clockwise for a coarser grind. Each click represents a specific step.
4. Refer to the table below for recommended starting grind settings:

Brew Method	Grind Size	Approximate Clicks (from finest)
Turkish Coffee	Extra Fine	1-3 clicks
Espresso	Fine	4-8 clicks
Pour Over / Filter Coffee	Medium	9-15 clicks
French Press / Cold Brew	Coarse	16-24 clicks

2. Grinding Coffee Beans

1. **Load Beans:** Open the top lid and pour your desired amount of whole coffee beans into the hopper. The grinder has a powder capacity of approximately 25g, depending on bean type.
2. **Attach Handle:** Securely attach the handle to the top shaft.
3. **Grind:** Hold the grinder firmly with one hand and turn the handle clockwise with the other. Continue grinding until all beans have passed through the burrs and collected in the bottom cup.
4. **Collect Grounds:** Unscrew the collection cup to retrieve your freshly ground coffee.

MAINTENANCE

Cleaning

Regular cleaning ensures optimal performance and extends the lifespan of your grinder. The components can be easily disassembled and reassembled for thorough cleaning.

1. **Disassembly:** Unscrew the collection cup, remove the handle, and carefully disassemble the burr assembly.
2. **Brush Cleaning:** Use the provided cleaning brush to remove any coffee grounds or dust from the burrs, shaft, and internal components.
3. **Wipe Down:** Wipe the exterior of the grinder with a soft, damp cloth. Do not immerse the entire grinder in water.
4. **Reassembly:** Ensure all parts are dry before reassembling the grinder.

Note: Avoid using harsh chemicals or abrasive materials for cleaning, as these can damage the grinder's finish or components.

TROUBLESHOOTING

- **Grinder feels stiff or difficult to turn:**

- Check for foreign objects (e.g., small stones) among the coffee beans.
- Ensure the burrs are clean and free of old coffee residue.
- If grinding very fine, the resistance will naturally be higher.

- **Inconsistent grind:**

- Verify that the grind adjustment dial is securely set and has not shifted during grinding.
- Ensure the burr assembly is properly tightened and aligned.
- Clean the burrs thoroughly, as accumulated oils can affect consistency.

- **Grinder not producing grounds:**

- Check if the hopper is empty.
- Ensure the burrs are not completely jammed. Disassemble and clean if necessary.

SPECIFICATIONS

Feature	Detail
Brand	Normcore
Model Number	48.6mm Titanium Ghost Burr
Color	Black
Material	Aluminum, Silicone, Stainless Steel
Item Weight	1.2 Pounds (approx. 552g)
Dimensions	15cm (Height), Ø 5.7cm (Diameter)
