## Roinvou Roinvou 4+64G Android Carplay Stereo

# Roinvou 4+64G Car Radio User Manual

Model: Roinvou 4+64G Android Carplay Stereo

Brand: Roinvou

## 1. Introduction

This manual provides comprehensive instructions for the installation, operation, and maintenance of your Roinvou 4+64G Car Radio. This unit is designed specifically for Nissan Versa Note models from 2014 to 2016, offering advanced features such as wireless CarPlay, Android Auto, GPS navigation, and a high-resolution touch screen. Before installation and use, please read this manual thoroughly to ensure proper operation and to maximize your experience with the device.

## 2. Product Overview and Compatibility

The Roinvou 4+64G Car Radio is an upgrade stereo system featuring a 9-inch 1280*720 HD capacitive touch screen. It integrates seamlessly with your vehicle's existing systems, providing enhanced connectivity and entertainment options.

### 2.1 Vehicle Compatibility

This car radio stereo is compatible with the following vehicle models:

- Nissan Versa Note: 2014, 2015, 2016

It is crucial to verify compatibility by comparing your car's dashboard with the provided images. If unsure, consult with the seller or a professional installer.

Figure 2.1: Compatibility check for Nissan Versa Note dashboards. The top image shows a compatible dashboard with the new unit installed, while the bottom images show incompatible dashboard configurations marked with an 'X'.

## 3. What's in the Box

Please check the contents of the package upon receipt to ensure all components are present:

- Nissan Versa Note Car Stereo Unit
- Power Cable
- Original USB Cable
- USB/AUX Adapter Cable
- Canbus Decoder (if applicable for your vehicle)
- RCA Harness
- GPS Antenna
- AHD Backup Camera
- External Microphone
- Rear Camera Input Cable

- Dual USB Cable
- Installation Tool & Accessories

Figure 3.1: Main components included in the package, illustrating the head unit, backup camera, external microphone, and connectivity features.

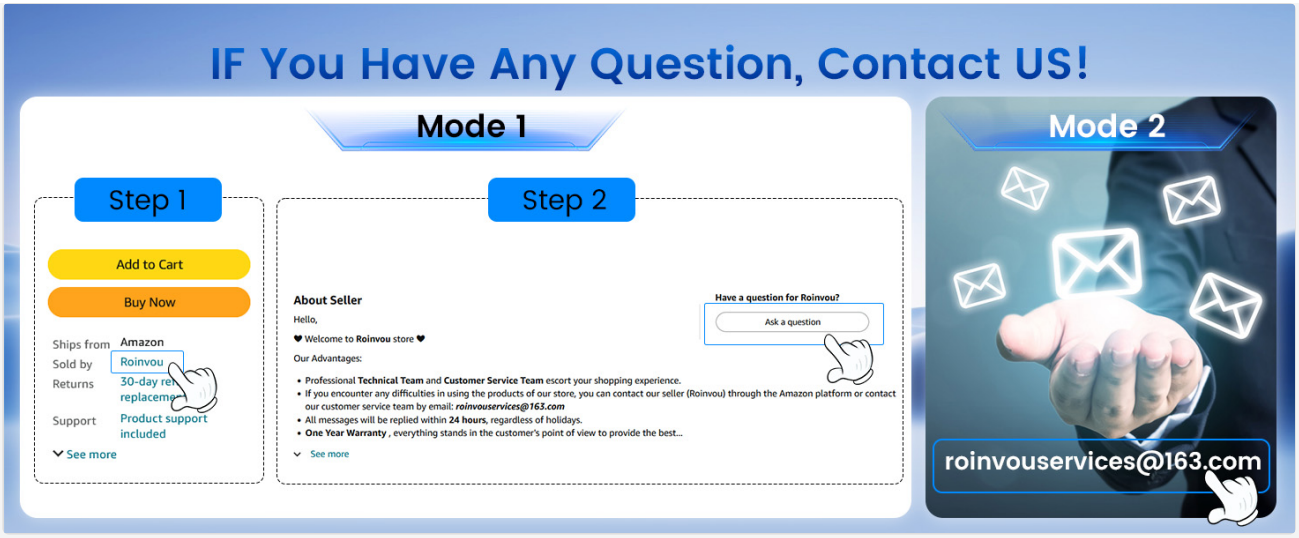

Figure 3.2: Detailed view of the connection reference and a comprehensive list of all included package components.

## 4. Setup and Installation

Installation of the Roinvou car radio requires technical knowledge and careful handling of vehicle electronics. It is highly recommended to seek professional installation to avoid damage to the unit or your vehicle.

### 4.1 Pre-Installation Checks

- Ensure the vehicle's ignition is off and the battery is disconnected before starting installation.
- Verify all included components against the "What's in the Box" section.
- Confirm the compatibility of the unit with your specific Nissan Versa Note model and dashboard configuration.

### 4.2 Wiring Connections

Refer to the wiring diagrams provided with your unit and the general connection reference below. Ensure all connections are secure and correctly matched.

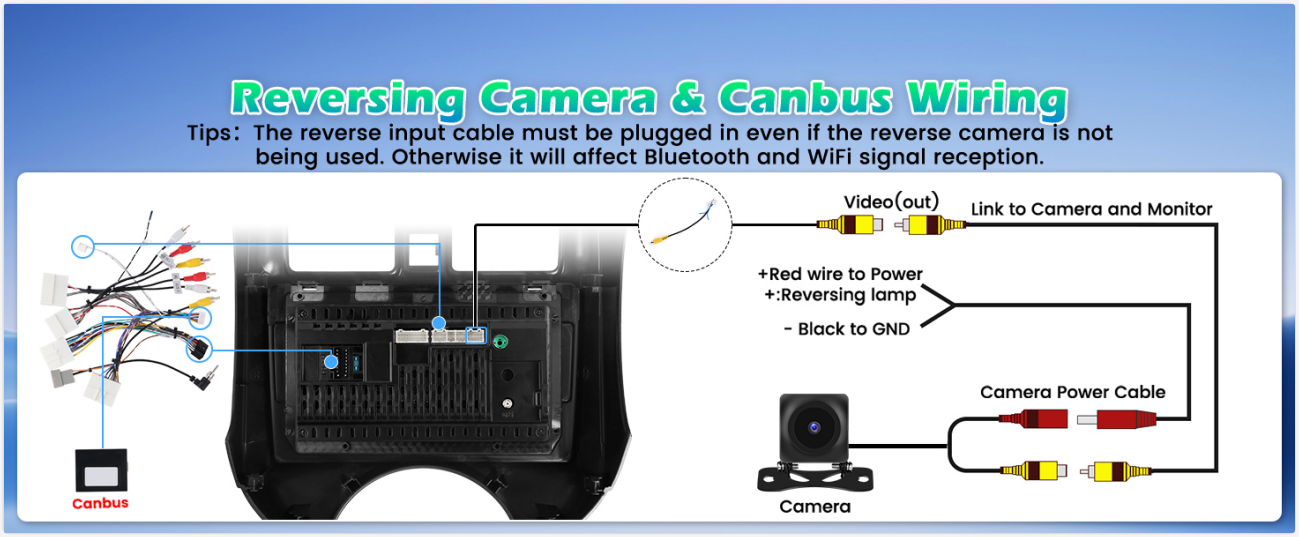

Figure 4.1: Wiring diagram for the reversing camera and Canbus. Note: The reverse input cable must be plugged in even if the reverse camera is not being used, as it affects Bluetooth and WiFi signal reception.

### 4.3 Steering Wheel Control Setup

The unit supports steering wheel control for convenient operation while driving. The setup process depends on whether your vehicle uses a CANBUS decoder.

- **Without CANBUS Decoder:** Connect the plugs or steering wheel control wires (Key1/Key2) in the power cable to the corresponding port or wire of your original car. Then, navigate to "Steering Wheel Key" manual settings on the unit to activate the button functions.
- **With CANBUS Decoder:** Connect the CANBUS decoder before powering on the machine. Then, go to "Apps" -> "Settings" -> "Factory Settings" (password: 8888/8317) -> "Vehicle" -> "Automotive type". Select the brand of the CANBUS decoder and then the matching model and year according to your actual situation to ensure SWC works properly.

## 5. Operating Instructions

### 5.1 Wireless CarPlay & Android Auto

Connect your smartphone wirelessly via Bluetooth to access CarPlay or Android Auto. Once connected, your phone will automatically link when you enter the vehicle. This allows for easy access to phone calls, music playback, GPS navigation, and voice assistant control for various applications.

- Make/answer phone calls
- Listen to music
- Utilize GPS navigation
- Wake up voice assistant to operate apps

**Note: Wired connection for CarPlay/Android Auto is not supported.**

Figure 5.1: Wireless CarPlay and Android Auto interface, demonstrating voice control and supported applications.

## 5.2 32-Band EQ & FM/RDS Radio

Enhance your audio experience with the built-in 32-band EQ. This feature allows for precise sound customization, compensating for original speaker limitations and delivering improved lossless sound quality. The unit also includes an FM/RDS radio with preset station capabilities, providing access to news, real-time traffic updates, and weather forecasts.

Figure 5.2: Audio features including Bluetooth connectivity, FM/RDS radio, and the 32-band equalizer for sound customization.

## 5.3 WIFI & GPS Navigation

Connect the unit to a Wi-Fi network to download various applications from the Play Store, stream online music, and watch videos. The built-in GPS navigation allows for offline map downloads directly from the Play Store. Online maps can also be used effectively when connected to Wi-Fi.

Figure 5.3: GPS Navigation and Wi-Fi connectivity, illustrating online map usage and app downloads.

## 5.4 1280*720 Ultra-high Resolution Display

The 1080P HD capacitive touch screen features a 1280*720 ultra-high resolution, ensuring clear visibility even from off-angles or under direct sunlight. This provides an excellent visual experience for all functions.

## 5.5 Backup Camera Functionality

The unit supports an AHD backup camera. When you shift the vehicle into reverse gear, the screen will automatically display the image from the backup camera, enhancing safety during reversing maneuvers.

Figure 5.4: AHD Backup Camera features, including wide-angle view and parking guidelines.

## 5.6 Mirror Link Function

The Mirror Link function allows you to synchronize your Android or iOS smartphone screen to the car radio display. This enables you to enjoy content, such as videos, on the larger screen of the head unit.

Figure 5.5: Mirror Link function, demonstrating screen mirroring from a smartphone to the car radio display via Wi-Fi.

## 5.7 Split Screen Function and UI Themes

The unit supports a split-screen function, allowing you to run two applications simultaneously on the display, such as navigation and music. Multiple UI themes are also available to customize the appearance of your car radio interface.

Figure 5.6: Split Screen Functionality and customizable UI Themes for enhanced multitasking and personalization.

## 6. Maintenance

To ensure the longevity and optimal performance of your Roinvou Car Radio, follow these maintenance guidelines:

- **Cleaning the Screen:** Use a soft, lint-free cloth to gently wipe the touch screen. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid abrasive materials or harsh chemicals.
- **Software Updates:** Periodically check for software updates provided by Roinvou to ensure your unit has the latest features and bug fixes. Updates are typically available via Wi-Fi connection.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct prolonged sunlight, or excessive moisture.
- **Cable Connections:** Periodically check all cable connections to ensure they are secure and free from damage. Loose connections can lead to intermittent issues.

## 7. Troubleshooting

If you encounter issues with your Roinvou Car Radio, refer to the following common troubleshooting steps:

| Problem | Possible Cause | Solution |
|---|---|---|
| Unit does not power on. | Loose power connection, blown fuse, vehicle battery issue. | Check power cable connections. Inspect vehicle fuses. Ensure vehicle battery is charged. |
| No sound from speakers. | Incorrect speaker wiring, volume too low, mute activated, incorrect audio source. | Verify speaker wiring. Increase volume. Check if mute is active. Select correct audio source. |
| CarPlay/Android Auto not connecting. | Bluetooth not enabled on phone/unit, incorrect pairing, phone compatibility issue. | Ensure Bluetooth is on for both devices. Delete previous pairings and re-pair. Check phone's OS version. |
| GPS signal weak or inaccurate. | GPS antenna not properly installed or obstructed, unit in an area with poor satellite reception. | Ensure GPS antenna is securely connected and placed in an unobstructed location (e.g., dashboard). Move to an open area. |
| Backup camera not displaying. | Camera not connected, reverse trigger wire not connected, faulty camera. | Check camera and reverse trigger wire connections. Ensure the reverse input cable is plugged in. Test camera if possible. |
| Steering Wheel Controls not working. | Incorrect wiring, improper programming, CANBUS issue. | Verify wiring for Key1/Key2. Re-program controls via settings. If using CANBUS, ensure it's correctly configured. |

If the problem persists after attempting these solutions, please contact Roinvou customer support for further assistance.

## 8. Specifications

| Package Dimensions | 12.99 x 11.81 x 4.33 inches |

## 9. Warranty and Support

### 9.1 Warranty Information

The Roinvou Car Radio comes with a **1-Year Warranty** from the date of purchase. This warranty covers manufacturing defects and malfunctions under normal use. Please retain your proof of purchase for warranty claims.
The warranty does not cover damage caused by improper installation, misuse, accidents, unauthorized repairs, or normal wear and tear.

### 9.2 Customer Support

For any questions, technical assistance, or warranty claims, please contact Roinvou customer support. You can typically reach support through the Amazon platform by navigating to your order details and selecting "Contact Seller" for the Roinvou store.
Alternatively, you may find direct contact information on the Roinvou official website or through the product packaging. When contacting support, please provide your product model number (Roinvou 4+64G Android Carplay Stereo) and a detailed description of your issue.
