Aoxun 10' x 12' Khaki w/ 20" Fan

Aoxun Hardtop Gazebo 10x12ft Instruction Manual

Model: 10' x 12' Khaki w/ 20" Fan

1. PRODUCT OVERVIEW

The Aoxun Hardtop Gazebo is a robust and stylish outdoor pavilion designed to enhance your living space. It features a dual-layer polycarbonate and galvanized steel roof for superior weather resistance and ventilation, a sturdy aluminum frame, and integrated ceiling fans with lighting for comfort and ambiance. The included netting and curtains offer privacy and protection from elements.

Figure 1: Aoxun Hardtop Gazebo 10x12ft with curtains tied back, showcasing its design and spacious interior.

Figure 2: All-Weather Resistant Roof: Designed to withstand sun, rain, and snow, offering 99% UV protection and wind resistance up to 38mph.

2. SETUP AND ASSEMBLY

Assembly of the Aoxun Hardtop Gazebo requires careful attention to detail and is best performed with 3-4 people. While the manufacturer estimates 2-4 hours, user experiences suggest it may take longer (5-7 hours per session for 2 people). It is crucial to organize all parts before beginning and to avoid fully tightening screws until all components are in place to allow for adjustments.

Video 1: Comprehensive Assembly Guide for Aoxun 10'x12' Hardtop Gazebo. This video demonstrates step-by-step installation of the frame, roof panels, and accessories.

2.2 Frame Assembly Tips

- **Part Verification:** Before starting, check all parts against the included list to ensure completeness and no damage.
- **Teamwork:** Assembly is significantly easier and safer with 2-4 individuals.
- **Loose Fastening:** Do not fully tighten screws until all related components are assembled and aligned. This allows for necessary adjustments.
- **Tool Recommendation:** A drill driver with appropriate hex bits can significantly speed up the process. Set it to a low torque setting to prevent stripping screws.

2.3 Roof Installation Tips

- **Panel Orientation:** Ensure roof panels are oriented correctly by comparing screw hole placements with the manual's diagrams.
- **Gradual Tightening:** For roof panels, loosely secure all screws before final tightening to ensure proper fit and alignment.
- **Support:** Have at least two people for roof installation, especially when lifting and securing initial panels.

Inner Visible Netting

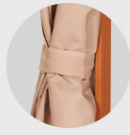

Good Ventilation

Light

Smooth Slide

Loop Straps

Say Goodbye
to Unwelcomed
Guests

Outer Privacy Curtain

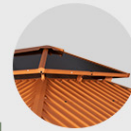

Dust-proof

Wind-proof

Temperature Control

Good for the free
circulation of air

Figure 3: Wind Resistance for Different Installations: Ground stakes and expansion bolts can significantly enhance wind resistance. Maximum wind resistant grade: 7 (31-38mph).

3. OPERATING INSTRUCTIONS

3.1 Ceiling Fan and Lighting

The integrated ceiling fan and lighting system offer smart control for optimal comfort.

- **Control:** Use the included remote control or a mobile app to adjust settings.
- **Fan Speed:** Select from 6-speed settings for customized airflow.
- **Light Colors:** Choose from three light colors: 3000K (warm), 4500K (neutral), and 6000K (cool).
- **Dimmable Brightness:** Adjust brightness from 10% to 100%.
- **Reversible DC Motor:** Switch fan direction with the remote for year-round comfort (summer mode for cooling, winter mode for warm air distribution).
- **Timer Function:** Set a 2-hour timer for automatic shut-off to conserve energy.

3.2 Netting and Curtains

The gazebo features both inner visible netting and outer privacy curtains for versatile use.

- **Netting:** Equipped with zippers and tracks for smooth sliding, providing ventilation and protection from insects.
- **Curtains:** Feature 3 binding belts for securing them

open or closed, offering privacy, wind protection, and temperature control.

Figure 4: Ceiling Fan with Lights: Adjust brightness and choose from warm, neutral, or daylight settings.

Ground stakes and expansion bolts can significantly enhance wind resistance

Figure 5: Seasonal Comfort: The reversible DC motor optimizes airflow for summer cooling and winter heat distribution.

4. MAINTENANCE

Proper maintenance will extend the life and appearance of your Aoxun Hardtop Gazebo.

- **Cleaning:** Regularly clean the frame and roof panels with mild soap and water. Avoid abrasive cleaners that could damage the finish.
- **Rust Prevention:** The galvanized steel roof and powder-coated aluminum frame are designed to be rust-resistant. However, inspect for any scratches or chips in the coating and touch up as needed to prevent corrosion.
- **Drainage System:** The sloped roof design includes an efficient drainage system. Periodically check and clear any debris from the roof and gutters to ensure proper water runoff and prevent accumulation.
- **Fabric Care:** The netting and curtains are made from weather-resistant materials. Clean them as needed with a damp cloth. For deeper cleaning, consult the fabric care instructions provided with your product.
- **Fastener Check:** Periodically inspect all screws and connections to ensure they remain tight and secure, especially after strong winds or heavy snow.

GALVANIZED STEEL DOUBLE ROOF DESIGN

The double-top vented roof allows for the free circulation of air, creating a comfortable and well-ventilated space for relaxation.

Figure 6: Efficient Drainage System: The sloped roof effectively directs rainwater away, preventing accumulation.

5. TROUBLESHOOTING

Below are common issues and their potential solutions:

- **Misaligned Holes During Assembly:** If some holes do not align perfectly, ensure all screws are loosely fastened before attempting to align and tighten. Slight adjustments to the frame's position may be necessary. Do not force screws, as this can strip threads.
- **Roof Panel Gaps/Leaks:** Ensure all roof panels are correctly seated in their tracks and that all associated screws are tightened. Check the rubber seals or gaskets (if applicable) for proper placement and integrity.
- **Instability/Wobbling:** Verify that all frame connections are securely tightened. Ensure the gazebo is anchored to a stable foundation using ground piles or expansion screws as recommended in the assembly instructions.
- **Fan/Light Malfunction:** Check power connections and ensure the remote control batteries are functional. Refer to the fan's specific manual for detailed electrical troubleshooting.

6. SPECIFICATIONS

Feature	Detail
Brand	Aoxun
Model	10' x 12' Khaki w/ 20" Fan
Material	Aluminum Frame, Polycarbonate and Galvanized Steel Roof
Product Dimensions	12"L x 10"W x 116.5"H (approx. 10'L x 12'W x 9.6'H)
Item Weight	90 pounds

Water Resistance Level	Water Resistant
Ultraviolet Light Protection	25 (99% UV Protection)
Max Wind Resistance Grade	7 (31-38mph)
Assembly Required	Yes

7. IMPORTANT SAFETY INFORMATION

To ensure safe and proper use of your gazebo, please adhere to the following:

- Ensure the gazebo is securely anchored to a stable foundation.
- Follow all assembly instructions carefully and completely.
- Do not exceed the maximum wind resistance grade of 7 (31-38mph). Disassemble or secure the gazebo during severe weather conditions.
- Regularly inspect the structure for any signs of wear, damage, or loose connections.

8. WARRANTY AND SUPPORT

For any questions or concerns regarding your Aoxun Hardtop Gazebo, please contact Aoxun Direct customer support. We are committed to providing assistance and will reply within 24 hours.

While protection plans may be available for purchase separately, direct product support for manufacturing defects or assembly queries is provided by Aoxun.
