## Panlouting sh-xm-2

# Replacement Blades Cutting Head User Manual

Model: sh-xm-2

## INTRODUCTION

---

This manual provides essential information for the proper use, installation, and maintenance of your new replacement cutting head. This high-quality blade is designed to restore the precision and performance of your compatible hair trimmer.

## COMPATIBILITY

---

This replacement razor head is specifically designed to be compatible with the **Xiaomi Mijia LFQ02KL hair trimmer**. Please ensure your trimmer model matches this specification for optimal performance and fit.

# For:MIJIA LFQ02KL Cutter head

## PRODUCT FEATURES

- **High Quality Construction:** This is a new high quality hair clipper head designed for precision and durability, ensuring a consistent and clean cut.
- **Tungsten Steel Material:** The cutting head is made from tungsten steel, a material known for its exceptional wear-resistance, high hardness, and overall robustness, contributing to a longer lifespan for the blade.

## SETUP AND INSTALLATION

---

The replacement cutting head is designed for easy installation. Follow these general steps to replace the blade on your Xiaomi Mijia LFQ02KL hair trimmer:

1. **Power Off:** Ensure your hair trimmer is turned off and unplugged from any power source before attempting to replace the blade.
2. **Remove Old Blade:** Carefully detach the existing cutting head from the trimmer. This usually involves pressing release buttons or sliding the old head off. Refer to your original trimmer's manual for specific instructions if needed.
3. **Clean Trimmer Head Area:** Before installing the new blade, clean any hair or debris from the trimmer's head attachment area to ensure a proper fit and optimal performance.
4. **Install New Blade:** Align the new replacement cutting head with the trimmer's attachment points. Gently push or slide the new head into place until it clicks securely. Ensure it is firmly seated and does not wobble.
5. **Test Functionality:** Once installed, turn on the trimmer briefly to ensure the new blade operates smoothly and quietly.

## OPERATING CONSIDERATIONS

---

While this product is a replacement blade, its proper function is integral to the trimmer's operation. A new, sharp blade ensures efficient and precise hair cutting. Always use the trimmer according to its original manufacturer's instructions, ensuring the blade is clean and properly lubricated for best results.

## MAINTENANCE

---

Regular maintenance of your cutting head will extend its lifespan and ensure optimal performance:

- **Cleaning After Each Use:** After each use, brush off any loose hairs from the blade. For a more thorough cleaning, you may use a small brush or rinse the blade under running water if your trimmer model is waterproof and allows for it. Ensure the blade is completely dry before storage.
- **Lubrication:** Periodically apply a small drop of clipper oil to the blade teeth. This helps reduce friction, keeps the blades sharp, and prevents rust. Run the trimmer for a few seconds after oiling to distribute the oil evenly.
- **Storage:** Store the trimmer with the blade attached in a clean, dry place, away from excessive humidity.

## TROUBLESHOOTING

---

If you encounter issues after replacing the cutting head, consider the following:

- **Poor Cutting Performance:**

- Ensure the blade is clean and free of hair buildup.
- Check if the blade is properly seated and securely attached to the trimmer body.
- Apply clipper oil to the blades.

- **Unusual Noise or Vibration:**

- Verify the blade is correctly installed and not loose.
- Clean and lubricate the blade.
- If the issue persists, the trimmer motor itself might be the cause, not the blade.

- **Blade Not Moving:**

- Ensure the trimmer is charged or plugged in.
- Check for any obstructions preventing blade movement.
- Re-install the blade to ensure proper alignment.

## SPECIFICATIONS

Attribute	Detail
Product Type	Replacement Hair Trimmer Cutting Head
Brand	Panlouting
Model Number	sh-xm-2
Compatible Trimmer	Xiaomi Mijia LFQ02KL Hair Trimmer
Material	Tungsten Steel
Package Dimensions	10 x 5 x 2 cm
