bnf Digital Alarm Clock Mirrored Large Display - User Manual

INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your bnf Digital Alarm Clock with Mirrored Large Display. Please read this manual thoroughly before using the product to ensure proper function and longevity.

PACKAGE CONTENTS

- 1x bnf Digital Alarm Clock

PRODUCT FEATURES

- **Large Mirrored Display:** 5.7-inch screen with large fonts for easy readability. Functions as both an alarm clock and a mirror.
- **Dual Display Modes:** Option to display time only, or cycle through time, date, and temperature.
- **Adjustable Brightness:** 5 levels of brightness, adjustable via the "SNOOZE" button. Includes an automatic low brightness Night Mode (22:00-06:00).
- **Dual Alarm Function:** Two independent alarm settings with three weekday modes (Mon-Fri, Mon-Sat, Mon-Sun).
- **Snooze Function:** Allows for additional sleep time after the alarm sounds.
- **Dual Power Supply:** Operates via USB power or 3x AAA batteries. Note: Display turns off automatically after 10 or 16 seconds when powered by AAA batteries to conserve energy.

SETUP

1. Powering the Clock

Your bnf Digital Alarm Clock can be powered in two ways:

- **USB Power:** Connect the provided USB cable to the clock's power input and to a USB power adapter (not included) or a powered USB port. This provides continuous display.
- **AAA Batteries:** Insert 3x AAA batteries (not included) into the battery compartment. When powered by batteries, the display will automatically turn off after 10 or 16 seconds to save power. Press any button to reactivate the display for a short period.

OPERATING INSTRUCTIONS

1. Setting the Time

1. Press and hold the **MODE** button to enter time setting mode.
2. Use the **UP** and **DOWN** buttons to adjust the hour.
3. Press **MODE** again to switch to minute setting, then use **UP** and **DOWN** to adjust.
4. Press **MODE** to confirm and exit.

2. Setting the Alarm

The clock supports two independent alarms.

1. Press the **ALARM** button once to select Alarm 1, or twice for Alarm 2.

2. Press and hold the **ALARM** button to enter alarm setting mode.
3. Use **UP** and **DOWN** to set the alarm hour, then press **ALARM**.
4. Use **UP** and **DOWN** to set the alarm minute, then press **ALARM**.
5. Next, set the alarm weekday mode: **Mon-Fri**, **Mon-Sat**, or **Mon-Sun**. Use **UP** and **DOWN** to select, then press **ALARM** to confirm.
6. To activate/deactivate an alarm, short press the **ALARM** button until the alarm icon appears/disappears on the display.

3. Snooze Function

When the alarm sounds, press the **SNOOZE** button to temporarily silence the alarm. The alarm will sound again after a set interval. To turn off the alarm completely, press any other button.

4. Adjusting Brightness

The clock offers 5 levels of display brightness.

- Short press the **SNOOZE** button to cycle through the 5 brightness levels.
- **Night Mode:** The clock automatically enters a low brightness mode between 22:00 (10 PM) and 06:00 (6 AM).

5. Display Modes

The clock has two main display modes:

- **Time Only:** Displays only the current time.
- **Cycle Display:** Cycles through displaying time, date, and temperature.
- To switch between display modes, short press the **MODE** button.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the clock's surface. Avoid abrasive cleaners or solvents.

- **Storage:** If storing the clock for an extended period, remove the AAA batteries to prevent leakage.
- **Environment:** Keep the clock away from direct sunlight, high temperatures, and high humidity.

TROUBLESHOOTING

Q: The display turns off frequently when using batteries.

A: This is normal behavior. When powered by AAA batteries, the display automatically turns off after 10 or 16 seconds to conserve power. Press any button to temporarily reactivate the display. For continuous display, use USB power.

Q: The clock is not turning on.

A: Ensure the USB cable is securely connected to both the clock and a working power source, or that fresh AAA batteries are correctly inserted with the correct polarity.

Q: The alarm is not sounding.

A: Check if the alarm is activated (alarm icon visible on display). Verify that the alarm time is set correctly.

SPECIFICATIONS

Model Number	FWNDS53089803
