Ejoyous Programmable Mechanical Macro Keyboard

Model: Ejoyousa2oznh7ymw-11
User Manual

1. INTRODUCTION

The Ejoyous Programmable Mechanical Macro Keyboard is a versatile input device designed to enhance efficiency in both gaming and office environments. Featuring 12 customizable buttons and 2 rotary knobs, this keypad allows users to assign various functions, macros, and quick commands to streamline workflows and improve response times. Its mechanical red switches provide tactile feedback and precise actuation, ensuring a reliable user experience. This manual provides instructions for setup, operation, programming, and maintenance of your Ejoyous macro keyboard.

3. PACKAGE CONTENTS

Please check the package contents upon unboxing:

- 1 x Ejoyous Programmable Mechanical Macro Keyboard
- 1 x USB Cable

4. SPECIFICATIONS

Attribute	Value
Article Type	Mini Keyboard
Material	ABS
Switch Type	Mechanical Red Switch
Number of Buttons	12
Number of Knobs	2
Connectivity	USB Wired

Attribute	Value
Supported OS	Windows, Vista, Linux, OS X
Item Weight	6.7 ounces (approx. 190g)
Package Dimensions	6.3 x 3.94 x 1.97 inches (approx. 16 x 10 x 5 cm)
Model Number	Ejoyousa2oznh7ymw-11

5. SETUP

Follow these steps to set up your Ejoyous Programmable Mechanical Macro Keyboard:

1. **Unpack the Keyboard:** Carefully remove the keyboard and USB cable from its packaging.
2. **Connect the USB Cable:** Insert the smaller end of the provided USB cable into the USB port on the side of the macro keyboard.
3. **Connect to Computer:** Plug the larger end of the USB cable into an available USB port on your computer.
4. **Driver Installation:** Your computer should automatically detect and install the necessary drivers. No manual driver installation is typically required for basic functionality.

6. OPERATING INSTRUCTIONS

6.1 Basic Operation

Once connected, the keyboard will function as a standard input device. However, its primary utility comes from its programmable nature. Without specific programming, the keys may not perform desired functions.

6.2 Programming the Keyboard

To utilize the full potential of your Ejoyous Programmable Mechanical Macro Keyboard, you will need to use dedicated programming software. This software allows you to:

- Assign single key presses (e.g., 'A', 'Ctrl', 'Shift').
- Create complex macros (sequences of key presses and delays).
- Assign multimedia controls (e.g., volume up/down, play/pause).
- Configure the rotary knobs for functions like volume control, scrolling, or zooming.

Important: The programming software is typically provided by the manufacturer. Please refer to the documentation included with your product or visit the official Ejoyous website for instructions on downloading and using the programming software. The software will guide you through the process of assigning functions to each of the 12 buttons and 2 rotary knobs.

7. MAINTENANCE

To ensure the longevity and optimal performance of your macro keyboard, follow these maintenance

guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the keyboard. For stubborn dirt, a slightly damp cloth with mild soap can be used, ensuring no liquid enters the device.
- **Avoid Liquids:** Do not expose the keyboard to excessive moisture or immerse it in water.
- **Storage:** Store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Cable Care:** Avoid bending or twisting the USB cable excessively to prevent damage.

8. TROUBLESHOOTING

If you encounter issues with your Ejoyous Programmable Mechanical Macro Keyboard, refer to the following common solutions:

Problem	Possible Cause	Solution
Keyboard not recognized by computer	Loose USB connection, faulty USB port, driver issue	Ensure USB cable is securely connected. Try a different USB port on your computer. Restart your computer.
Buttons not responding or performing incorrect actions	Incorrect programming, software conflict	Verify button assignments in the programming software. Re-program the affected keys. Ensure no other software is interfering with keyboard input.
Keyboard feels unresponsive	Dust or debris under keycaps, software lag	Clean the keyboard surface and around keycaps. Close unnecessary background applications.
Rotary knobs not working	Not programmed, software issue	Ensure the rotary knobs are correctly programmed in the software. Restart the programming software or your computer.

If the problem persists after trying these solutions, please contact Ejoyous customer support for further assistance.

9. WARRANTY AND SUPPORT

Ejoyous products are manufactured with quality and reliability in mind. This product typically comes with a standard manufacturer's warranty against defects in materials and workmanship. The specific terms and duration of the warranty may vary by region and retailer.

For detailed warranty information, technical support, or to download the latest programming software and drivers, please visit the official Ejoyous website or refer to the warranty card included with your purchase.

Manufacturer: Ejoyous
