Fuluku Fuluku-A7086A3662H1MI2AM62EU-494

Fuluku 4+64GB Android 9-inch Autoradio User Manual

For Peugeot 308/408 (2007-2015) - Model: Fuluku-A7086A3662H1MI2AM62EU-494

Introduction

This manual provides detailed instructions for the installation, operation, maintenance, and troubleshooting of your Fuluku 4+64GB Android 9-inch Autoradio. This unit is designed specifically for Peugeot 308 and 408 models manufactured between 2007 and 2015, offering advanced features such as Wireless CarPlay, Android Auto, GPS navigation, and a high-resolution touchscreen. Please read this manual thoroughly before use to ensure proper installation and optimal performance.

Safety Information

- **Professional Installation Recommended:** Due to the complexity of automotive electrical systems, professional installation is highly recommended to prevent damage to the unit or your vehicle.
- **Power Disconnection:** Always disconnect the vehicle's battery before performing any installation or wiring work.
- **Wiring:** Ensure all wiring connections are secure and properly insulated to prevent short circuits.
- **Driving Safety:** Do not operate the unit's advanced features or watch videos while driving. Always prioritize road safety.
- **Ventilation:** Ensure adequate ventilation around the unit to prevent overheating.
- **Cleaning:** Use a soft, dry cloth for cleaning. Avoid abrasive cleaners or solvents.

Package Contents

Verify that all items listed below are included in your package:

- Android Autoradio for Peugeot 308/408 (2007-2015)
- Power Cable
- GPS Antenna
- Rear Camera
- Rear Camera Input Cable
- RCA Cable
- USB Cable (x2)
- Mounting Bracket

- Screws
- User Manual

Setup and Installation

1. Pre-Installation Check

- Confirm vehicle compatibility (Peugeot 308/408, 2007-2015).
- Ensure all package contents are present.
- Disconnect the negative terminal of your vehicle's battery.

2. Removing the Original Head Unit

Carefully remove the original head unit from your vehicle's dashboard. Refer to your vehicle's service manual or an online guide for specific instructions on removing the dashboard trim and original radio.

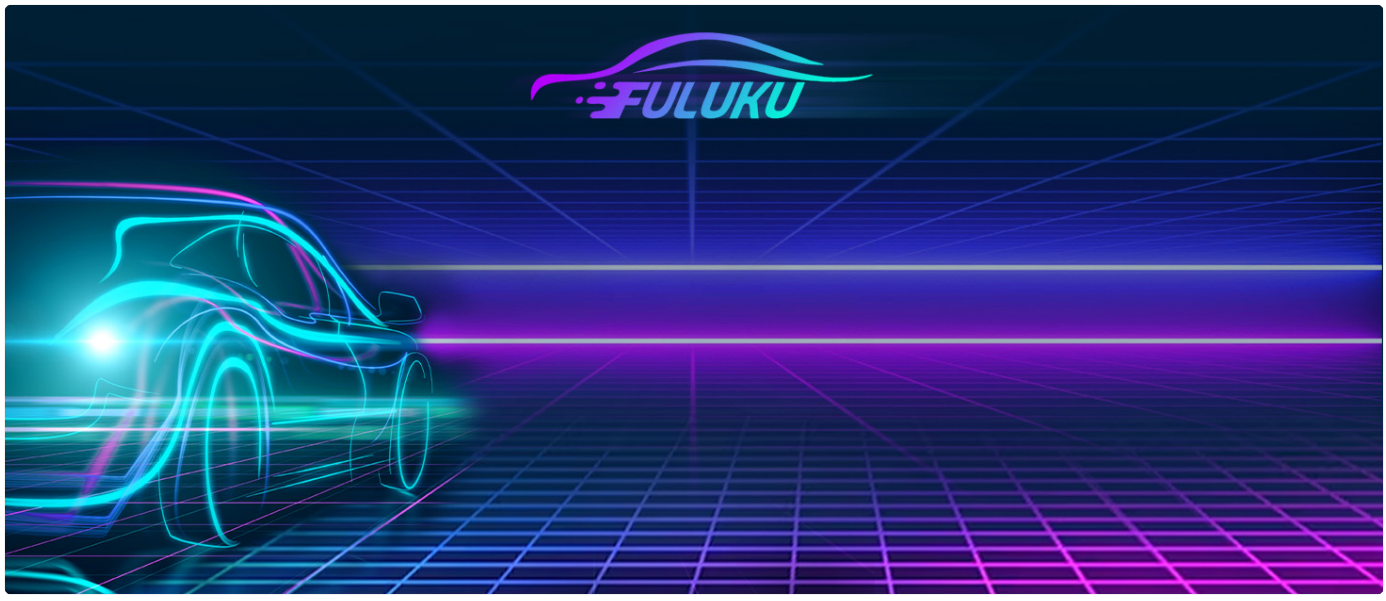

Image: Before and after installation of the Fuluku Autoradio in a Peugeot 308/408 dashboard.

3. Wiring Connections

Connect the provided cables to the corresponding ports on the new autoradio and your vehicle's wiring harness. Ensure all connections are firm.

- **Power Cable:** Connect the main power harness.
- **RCA Cables:** For external amplifiers or audio/video input/output.
- **USB Cables:** For USB devices, data transfer, or charging.
- **GPS Antenna:** Mount the GPS antenna in a location with a clear view of the sky (e.g., on the dashboard or under the windshield).
- **Radio Antenna:** Connect the vehicle's radio antenna.
- **Rear Camera Input:** Connect the rear camera cable to the designated input.
- **Microphone:** Connect the external microphone for improved call quality.

Image: Connection reference for the Fuluku Autoradio.

4. Mounting the Autoradio

Secure the autoradio into the dashboard opening using the provided mounting brackets and screws. Ensure it is flush and stable.

5. Initial Power-On and Testing

Reconnect the vehicle's battery. Turn on the ignition and power on the autoradio. Test all functions, including audio, touchscreen response, radio, GPS, and camera inputs.

Operating Instructions

1. Basic User Interface Navigation

The autoradio features an intuitive Android operating system with a 9-inch IPS HD touchscreen (1280x736 resolution). Swipe left or right to navigate between app screens. Tap icons to open applications. Use the back and home buttons on the side panel or touchscreen for navigation.

2. Wireless CarPlay & Android Auto

The unit supports wireless Apple CarPlay and Android Auto, allowing seamless integration with your smartphone for navigation, music, calls, and messages.

- **Connection Steps:**
    1. Ensure Bluetooth is enabled on your smartphone.
    2. On the autoradio, tap the 'CarPlay' or 'Android Auto' icon.
    3. Follow the on-screen prompts to pair your phone via Bluetooth.
    4. Once paired, the system will automatically launch CarPlay or Android Auto.

3. MirrorLink (Airplay / Android Cast)

MirrorLink allows you to mirror your smartphone's screen directly onto the autoradio display.

- **Connection Steps:**
    1. Tap the 'MirrorLink' icon on the autoradio.
    2. For iOS (Airplay): Connect your iPhone to the autoradio's Wi-Fi hotspot. Select 'Airplay' on your iPhone and choose the autoradio.
    3. For Android (Android Cast): Ensure Bluetooth is on. You may need to download a specific app on your phone as prompted by the autoradio. Follow the app's instructions to connect.

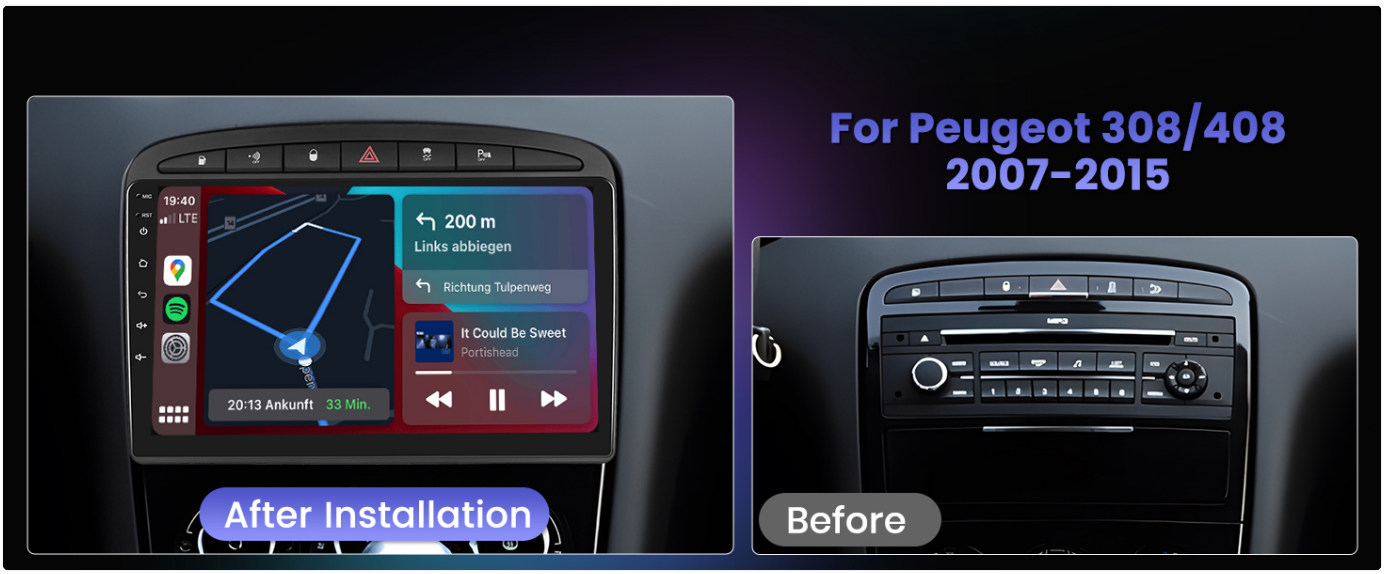

Image: MirrorLink functionality for iOS and Android devices.

4. GPS Navigation

The unit comes with built-in GPS functionality. You can use pre-installed navigation apps or download others from the Google Play Store (requires Wi-Fi connection).

- Ensure the GPS antenna is properly installed and has a clear signal.
- Open your preferred navigation application and follow its instructions for route planning.

5. Bluetooth 5.0

Connect your phone via Bluetooth for hands-free calling and audio streaming.

- Go to Bluetooth settings on the autoradio and enable Bluetooth.
- Search for the autoradio on your phone and pair the devices.
- Once connected, you can make/receive calls and play music wirelessly.

6. FM/RDS Radio

Access the FM radio application to listen to local stations. RDS (Radio Data System) provides station information and traffic announcements where available.

- Open the 'Radio' app.
- Use the scan function to find available stations or manually tune to a frequency.
- Save your favorite stations as presets.

7. Steering Wheel Control (SWC)

The unit supports your vehicle's original steering wheel controls for convenience.

- **Without CANBUS Decoder:** Connect the Key1/Key2 wires from the power cable to the corresponding steering wheel control wires of your original car. Then, go to 'Apps > Settings > Car Settings > Factory Settings (8888) > Steering Wheel Key' to manually map the buttons.
- **With CANBUS Decoder:** Connect the CANBUS decoder before powering on the machine. Go to 'Apps > Settings > Car Settings > Factory Settings (8888) > Can Settings > Canbus Type Sort'. Select your car's brand, model, and year to activate SWC.

Image: Steering Wheel Control setup guide.

8. Rear View Camera

The included AHD rear camera provides a clear view when reversing.

- When the vehicle is shifted into reverse gear, the screen will automatically display the rear camera feed.
- The camera features a 170-degree wide angle, night vision, and is waterproof.

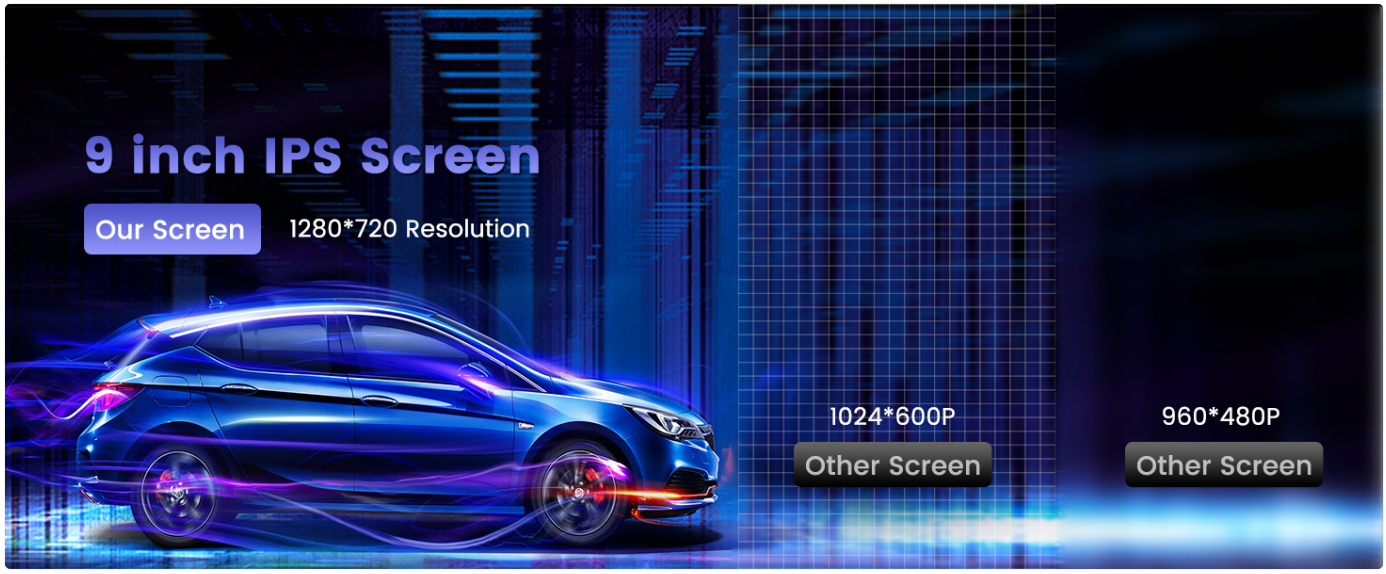

Image: Rear View Camera features and display.

9. Audio Equalizer (DSP)

Customize your audio experience with the built-in 32-band equalizer and Digital Sound Processor (DSP).

- Access the 'EQ' or 'DSP' app from the main menu.
- Adjust individual frequency bands, select from preset equalization modes, or configure sound field positioning.

Image: Audio Equalizer (EQ) and DSP settings interface.

10. Split Screen Function

The 9-inch screen supports split-screen display, allowing you to run two applications simultaneously (e.g., navigation and music).

- To activate, open an app, then long-press the home button or swipe up from the bottom (depending on Android version) to enter split-screen mode.
- Select a second app to display alongside the first.

Maintenance

- **Screen Cleaning:** Use a soft, lint-free cloth to gently wipe the touchscreen. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals.

- **Software Updates:** Periodically check for software updates through the system settings to ensure optimal performance and access to new features.
- **Ventilation:** Ensure the unit's ventilation openings are not blocked to prevent overheating.
- **Cable Connections:** Occasionally check all cable connections to ensure they remain secure.

Troubleshooting

Problem	Possible Cause	Solution
Unit does not power on.	Loose power connection, blown fuse, vehicle battery issue.	Check power cable connections. Inspect vehicle fuses. Ensure vehicle battery is charged.
No sound.	Volume too low, incorrect audio source, speaker wiring issue.	Increase volume. Select correct audio source. Check speaker wiring.
GPS signal weak or lost.	GPS antenna improperly installed or obstructed.	Ensure GPS antenna is mounted in a clear location. Check antenna connection.
CarPlay/Android Auto not connecting.	Bluetooth/Wi-Fi off, phone not paired, app issues.	Ensure Bluetooth/Wi-Fi is on. Re-pair phone. Restart phone and autoradio.
Rear camera not displaying.	Camera cable loose, reverse trigger wire not connected, faulty camera.	Check camera input cable. Verify reverse trigger wire connection. Test camera.
Steering Wheel Controls not working.	Incorrect wiring, SWC not configured.	Check Key1/Key2 wiring. Perform SWC learning in settings (refer to section 7).

Specifications

Feature	Specification
Brand	Fuluku
Model Number	Fuluku-A7086A3662H1MI2AM62EU-494
Compatible Vehicles	Peugeot 308/408 (2007-2015)
Operating System	Android
RAM	4GB
ROM (Internal Storage)	64GB
