Cygnett ChargeBase 2-in-1 Magnetic Wireless Charging Stand

Model: Cb2-1-mwc-w

INTRODUCTION

The Cygnett ChargeBase 2-in-1 Magnetic Wireless Charging Stand provides a convenient and efficient way to charge your Qi2-compatible smartphone and wireless earbuds simultaneously. This stand features magnetic alignment for secure device placement and a sleek design suitable for various environments. It supports fast wireless charging and offers adjustable viewing angles for enhanced usability.

WHAT'S IN THE BOX

Please verify that all items are present in the package:

- Charging Base
- User Manual

PRODUCT FEATURES

- **Magnetic Charging:** Features Qi2 magnetic wireless charging technology for precise alignment and efficient power transfer.
- **Dual Functionality:** 2-in-1 design allows simultaneous charging of two compatible devices with wireless charging capabilities.
- **Design Aesthetics:** Sleek white finish complements modern décor whilst maintaining a minimalist appearance.
- **Compatibility:** Works with Qi2-certified devices and maintains backwards compatibility with standard Qi wireless charging.
- **Charging Position:** Vertical stand design enables convenient viewing of device screen whilst charging.

SETUP INSTRUCTIONS

1. **Unpack the Charger:** Carefully remove the charging stand and any included cables from the packaging.
2. **Connect to Power:** Connect the charging cable to the port on the back of the charging base. Plug the other end of the cable into a compatible USB power adapter (not included) and then into a wall outlet.
3. **Position the Stand:** Place the charging stand on a stable, flat surface. The stand can be unfolded to an upright position for use.

OPERATING INSTRUCTIONS

1. **Charging a Smartphone:** Place your Qi2-compatible smartphone onto the magnetic charging pad. The magnets will automatically align your device for optimal charging. Ensure the phone is centered on the pad.
2. **Charging Wireless Earbuds:** Place your wireless earbuds case (with wireless charging capability) onto the flat charging pad at the base of the stand.
3. **Adjusting Viewing Angle:** The stand features a dual-axis design allowing you to adjust the angle of your smartphone for comfortable viewing in both portrait and landscape orientations. The magnetic pad also supports 360-degree rotation.

MAINTENANCE

- **Cleaning:** Disconnect the charger from the power source before cleaning. Use a soft, dry cloth to wipe the surface of the charging stand. Do not use abrasive cleaners, solvents, or chemical agents.
- **Storage:** When not in use, store the charging stand in a cool, dry place away from direct sunlight and extreme temperatures. The foldable design allows for compact storage.
- **Handling:** Avoid dropping the device or subjecting it to strong impacts. Do not attempt to disassemble or repair the unit yourself.

TROUBLESHOOTING

If you encounter issues with your charging stand, please refer to the following common solutions:

- **Device Not Charging:**

- Ensure the charging stand is properly connected to a working power outlet.
- Verify that your device (smartphone or earbuds) is Qi2-compatible or supports standard Qi wireless charging.
- Check for proper alignment of your device on the charging pad. Magnetic alignment should assist with this.
- Remove any thick phone cases or metallic objects that may interfere with wireless charging.
- Try using a different power adapter and cable to rule out issues with accessories.

- **Slow Charging:**

- Ensure you are using a power adapter that provides sufficient output (e.g., a 20W or higher USB-C PD adapter for optimal fast charging).
- Confirm your device supports fast wireless charging.
- Avoid using your device extensively while it is charging, as this can slow down the process.

- **LED Indicator Not On:**

- Check the power connection to the charging stand and the wall outlet.
- If the LED is still off, the unit may be faulty. Contact customer support.
