# UPPAbaby Minu V3 Travel Stroller Instruction Manual

Model: 0803-MIN-NA-GRY

## 1. INTRODUCTION

---

The UPPAbaby Minu V3 is a lightweight and compact travel stroller designed for convenience and comfort from birth. Its intuitive one-hand fold and unfold mechanism makes it ideal for travel, fitting into overhead compartments on most airlines. This manual provides essential information for the setup, operation, maintenance, and specifications of your Minu V3 stroller.

## 2. SETUP

---

Your UPPAbaby Minu V3 stroller comes largely pre-assembled. Follow these steps for initial setup:

1. **Unfolding the Stroller:** The Minu V3 features a one-second, one-handed unfold. Ensure the stroller is on a flat surface, release the locking mechanism, and allow it to unfold completely until it clicks into place.
2. **Attaching Components:** The stroller is included as a complete unit. No additional assembly of the seat or frame is typically required.
3. **Newborn Configuration:** The Minu V3 is optimized for use from birth with an included foot barrier and infinite recline. Adjust the seat recline to the fully flat position for newborns.
4. **Travel System Compatibility:** For use with UPPAbaby Mesa and Aria infant car seats, or select Maxi-Cosi, Nuna, and Cybex infant car seats, attach the appropriate fold-friendly adapters (sold separately). Refer to the adapter's instruction manual for specific installation steps.

## 3. OPERATING INSTRUCTIONS

---

### 3.1 Folding and Unfolding

The Minu V3 is designed for quick, one-handed operation. To fold, locate the folding mechanism on the handlebar and activate it while pushing the stroller forward. The stroller will collapse compactly and stand on its own. To unfold, release the latch and allow the stroller to extend until it locks into the open position.

## Overhead Friendly

Ultra-portable with an intuitive, one-handed fold and unfold and IATA compatible dimensions, plus an easy-access carry strap for hands-free transport.

## **3.3 Seat Recline and Footrest**

The Minu V3 offers an infinite recline feature, allowing you to adjust the seat to multiple positions, including a near-flat recline suitable for newborns. The three-position footrest can also be adjusted to provide optimal comfort for your child as they grow.

# From-Birth Ready

Optimized from birth with a foot barrier, infinite recline, and 2-crotch buckle positions that let you stroll from day one.

## 3.4 Extendable Canopy

The zip-out, extendable UPF 50+ water-repellent canopy provides ample sun protection. It includes a mesh peek-a-boo window, allowing you to easily check on your child while providing ventilation. The canopy can be extended or retracted as needed.

## 3.5 Storage and Accessories

The stroller features a large, easily accessible basket that can hold up to 20 lbs (9.1 kg) of essentials. Additionally, a hidden pocket is included for an Air Tracker, offering peace of mind for parents.

## 3.6 Maneuverability

Front suspension combined with independent rear suspension ensures a smooth ride. The stroller is designed for easy pushing and steering, providing comfort for both the child and caregiver.

## 4. MAINTENANCE

Regular maintenance ensures the longevity and safe operation of your UPPAbaby Minu V3 stroller.

- **Cleaning Fabric:** The stroller features premium fabrics. For spot cleaning, use a mild detergent and cold water. Allow to air dry completely. Do not machine wash or bleach.
- **Cleaning Frame:** Wipe the aluminum frame with a soft, damp cloth. Avoid abrasive cleaners.
- **Wheel Maintenance:** Periodically check the wheels for debris and clean as necessary. Ensure wheels spin freely.
- **Storage:** Store the stroller in a dry, well-ventilated area away from direct sunlight and extreme temperatures.

## 5. TROUBLESHOOTING

---

If you encounter any issues with your UPPAbaby Minu V3 stroller, please refer to the following common solutions. For problems not listed here, contact UPPAbaby customer support.

- **Stroller not unfolding/folding smoothly:** Ensure all locking mechanisms are fully disengaged. Check for any obstructions in the folding joints. Lubricate moving parts if necessary.
- **Wheels not turning freely:** Check for debris (e.g., hair, lint) wrapped around the wheel axles. Clean thoroughly.
- **Harness difficult to adjust:** Ensure straps are not twisted. Apply gentle pressure when adjusting.
