## 4. OPERATING INSTRUCTIONS

To apply the Eau de Parfum effectively:

- **Application Points:** Spray onto pulse points such as wrists, neck, behind the ears, and décolletage. These areas generate heat, which helps to diffuse the fragrance throughout the day.
- **Distance:** Hold the bottle approximately 5-7 inches (12-18 cm) away from your skin when spraying to ensure an even mist.
- **Layering:** For enhanced longevity, consider applying an unscented moisturizer to your skin before spraying the perfume.
- **Avoid Rubbing:** After applying, do not rub your wrists together as this can break down the fragrance molecules and alter the scent.

## 5. MAINTENANCE AND STORAGE

Proper care and storage will help preserve the quality and longevity of your perfume:

- **Storage Location:** Store the perfume in a cool, dry place away from direct sunlight and extreme temperature fluctuations. A closet or drawer is ideal.
- **Keep Capped:** Always ensure the cap is securely placed on the bottle after each use to prevent evaporation and oxidation.
- **Avoid Humidity:** Do not store perfume in bathrooms, as humidity can degrade the fragrance over time.

## 6. SAFETY INFORMATION

---

Please observe the following safety guidelines:

- **For External Use Only:** This product is intended for external application to the skin. Do not ingest.
- **Avoid Eye Contact:** In case of contact with eyes, rinse immediately with plenty of water.
