DOAO A6

DOAO A6 Men's 6D Flexible Bald Razor User Manual

Model: A6

1. INTRODUCTION

Thank you for choosing the DOAO A6 Men's 6D Flexible Bald Razor. This manual provides essential information for the safe and effective use, maintenance, and care of your new shaver. Please read these instructions thoroughly before first use and retain them for future reference.

2. PRODUCT OVERVIEW

The DOAO A6 Bald Razor is designed for a smooth and comfortable shaving experience, particularly for bald heads and facial grooming. Key features include:

- **6D Flexible Shaving Heads:** Adapts to the contours of your head and face for a close shave.
- **Magnetic Floating Head Design:** Facilitates easy cleaning and maintenance.
- **Wet and Dry Shaving:** Suitable for use with or without shaving cream, and can be used in the shower.
- **LED Display:** Provides battery status and other operational information.
- **USB-C Charging:** Convenient and fast charging, offering long battery life.
- **Ergonomic Grip:** Non-slip, compact, and portable design for comfortable handling.

3. SETUP

3.1 Initial Charge

1. Before first use, fully charge the razor.
2. Connect the provided USB-C charging cable to the razor's charging port and to a compatible USB power adapter (not included).
3. The LED display will indicate charging status. A full charge typically takes approximately two hours.
4. Once fully charged, disconnect the charging cable.

3.2 Power On/Off

- To turn on, press the power button.
- To turn off, press the power button again.

4. OPERATING INSTRUCTIONS

4.1 Shaving Technique

1. Ensure your skin is clean. For wet shaving, apply shaving cream or gel.
2. Turn on the razor.
3. Gently press the shaving head against your skin. Do not apply excessive pressure.
4. Move the razor in small, circular motions over the area to be shaved. The flexible heads will adapt to your contours.
5. For optimal results, stretch the skin with your free hand, especially in difficult areas.
6. After shaving, turn off the razor and clean it as described in the Maintenance section.

4.2 Wet and Dry Shaving

This razor is designed for both wet and dry use. You can shave dry for a quick touch-up or use it with water, foam, or gel for a more comfortable and refreshing shave, even in the shower.

Amazing Grip, Easy to Hold
Slip-resistant and lightweight body design

5. MAINTENANCE

5.1 Cleaning the Shaver

Regular cleaning ensures optimal performance and hygiene.

1. Turn off the razor.
2. The shaving head is magnetically attached. Gently pull the head away from the body to detach it.
3. Rinse the shaving head thoroughly under running water to remove hair clippings and debris. You can also rinse the main body if needed, as the device is waterproof.
4. Shake off excess water and allow the components to air dry completely before reattaching the head.
5. To reattach, align the shaving head with the body and let the magnets secure it in place.

Figure 5.1: The magnetic attachment allows for easy detachment of the shaving head for cleaning.

Easy To Clean 100% Waterproof

Figure 5.2: The razor head is 100% waterproof for easy cleaning under running water.

5.2 Blade Replacement

For optimal shaving performance, it is recommended to replace the shaving heads every 6-12 months, depending on usage. Replacement heads can be purchased separately from authorized retailers.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Razor does not turn on.	Battery is depleted.	Charge the razor fully using the USB-C cable.

Problem	Possible Cause	Solution
Poor shaving performance / pulling hairs.	Blades are dull or clogged with hair.	Clean the shaving head thoroughly. Consider replacing the shaving heads if they are old.
Razor stops during use.	Battery is low.	Recharge the razor.
Skin irritation after shaving.	Excessive pressure, dry shaving on sensitive skin, or dull blades.	Reduce pressure. Try wet shaving with foam/gel. Ensure blades are clean and sharp.
