Battery Cell Composition	Lithium Ion (IMINI 2), AAA (I3T 2)
Water Resistance Level	Not Water Resistant

SETUP

IMINI 2 Initial Setup

The IMINI 2 features an integrated USB plug for direct charging. Before first use, ensure the flashlight is fully charged.

Charging the IMINI 2:

1. Locate the integrated USB plug at the tail of the IMINI 2.
2. Insert the USB plug directly into any standard USB-A port (e.g., computer, wall adapter, car charger).
3. The flashlight will charge within approximately 60 minutes.

I3T 2 EOS Initial Setup

The I3T 2 EOS comes with an included AAA alkaline battery. To install or replace the battery:

1. Unscrew the tail cap of the I3T 2 EOS flashlight.
2. Insert one AAA battery with the positive (+) end facing towards the head of the flashlight.
3. Screw the tail cap back on securely.

Note: The I3T 2 is also compatible with rechargeable AAA batteries, which can boost its maximum output to 300 lumens.

OPERATING INSTRUCTIONS

IMINI 2 Operation

The IMINI 2 features a unique magnetic activation system.

Turning On/Off:

- To turn the light **ON**, simply detach the flashlight body from its magnetic cap.
- To turn the light **OFF**, reattach the flashlight body to its magnetic cap.

INSTANT ON/OFF

Ensuring that you have immediate access to light when you need it most.
No more fumbling with a button to turn it on.

Image: The IMINI 2 flashlight showing how it illuminates instantly when separated from its magnetic base.

Hands-Free Use:

The magnetic base of the IMINI 2 allows it to be attached to iron surfaces for convenient hands-free illumination.

HANDS-FREE USE

Its magnetic base makes it easy to attach to any iron surface, freeing up your hands to complete tasks efficiently.

I3T 2 EOS Operation

The I3T 2 EOS is operated via its tail switch.

Turning On/Off and Mode Selection:

- **Momentary On:** Lightly press the tail switch for momentary illumination. Release to turn off.
- **Constant On:** Fully press the tail switch until it clicks for constant illumination. Press again to turn off.
- **Mode Switching:** Quickly press and release the tail switch (within 0.5 seconds) to cycle between Low and High modes. The flashlight can be initially powered on in your preferred low or high mode depending on your needs.

AMAZINGLY BRIGHT FOR ITS SIZE

The i3T 2 delivers an output up to 200 lumens, offering both constant and momentary-on options for various tasks and environments.

It can be initially powered on in low or high mode depending on your needs.

 **High Mode**

 **Low Mode**

MAINTENANCE

- Keep the flashlights clean and dry. Wipe with a soft, damp cloth as needed.
- For the IMINI 2, ensure the USB plug is free of debris before charging.
- For the I3T 2, regularly check and replace the AAA battery as needed. Remove batteries if the flashlight will not be used for an extended period.
- Do not disassemble the flashlight head as this may damage the light and void the warranty.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
IMINI 2 does not turn on.	Battery is depleted.	Charge the IMINI 2 using its integrated USB plug.
IMINI 2 light is dim.	Low battery.	Charge the IMINI 2.
I3T 2 does not turn on.	Battery is depleted or incorrectly inserted.	Replace the AAA battery or ensure it is inserted with correct polarity.
I3T 2 light is dim or flickers.	Low battery.	Replace the AAA battery.
Neither flashlight works.	General malfunction.	Contact OLIGHT customer support for assistance.
