## Umatoll B402

# Umatoll Colorful Lighting Baby Balance Bike

Model: B402

## INTRODUCTION

---

The Umatoll Colorful Lighting Baby Balance Bike is designed to help toddlers aged 12-24 months develop balance, coordination, and leg strength. This lightweight and sturdy bike features colorful light-up rear wheels, an adjustable seat, and a 135° steering limiter for enhanced safety and fun.

## IMPORTANT SAFETY INFORMATION

---

**Please read all safety instructions before assembly and use. Adult supervision is required at all times.**

- Assembly must be performed by an adult before use.
- Protective equipment (e.g., helmet, knee pads) should be worn.
- Not to be used in traffic or near stairs, steep inclines, or swimming pools.
- Adult supervision is necessary during operation.
- The 135° steering limiter is designed to prevent the baby from turning over.
- Fully enclosed wheels help avoid clamping the baby's feet.
- The TPU handle provides a firm grip and is designed to be hard to get off.
- Ensure there are no sharp parts exposed after assembly.

## WHAT'S IN THE BOX

---

- Baby Balance Bike (main frame, handlebar, seat, front wheel assembly, rear wheel assembly, basket)

## ASSEMBLY INSTRUCTIONS

---

The Umatoll Baby Balance Bike is designed for quick and tool-free assembly. Follow these simple steps:

1. Insert the handlebar into the front fork of the main frame until it clicks securely into place.
2. Attach the front wheel assembly to the main frame. Ensure the spring pin clicks all the way in.
3. Attach the rear wheel assembly to the main frame. Ensure the spring pin clicks all the way in.
4. Slide the seat onto the main frame. Adjust to the desired position and ensure it clicks to be considered successfully fixed.

5. Attach the small basket to the front of the handlebar post.

# REMOVABLE SMALL BASKET

Hold baby's small toys

## KEY FEATURES

---

### Glow Rear Wheels

The rear wheels feature colorful lighting effects that activate when spun, adding an engaging visual element for babies. No batteries are required for this feature.

# 1.5KG ULTRA LIGHT WEIGHT

Lightweight body design for baby to ride without burden

Figure 2: The colorful light-up rear wheels enhance playtime without needing batteries.

## Adjustable Seat

The seat offers 3-position adjustability, making it suitable for babies aged 12-24 months and allowing the bike to grow with your child. Always ensure the seat is securely fixed after adjustment.

Figure 3: The 3-position adjustable seat ensures a comfortable fit for growing toddlers.

### **135° Steering Limiter**

A built-in 135° steering limiter effectively prevents the handlebar from over-turning, reducing the risk of the bike tipping over and enhancing the baby's safety.

# PERFECT GIFT FOR TODDLERS 12-24 MONTHS

12~24 months

26"~32"

Only 1.5 kg  
(3.3 lbs)

Figure 4: The steering limit design helps prevent rollovers, making the bike safer for young riders.

## Ultra-Lightweight Design

Constructed with an aluminum main frame, the bike weighs only 1.5 kg (3.3 lbs), making it easy for toddlers to maneuver and stride without burden. This also makes it convenient for parents to carry.

Figure 5: The bike's lightweight construction allows for easy handling by both children and adults.

### **Soft Anti-Slip Handle & Sturdy Construction**

The bike features soft, anti-slip TPU handles for a secure grip and a robust design for durability and safety during play.

### Soft Anti-Slip Handle

Let your baby play more safely

### Sturdy Construction

Safe and robust design

### 3-Position Adjustable Seat

3-gear seat can be adjusted forward and backward

### Soft Outside Wheels

The wheels are non-slip, wear-resistant and do not damage the ground

Figure 6: Features like soft handles and sturdy construction ensure a safe and comfortable riding experience.

## Removable Small Basket

A convenient removable basket is included, allowing your child to carry small toys or snacks during their adventures.

Figure 7: The removable basket provides storage for small items, adding to the fun.

## OPERATING THE BALANCE BIKE

The Umatoll Baby Balance Bike is designed for intuitive use. Children propel themselves forward by pushing off the ground with their feet, helping them develop balance and coordination naturally. The EVA wheels are quiet and non-slip, suitable for both indoor and outdoor use.

# 135° SAFE LIMIT STEERING

- ✓ Avoid baby side falling down
- ✓ Free to turn around

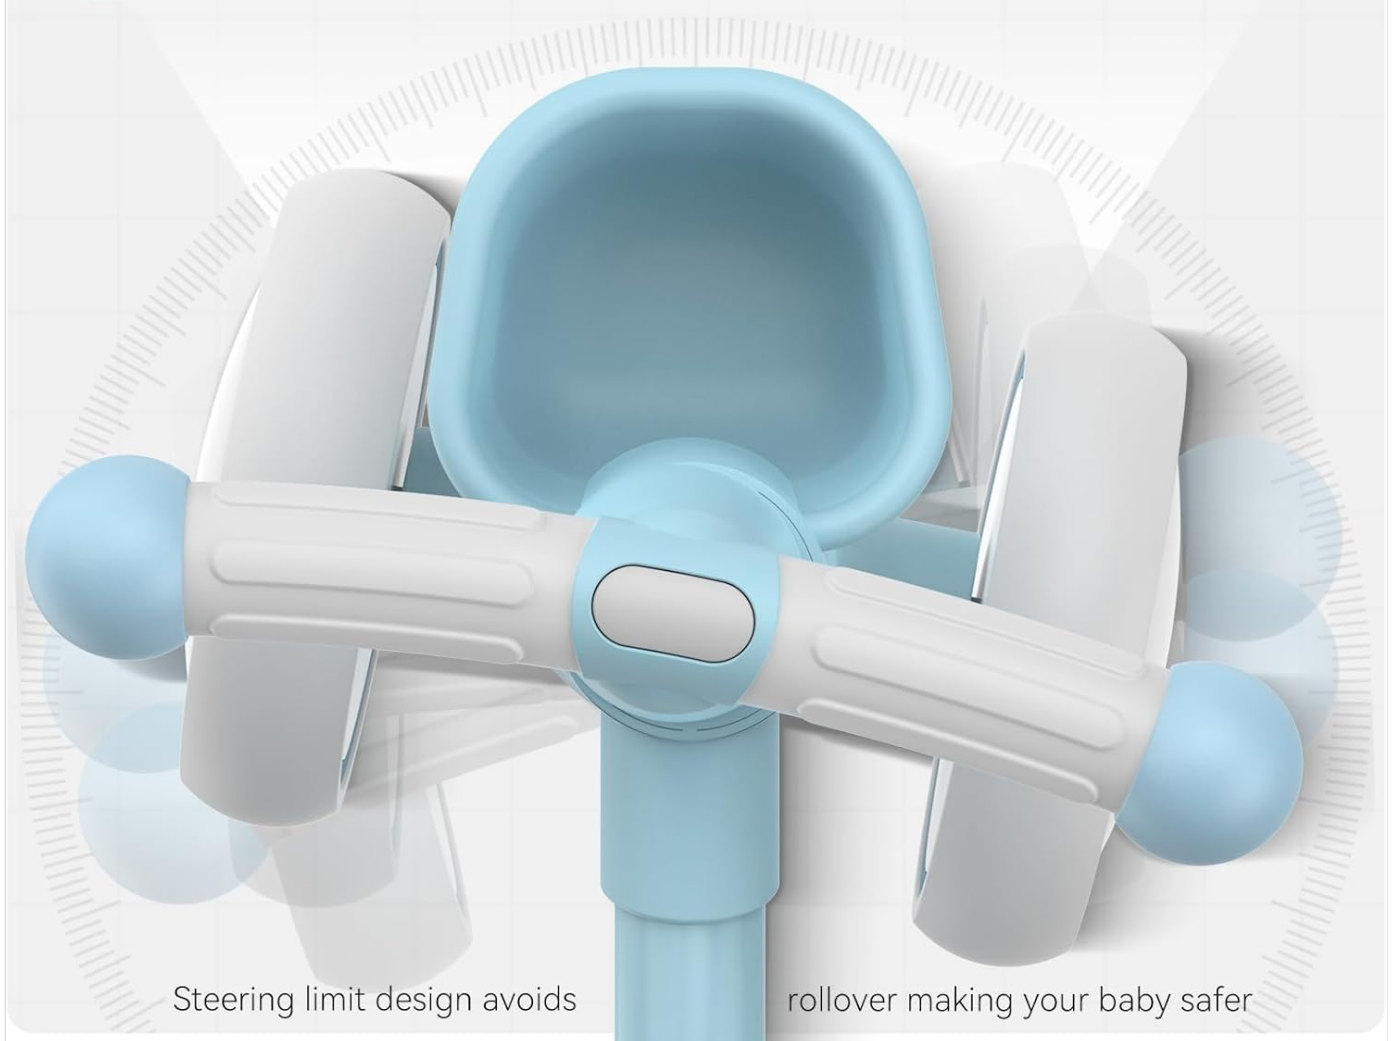

Figure 8: The bike is versatile for use on various surfaces, both indoors and outdoors.

## MAINTENANCE

---

- Regularly inspect all parts for wear and tear, especially the wheels, seat, and handlebar.
- Ensure all connections are secure before each use.
- Clean the bike with a damp cloth and mild soap. Avoid harsh chemicals.
- Store the bike in a dry place away from direct sunlight when not in use.

## TROUBLESHOOTING

---

- **Wheels not lighting up:** The light-up feature is motion-activated and does not require batteries. Ensure the wheels are spinning fast enough for the lights to activate.
- **Loose parts:** Re-check all assembly points to ensure they are securely clicked into place. Refer to the assembly instructions.

- **Difficulty with balance:** Encourage your child to start on a flat, open surface. Balance bikes are designed for children to learn at their own pace.
