## glaury 9 inch Touch Screen GPS Navigator

# glaury 9-inch Touch Screen GPS Navigator User Manual

Model: B0DWSBJF2R | UPC: 717097958328

## 1. PRODUCT OVERVIEW

The glaury 9-inch Touch Screen GPS Navigator is designed to provide reliable and intelligent route guidance for various vehicles, including cars, trucks, and RVs. It features a large, responsive display, real voice turn-by-turn directions, and advanced safety alerts. This manual will guide you through the setup, operation, and maintenance of your new navigation system.

The glauy 9-inch Touch Screen GPS Navigator provides clear, real-time navigation with a large display, ideal for cars, trucks, and RVs.

## 2. PACKAGE CONTENTS

Please ensure all items listed below are present in your package:

- GPS Navigation Unit
- Car Charger
- USB Cable
- Suction Cup Mount
- Back Bracket
- User Manual (this document)

GPS Navigation

User Manual

Suction Cup Mount

Dashboard Plate

USB Data Cable

Car Charger

Verify all components are present upon unboxing. The package includes the GPS navigation unit, car charger, USB cable, suction cup mount, back bracket, and this user manual.

## 3. SETUP

### 3.1 Charging the Device

Before first use, fully charge the GPS navigator using the provided car charger or USB cable. Connect the car charger to your vehicle's 12V power outlet and the GPS unit. A full charge ensures optimal performance.

### 3.2 Mounting the Device

1. Clean the desired mounting surface (windshield or dashboard) to ensure a strong suction.
2. Attach the back bracket to the GPS unit.
3. Press the suction cup firmly against the surface and push down the lever to secure it.
4. Adjust the angle of the GPS unit for optimal viewing without obstructing your driving view.

### 3.3 Initial Power On

Press and hold the power button to turn on the device. Follow the on-screen prompts to select your preferred language, time zone, and other initial settings. The device will automatically attempt to acquire a GPS signal.

## 4. OPERATING INSTRUCTIONS

### 4.1 Basic Navigation

To begin navigation, tap the 'Navigation' icon on the main menu. You can search for destinations using:

- **Address:** Enter street name, house number, city, and state/province.
- **Postcode:** Enter the postal code for quick location.
- **Coordinates:** Input latitude and longitude.
- **Favorite:** Select from your saved favorite locations.
- **POI (Points of Interest):** Search for nearby gas stations, restaurants, hotels, etc.

After entering your destination, the device will calculate the route. You can choose from four route options: *Fast*, *Green* (most fuel-efficient), *Short*, or *Easy*.

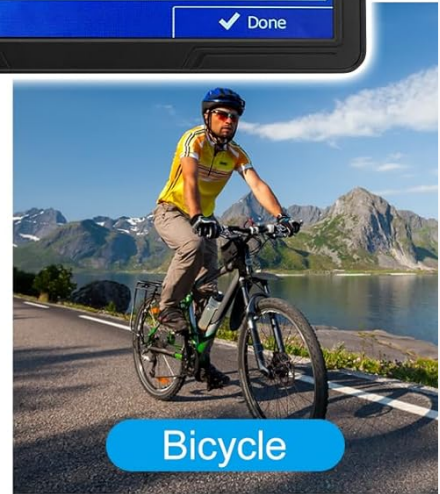

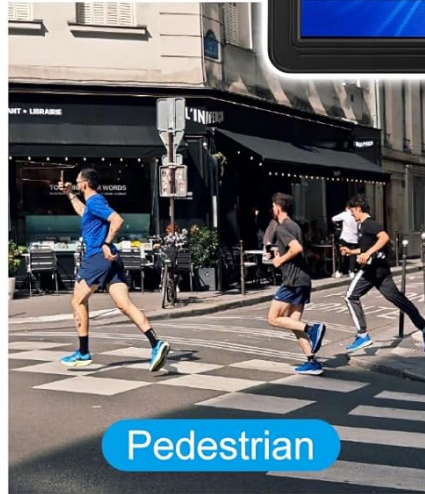

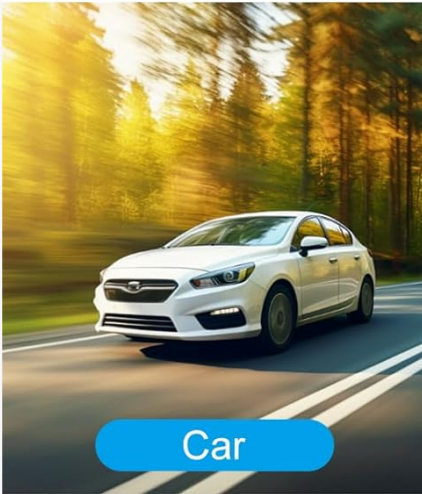

### 4.2 Intelligent Route Planning

The GPS navigator allows for customized route planning based on your vehicle's specific characteristics to avoid unsuitable roads.

- **Vehicle Type:** Supports 7 vehicle types: Car, Truck, Bus, Taxi, Emergency, Bicycle, and Pedestrian. Select the appropriate type for accurate routing.
- **Vehicle Dimensions:** For larger vehicles (e.g., trucks, RVs), you can input your vehicle's weight, length, height, and width. This feature helps avoid roads with restrictions (e.g., low bridges, weight limits).

# Intelligent Route Planning

Avoid routes with weight, height and width restrictions

The intelligent route planning feature allows you to input your vehicle's specific dimensions (length, width, height, weight) to avoid restricted roads. It supports various vehicle types including cars, trucks, buses, taxis, emergency vehicles, bicycles, and pedestrians.

## 4.3 Voice Guidance and Alerts

The device provides clear, real voice spoken turn-by-turn directions, including street names, to keep your eyes on the road. It also offers crucial safety alerts:

- **Speed Warning:** Alerts you when exceeding the speed limit.
- **Red Light Warning:** Notifies you of upcoming red light cameras.
- **Camera Alerts:** Warns about speed cameras.
- **Active Lane Assistant:** Guides you to the correct lane for upcoming turns or exits.
- **Display Remaining Distance & Estimated Arrival Time:** Provides real-time journey information.

## Intelligent Voice Guidance

Speed Limit

Turn Alerts

Camera Alerts

Traffic Light

60 mph speed limit ahead

0.3 miles ahead, turn right

Gas station 3 miles away

You are speeding

### FM Transmitter

Not only can you use the device's own speakers, but you can also connect the FM Transmitter and play the navigation through your car's speakers for extra clarity

The device provides intelligent voice guidance for turn-by-turn directions and issues alerts for speed limits, upcoming turns, speed cameras, and red lights to enhance driving safety.

#### 4.4 FM Transmitter Function

The built-in FM transmitter allows you to transfer the GPS audio (voice directions, alerts) to your car's stereo system. This is not an FM radio, but a way to broadcast the GPS sound to your car's speakers for clearer audio.

1. Go to the FM Setting menu on your GPS device.
2. Select an unused FM frequency.
3. Tune your car's FM radio to the same frequency.
4. The GPS audio will now play through your car's speakers.

# Free Lifetime Map Updates

Touch Screen

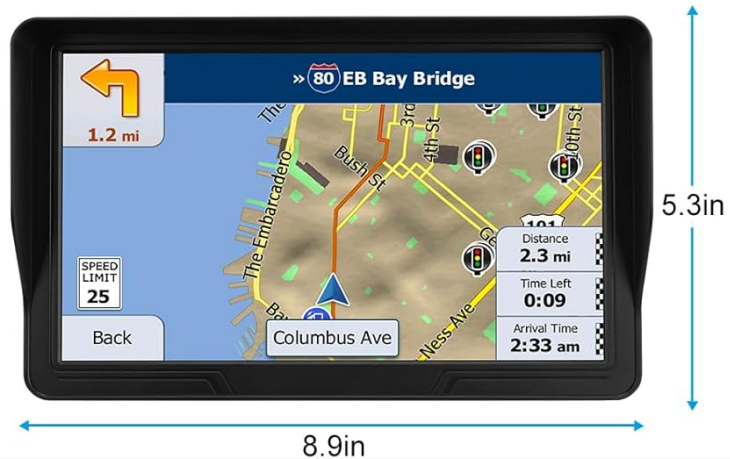

FM Transmitter

Intelligent Voice

Poi & Zip Search

Utilize the built-in FM transmitter to broadcast the GPS audio through your vehicle's FM radio, allowing for clearer sound through your car's speaker system.

## 5. MAP UPDATES

Your glauy GPS Navigator comes pre-installed with the most up-to-date maps for the United States, Canada, and Mexico. It includes lifetime free map updates to ensure your navigation data remains current.

To update your maps:

1. **Via PC:** Connect your GPS device to a Windows PC using the provided USB cable. Follow the instructions provided with the update software (usually available for download from the manufacturer's website).
2. **Via TF Card:** Download map updates to a TF (microSD) card (not included) from the manufacturer's website. Insert the TF card into the GPS device to install the updates.

For maps of other regions (e.g., Europe), please contact glauy customer support for download instructions.

## 6. MAINTENANCE

### 6.1 Cleaning the Device

To clean the screen and casing, use a soft, lint-free cloth. For stubborn marks, slightly dampen the cloth with water or a screen cleaner. **Do not** use abrasive cleaners, alcohol, or solvents, as these can damage the device.

### 6.2 Storage

When not in use for extended periods, store the GPS navigator in a cool, dry place, away from direct sunlight and extreme temperatures. Remove the device from the mount to prevent prolonged exposure to heat or cold inside a vehicle.

## 7. TROUBLESHOOTING

This section addresses common issues you might encounter. For more detailed troubleshooting, refer to the comprehensive user manual included in your package or contact support.

Problem	Possible Solution
Device does not power on.	Ensure the device is fully charged. Connect to the car charger or USB cable and try again. If the battery is completely drained, it may take a few minutes to respond.
GPS signal not acquired.	Ensure the device has a clear view of the sky (not obstructed by buildings, tunnels, or dense foliage). Move to an open area. It may take a few minutes for the first signal acquisition.
Touch screen is unresponsive.	Restart the device. If the issue persists, ensure the screen is clean and free of debris.
Voice guidance is too low/not audible.	Check the volume settings on the device. Ensure the FM transmitter is correctly configured if you are using your car's speakers.
