## SETUP AND ASSEMBLY

---

Assembly of the Mavivegue Portable Closet Wardrobe is designed to be straightforward and requires no additional tools. Follow these steps carefully:

1. **Unpack and Identify Parts:** Lay out all tubes, connectors, and fabric pieces. Refer to the parts list in the included instruction manual to identify each component.
2. **Assemble the Base Frame:** Connect the longest tubes with the appropriate connectors to form the bottom rectangular base of the wardrobe. Ensure all tubes are fully inserted into the connectors.
3. **Build Upwards:** Continue adding vertical tubes and connecting them with shelves and horizontal tubes to build the frame layer by layer. For easier fitting, *rotate the steel tubes slightly* as you insert them into the connectors. This ensures a more solid connection and prevents the connector from falling off.
4. **Install Hanging Rods:** Insert the designated hanging rods into their respective connectors as indicated in the assembly diagram.
5. **Place Fabric Shelves:** Once the frame for a section is complete, lay the fabric shelves over the horizontal tubes, ensuring they are taut and secure.
6. **Attach the Fabric Cover:** Once the entire frame is assembled, carefully drape the non-woven fabric cover over the structure. Align the zippers and secure the cover around the frame.
